This book represents the first comprehensive compilation of information on all aspects of the medicinal plant *Panax ginseng*, ranging from its botany to applied aspects in medicine and molecular breeding. In contributions by respected experts, it also discusses the genetic background and biochemical profile of this important medicinal plant. Ginsenoside biosynthesis and metabolic dynamics are also described in detail. Given its scope, the book offers a valuable guide for students, educators and scientists in academia and industry interested in medicinal plants and pharmacy. This is the first comprehensive book on the European Hermes program. It tells the fascinating story of how Europe aimed for an independent manned spaceflight capability which was to complement US and Soviet/Russian space activities. In 1975,

## Online Library G13ba Engine Specs File Type

France decided to expand its plans for automated satellites for materials processing to include the development of a small 10 ton spaceplane to be launched on top of a future heavy-lifting Ariane rocket. This Hermes spaceplane would give Europe its own human spaceflight capability for shuttling crews between Earth and space stations. The European Space Agency backed the proposal.

Unfortunately, after detailed studies, the project was cancelled in 1993. If Hermes had been introduced into service, it could have become the preferred "space taxi" for ferrying crews to and from the International Space Station. But that opportunity was lost. This book provides the first look of the complete story of and reasons for the demise of this ambitious program. It also gives an account which pieces of Hermes survived and are active in the 2nd decade of the 21st century. This fascinating story will be a great read for

On 29th January 1998 the House of Commons resolved that it was expedient that a tribunal be established for inquiring into a definite matter of urgent public importance, namely "the events on Sunday, 30 January 1972 which led to loss of life in connection with the procession in Londonderry on that day,

taking account of any new information relevant to events on that day." On 2nd February 1998 the House of Lords also passed this resolution. With the exception of the last 12 words, these terms of reference are virtually identical to those for a previous Inquiry held by Lord Widgery (then the Lord Chief Justice) in 1972. Both inquiries were conducted under the provisions of the Tribunals of Inquiry (Evidence) Act 1921. In his statement to the House of Commons on 29th January 1998 the Prime Minister (The Rt Hon Tony Blair MP) said that the timescale within which Lord Widgery produced his report meant

## Online Library G13ba Engine Specs File Type

that he was not able to consider all the evidence that might have been available. He added that since that report much new material had come to light about the events of the day. In those circumstances, he announced: "We believe that the weight of material now available is such that the events require re-examination. We believe that the only course that will lead to public confidence in the results of any further investigation is to set up a full-scale judicial inquiry into Bloody Sunday." The Prime Minister made clear that the Inquiry should be allowed the time necessary to cover

thoroughly and completely all the evidence now available. The collection, analysis, hearing and consideration of this evidence (which is voluminous) have necessarily required a substantial period of time. The Tribunal originally consisted of The Rt Hon the Lord Saville of Newdigate, a Lord of Appeal in Ordinary, The Hon William Hoyt OC, formerly the Chief Justice of New Brunswick, Canada, and The Rt Hon Sir Edward Somers, formerly a member of the New Zealand Court of Appeal. Before the Tribunal began hearing oral evidence, Sir Edward Somers retired through ill health. The Hon John Toohey AC,
