expert peer-reviewers within a time line that is much more favorable than many other academic publications.

The best education system provides the best education to all children, irrespective of their ethnic group or socio-economic background. Malaysian education system aims to ensure that all children, irrespective of who their parents are and where they are schooling, will be equipped with the basic needs to succeed in their future educational endeavours and eventually in daily life and

the workforce. Malaysian education system strives to narrow the socio-economic gap, between rural and urban as well as gender in student achievement by 2020. Reducing socioeconomic disparities between rural and urban are likely to have an impact on the achievement gap among students. The education system in Malaysia will actively support social mobility by providing additional supports to those who are less fortunate, and thus ensure socio-economic background of students is no longer a

determinant factor of their success in life. However, in the effort to realize equity in education to all children in Malaysia, we are confronted with all sorts of problems and challenges. Empirical studies with scientific explanations will provide insights into how education for underprivileged primary and secondary students in Malaysia can be further improved to ensure equal accessibility to quality education. This book attempts to bring together prominent researchers and educators in the field of rural education to

***This book showcases some of the best
digital library practices from organizations
in the Asia Pacific. Particular emphasis has
been placed on the design, use and usability
of digital libraries. In addition to digital***

libraries, it also examines related technologies, the management of knowledge in digital libraries, and the associated usability and social issues surrounding digital libraries. The book will benefit practitioners, researchers, educators and policy makers from a variety of disciplines. In particular developers/designers of digital libraries, librarians, users and researchers will all find this collection of case studies a valuable tool.

research concerns the processes of learning and the development of learners. It is a learner-centred activity that aims to evaluate and improve the ways that students learn and learn to manage, control and comprehend their own learning processes, first as Geographers in Higher Education but equally as future educated citizens. This book collects together some key research papers from the Journal of Geography in Higher Education. They concern original research and critical perspectives on how Geographers learn, critical evaluations of both new and traditional frameworks and methods used for Pedagogic research in Geography, and some case studies on the promotion of self-authorship, learner

want to find a success mantra, then it has to be - 'know the right thing at the right time, make right use of it in just the right words.' Everybody has his own bank of knowledge; some have more than others, but, does it serve any purpose if you don't know how to use your knowledge well. Disha's 'Mission IAS' is acclaimed as one of the most authoritative and comprehensive books of high-quality reference materials to cater to aspirants of IAS exams. Main features of the book are --

- Exclusively designed to cater to the aspirants of IAS.
- Covers exam patterns of CSAT (Prelims & Main - English,
