"Barbara Freethy is one of my favorite authors! She creates amazing characters and stories, with a lot of love, friendship and mystery that make her books always very, very good." Cinthia - Goodreads Molly Trent is a passionate herbalist whose sorrow-filled childhood has

driven her to a new mission in life—to make people feel better. Unfortunately, a series of burglaries at her wellness shop and a disgruntled customer put her in the path of a cynical and suspicious detective, who thinks she does more harm than good. She's used to criticism, but she sees something in the tightly-controlled police detective that she wants to unleash, if only she could get him to trust her. Trust doesn't come easily to Detective Adam Cole. He has been a loner for as long as he can remember. He's very good at protecting people. He's great at being a friend, but relationships that go beyond that—not so much. After a heartbreaking tragedy at nineteen, he put up walls that are never coming down. Despite what Molly Trent might think, he does not need help or herbs to be happy. Unfortunately, what he needs is her. The chemistry between them almost makes him wonder if she hasn't cast some sort of spell over him. But he fights their attraction hard, because he doesn't do forever, and he can't imagine that an optimistic romantic like Molly would settle for anything less. But when they get tangled up in life and love, anything can happen... Irresistible and captivating romance awaits in TANGLED UP IN YOU, the next book in the Whisper Lake Series. Don't miss any

books in the Whisper Lake Series: Always With Me #1 My Wildest Dream #2 Can't Fight The Moonlight #3 Just One Kiss #4 If We Never Met #5 Tangled Up In You #6 What the readers are saying about Whisper Lake... Isha C - Goodreads "I have just finished CAN'T FIGHT THE MOONLIGHT and WOW such an emotional book. The characters of Justin and Lizzie were so well written, with so much depth. There were scenes in this book that gave me a lump in my throat. Absolutely loved this book...and can't wait for the next one!" Booklovers Anonymous "This book has it all—some laughs, some tears, some drama, and, of course, romance. You're always guaranteed a happy-ever-after from this author, but it's the emotional journey she takes the characters on that make it well worth the ride." Stacey -

Goodreads on CAN'T FIGHT THE MOONLIGHT "Barbara Freethy never disappoints. This newest installment in her Whisper Lake series, has it all, romance, drama, danger and a little steam. We meet Keira and Dante, who find their HEA in spite of the crazy. Make sure you add this one to your TBR list." The bestselling book revealing why Americans are so fearful, and why we fear the wrong things--now updated for the age of Trump In the age of Trump, our society is defined by fear. Indeed, three out of four Americans say they feel more fearful today than they did only a couple decades ago. But are we living in exceptionally perilous times? In his bestselling book The Culture of Fear, sociologist Barry Glassner demonstrates that it is our perception of danger that has increased, not the actual level of risk. Glassner exposes the people and organizations that manipulate our perceptions and profit from our fears: politicians who win elections by heightening concerns about

crime and drug use even as rates for both are declining; advocacy groups that raise money by exaggerating the prevalence of particular diseases; TV shows that create a new scare every week to garner ratings. Glassner spells out the prices we pay for social panics: the huge sums of money that go to waste on unnecessary programs and products as well as time and energy spent worrying about our fears. All the while, we are distracted from the true threats, from climate change to worsening inequality. In this updated edition of a modern classic, Glassner examines the current panics over vaccination and "political correctness" and reveals why Donald Trump's fearmongering is so dangerously effective.

The Kabbalah has long languished in darkness, unknown outside the confines of Jewish Mysticism and the communities who practiced it. But today, the Kabbala

well-known but often misunderstood. The story of Kabbalah is as old as Judaism itself, with many of the ideas present in the Hebrew Scriptures interpreted in the canon of Kabbalah. Applying Jewish theological premises and Neo-Platonist cosmology, the Kabbalists created a systematic interpretation of familiar Creation Narrative in the Book of Genesis, which today illuminates and serves Judaism. At the same time, Kabbalistic concepts have entered mainstream consciousness with great interest expressed in mainstream Christianity and even in modern science.

In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God, expressing how divine grace operates at the level of human emotion. Through close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith lived experience. In turn, 'holy mourning' served as a way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping king

Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.

On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. "I should start back before I get lost," she whispered to a bunny on the path. Then she laughed, "I will go back but just, just a little later!" It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later. Overcomers Against All Odds

A Practical Guide to Reconnecting With Your Divine Blueprint

ON THE RUN Emma McKinnon must escape an unwanted suitor and his manipulative sister, who won't take no for an answer. Marriage might save her from destitution, but she'd only be trading one nightmare for another. As a penniless vicar's daughter, she has nothing to lose except ownership of her heart. Emma takes a position as a governess on Star Frost, an elusive island off the coast of Cornwall. From the moment of his birth, Calvin Stanley West, Duke of Renvere, was blessed. But none of his successes and wealth could have prepared him for the fire that killed his wife and left him and one of his daughters horrifically scarred. Worse still, the same glittering aristocratic society that had bowed in his presence now whispered cruel insults about his children. He abandoned his life, his prestige, and secreted his daughters away to a place where no whispered barbs would reach their precious ears. *THEY CAN'T HIDE FOREVER* Calvin's prayers are answered when a governess arrives on his doorstep, but this is no ordinary governess. She's young, beautiful, and she stirs a passion inside him he thought had been burned away forever. Emma swiftly

becomes enamored with Star Frost and her new charges. But the duke, though scarred and intimidating, is also kind, dedicated to his children, and the most handsome man she'd ever seen. He makes her long for things she'd been raised to never feel. Is it a trick of the mysterious island or is the duke the one man her heart has yearned for all along? Just when she feels safe and the attraction between them ignites into a passionate affair, the people she ran from have hunted her down, shattering her hopes. Emma's instinct is to run again, but if she does, she will have to give up everything she loves or stay and fight for her heart's desire. The choice should be easy, but is desire enough for her? Can Calvin love her in return or will the memory of his wife turn their passionate affair to ash?

Digital Genesis charts the evolution of computing and the rise of artificial intelligence. From cloud AI services and autonomous robots, to 3D printers

and quantum processors, the book details the latest digital technologies and predicts their future development and implications. Late last century the human race learnt how to enter cyberspace. But in the 2020s the reverse will happen, with computers, robots and AI set to transform the physical world. Soon driverless vehicles will rule our highways, while many products will be manufactured in 'dark factories' by smart machines. Some of tomorrow's most sophisticated technologies may even be organically grown using the latest digital science of synthetic biology. Digital Genesis is written by futurist Christopher Barnatt, who in his 1995 book Cyber Business predicted the arrival of e-business and online social networks. Over 20 years later, he looks ahead to the Cognitive Computing Age, and beyond that to the era of 'cyborg fusion' in which the future of computing will become the future of ourselves.
