An acclaimed sociologist illuminates the public life of an American city, offering a major reinterpretation of the racial dynamics in America. Following his award-winning work on inner-city violence, *Code of the Street*, sociologist Elijah Anderson introduces the concept of the "cosmopolitan canopy"—the urban island of civility that exists amidst the ghettos, suburbs, and ethnic

enclaves where segregation is the norm. Under the cosmopolitan canopy, diverse peoples come together, and for the most part practice getting along.

Anderson's path-breaking study of this setting provides a new understanding of the complexities of present-day race relations and reveals the unique opportunities here for cross-cultural interaction. Anderson walks us through Center City Philadelphia,

With compelling, meticulous descriptions of public spaces such as 30th Street Station, Reading Terminal Market, and Rittenhouse Square, and quasi-public places like the modern-day workplace, Anderson provides a rich narrative account of how blacks and whites relate and redefine the color line in everyday public life. He reveals how eating, shopping, and people-watching under

Weaving colorful observations with keen social insight, Anderson shows how the canopy—and its lessons—contributes to the civility of our increasingly diverse cities.

By contrast, our contributors see beyond the horizon of Progressivism to take account of the Founders' moral and political premises and illuminate its effects on our political science and political practice today. It is a study in political philosophy, intellectual history, and current political
