An introduction to the artillery, poison gas, guns, tanks, and U-boats and torpedoes used in World War I.

*Understand Video Games as Works of Science Fiction and Interactive Stories* Science Fiction Video Games focuses on games that are part of the science fiction genre, rather than set in magical milieux or exaggerated versions of our own world. Unlike many existing books and websites that cover some of the same material, this book emphasizes critical analysis, especially the analysis of narrative. The author analyzes narrative via an original categorization of story forms in games. He also discusses video games as works of science fiction, including their characteristic themes and the links between them and other forms of science fiction. Delve into a Collection of Science Fiction Games The beginning chapters explore game design and the history of science-fictional video games. The majority of the text deals with individual science-fictional games and the histories and natures of their various forms, such as the puzzle-based adventure and the more exploratory and immediate computer role-playing game (RPG).

An overview of the final years of World War I, emphasizing the role of the United States.

*Player. Jock. Slacker. Competitor. Superhero. Goofball.* Boys are besieged by images in the media that encourage slacking over studying; competition over teamwork; power over empowerment; and being cool over being yourself. From cartoons to video games, boys are bombarded with stereotypes about what it means to be a boy, including messages about violence, risktaking, and perfecting an image of just not caring. Straight from the mouths of over 600 boys surveyed from across the U.S., the authors offer parents a long, hard look at what boys are watching, reading, hearing, and doing. They give parents advice on how to talk with their sons about these troubling images and provide them with tools to help their sons resist these messages and be their unique selves.

The new novel set within the action of the Xbox Game Studios video game Gears 5, by New York Times bestselling author Jason Hough. **THE OFFICIAL TIE-IN TO THE EXCITING VIDEO GAMES GEARS 5 AND GEARS TACTICS** In the aftermath of Settlement 2's destruction, Kait Diaz reels from the near loss of a close friend amid utter defeat at the hands of the Swarm. To move forward, she must choose either to walk the Outsider path of her mother, or rise to her beckoning duty as a Gear, as her father did. As Kait grapples with her circumstance, an unexpected ally illuminates secrets from the past that offer a new perspective. Over four decades before, the two superpowers of Sera - the Coalition of Ordered Governments, and the Union of Independent Republics - wage a bitter, worldwide conflict known as the Pendulum Wars. For nearly a century, the two have fought to wrest control over Sera's most precious energy resource: Imulsion. On the 79th year of the Pendulum Wars, Gabriel Diaz is a decorated Lieutenant Colonel serving the Coalition, assigned to Vectes Naval Base - a fortress that's seen little action despite its close proximity to UIR territory. The island's relative quiet is disturbed when a COG special forces team known as Ghost Squad arrive with a mysterious mission to the nearby island of Knifespire: an unforgiving rock of seemingly no strategic value. When the Ghosts send out a distress call, it's up to Gabe to evacuate them - and what he discovers on Knifespire could change the very course of the Pendulum Wars. There, the Battle of Gatka Ridge will define Gabe's legacy, and shape the future of his daughter, Kait Diaz.

Gears of War: Jacinto's Remnant

For the first time, fans of the blockbuster Gears of War video games get an in-depth look at Delta Squad's toughest fighters—soldier's soldier Marcus Fenix and rock-solid Dominic Santiago—as well as a detailed account of the pivotal battle of the Pendulum Wars. As kids, the three of them were inseparable; as soldiers, they were torn apart. Marcus Fenix and Dominic Santiago fought alongside Dom's elder brother Carlos at Aspho Fields in the epic battle that changed the course of the Pendulum Wars. There' s a new war to fight now, a war for mankind's very survival. But while the last human stronghold on Sera braces itself for another onslaught from the Locust Horde, ghosts come back to haunt Marcus and Dom. For Marcus—decorated war hero, convicted traitor—the return of an old comrade threatens to dredge up an agonizing secret he's sworn to keep. As the beleaguered Gears of the Coalition of Ordered

Governments take a last stand to save mankind from extermination, the harrowing decisions made at Aspho Fields have to be re-lived and made again. Marcus and Dom can take anything the Locust Horde throws at them—but will their friendship survive the truth about Carlos Santiago?

An original Gears of War novel, exclusively detailing the aftermath of the Locust War written by New York Times bestselling author Michael A. Stackpole. The Locust War has ended with an energy weapon that pulsed across the land, destroying Locust and Lambent alike. The world is in shambles and the few survivors are isolated from one another. Humanity must begin anew. This novel reveals the canonical, never-before-seen events set in the time immediately following the game Gears of War 3. With most of Sera's civilization destroyed, Sergeant Marcus Fenix and Lieutenant Anya Stroud must somehow rebuild on the ruins. For Marcus, his purpose is impossible to grasp. With no clear enemy to fight, there may be no place left for him in this postwar world. Some call him hero, others view him with resentment. As Anya struggles to create alliances to re-form the Coalition of Ordered Governments, she quickly discovers how impossible it is to tell friend from foe. Then whispers of Locust still stalking the land begin to spread. Fearing the worst, Marcus forms a team to assess the potential threat. As he and the other Gears search for Locust survivors, however, they quickly discover that the new enemy may be all-too-human, and utterly ruthless.

*Between 1887 and 1895, the British art student Miles Vendercroft travelled around the world, sketching and painting the soldiers of the countries through which he passed. In this age of dramatic technological advancement, Vendercroft was fascinated by how the rise of steam technology at the start of the American Civil War had transformed warfare and the role of the fighting man. This volume collects all of Vendercroft's surviving paintings, along with his associated commentary on the specific military units he encountered. It is a unique pictorial guide to the last great era of bright and colourful uniforms, as well as an important historical study of the variety of steam-powered weaponry and equipment that abounded in the days before the Great War of the Worlds.*

*Understand what a world had to do to survive. When the Locust Horde burst from the ground fifteen years ago to slaughter the human population of Sera, mankind began a desperate war against extinction. Now after a decade and a half of bloody fighting, and with billions dead, the survivors—the Gears of the Coalition of Ordered Governments, along with a small band of civilians—have been forced to destroy their own cities and sacrifice their entire civilization to halt the Locust advance. The last-ditch measures have succeeded, but at an enormous cost: the survivors have been reduced to a handful of refugees.*

*Escaping to a haven on the remote island of Vectes, they begin the heartbreaking task of rebuilding their devastated world. For a while, there's hope . . . making peace with old enemies, and once again planning for the future. But the short respite is shattered when Vectes comes under siege from an even deadlier force than the Locust—the Lambent, a hideous and constantly mutating life-form that destroys everything in its path. As the Lambent's relentless assault spreads from the mainland to the island, the refugees finally understand what drove the Locust from their underground warrens and sparked the global war. While Marcus Fenix and the Gears struggle to hold back the invasion, the Coalition faces a stark choice—fight this new enemy to the last human, or flee to the wastelands to take their chances and live like the human pariahs known as the Stranded . . . even as Coalition chairman Richard Prescott still guards one last, terrible secret about the Locust, the Lambent, and the future of mankind. . . .*
