

Global Baby Boys Global Fund For Children Books Hardcover

Illustrations and rhyming text present some of the different ways a dinosaur can make her birthday party special, from thanking guests for their gifts to sharing large pieces of cake. Full color.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Global Baby Boys Charlesbridge Publishing

Award-winning author Richard Van Camp wrote this book to express his gratitude for all that surrounds him and his family. The strength of their connections, the nature that provides for them, the love that is endless. Complemented by photos from photographers who celebrate their own gratefulness on the collective blog Tea & Bannock, the simple verse in May We Have Enough to Share is the perfect way to start or end your little one's days in gratitude.

The Girl Who Stood Up for Education and Was Shot by the Taliban

The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in

measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

“A gripping fly-on-the-wall story of the rise of this unique and important industry based on extensive interviews with some of the most successful venture capitalists.” - Daniel Rasmussen, Wall Street Journal “A must-read for anyone seeking to understand modern-day Silicon Valley and even our economy writ large.” -Bethany McLean, The Washington Post “A rare and unsettling look inside a subculture of unparalleled influence.” —Jane Mayer “A classic...A book of exceptional reporting, analysis and storytelling.” —Charles Duhigg From the New York Times bestselling author of More Money Than God comes the astonishingly frank and intimate story of Silicon Valley’s dominant venture-capital firms—and how their strategies and fates have shaped the path of innovation and the global economy Innovations rarely come from “experts.” Elon Musk was not an “electric car person” before he started Tesla. When it comes to improbable innovations, a legendary tech VC told Sebastian Mallaby, the future cannot be predicted, it can only be discovered. It is the nature of the venture-capital game that most attempts at discovery fail, but a very few succeed at such a scale that they more than make up for everything else. That extreme ratio of success and failure is the power law that drives the VC business, all of Silicon Valley, the wider tech sector, and, by extension, the world. In The Power Law, Sebastian Mallaby has parlayed unprecedented access to the most celebrated venture capitalists of all time—the key figures at Sequoia, Kleiner Perkins, Accel, Benchmark, and Andreessen Horowitz, as well as Chinese partnerships such as Qiming and Capital Today—into a riveting blend of storytelling and analysis that unfurls the history of tech incubation, in the Valley and ultimately worldwide. We learn the unvarnished truth, often for the first time, about some of the most iconic triumphs and infamous disasters in Valley history, from the comedy of errors at the birth of Apple to the avalanche of venture money that fostered hubris at WeWork and Uber. VCs’ relentless search for grand slams brews an obsession with the ideal of the lone entrepreneur-genius, and companies seen as potential “unicorns” are given intoxicating amounts of power, with sometimes disastrous results. On a more systemic level, the need to make outsized bets on unproven talent reinforces bias, with women and minorities still represented at woefully low levels. This does not just have social justice implications: as Mallaby relates, China’s homegrown VC sector, having learned at the Valley’s feet, is exploding and now has more women VC luminaries than America has ever had. Still, Silicon Valley VC remains the top incubator of business innovation anywhere—it is not where ideas come from so much as where they go to become the products and companies that

create the future. By taking us so deeply into the VCs' game, The Power Law helps us think about our own future through their eyes.

Meet babies from around the world in this best-selling celebration of global heritage! First in the Global Babies series. From Guatemala to Bhutan, seventeen vibrantly colored photographs embrace our global diversity and give glimpses into the daily life, traditions, and clothing of babies from around the world. Simple text in Spanish and English teaches the littlest readers that everywhere on earth, babies are special and loved. A perfect baby shower gift or first book for the toddler in your life. Who Will Finance Innovation?

Families around the world celebrate faith in many different ways—through praying, singing, learning, helping, caring, and more. With stunning photographs from many cultures and religious traditions, Faith celebrates the ways in which people worship around the globe . Thematically organized back matter gives additional information on common expressions of faith, and a glossary describes particular religions and elements of faith depicted in the book. A portion of the proceeds from the sales of this book helps support The Global Fund for Children ' s grantmaking to community-based projects serving vulnerable children around the world.

Learn about the opposites in Baby ' s world in this interactive photographic board book! This bright, playful board book introduces sets of opposites for babies to identify, from up and down to quiet and noisy! Each pair of concepts is demonstrated with fun photographs of young ones, making for an adorable read. And Baby Up, Baby Down is perfect for bedtime, with an ending that will settle Baby off to sleep.

Since its original publication in 1985, Tomie dePaola ' s Mother Goose has become a staple on children ' s bookshelves everywhere, and features over two hundred Mother Goose rhymes charmingly illustrated by one of today ' s most beloved artists. This special anniversary edition includes a framable print with brand-new art and an author ' s note from Tomie, and is sure to continue as a family favorite for generations to come.

The endearing siblings of Theo Heras' and Renné Benoit's Hat On, Hat Off and Baby Cakes return once more in a sweet celebration of bedtime. Humor, helpfulness, and heart combine as Baby's big sister helps to see him - and, of course, his stuffed bunny - through the nighttime routine from bath to bed. Little listeners will connect with familiar sensory language of warm, tickly water and blanket snuggles, and they will be able to enjoy it time and again in this study-format book with a padded cover, rounded corners, and extra-heavy paper. Preschoolers can chime in with Theo Heras' brief, descriptive text, and Renné Benoit's watercolor and digital art, full of big baby faces and warm pastel colours. Where's Bunny? will make bedtime a happy time for the whole family.

Global Trends 2040

Reproductive, Maternal, Newborn, and Child Health

Babies from Chicago show readers some of the distinctive things about the city where they live and play.

The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges – including in the context of the economic slowdown induced by the coronavirus disease (COVID-19) crisis.

While much progress has been made on achieving the Millenium Development Goals over the last decade, the number and complexity of global health challenges has persisted. Growing forces for globalization have increased the interconnectedness of the world and our interdependency on other countries, economies, and cultures. Monumental growth in international travel and trade have brought improved access to goods and services for many, but also carry ongoing and ever-present threats of zoonotic spillover and infectious disease outbreaks that threaten all. **Global Health and the Future Role of the United States** identifies global health priorities in light of current and emerging world threats. This report assesses the current global health landscape and how challenges, actions, and players have evolved over the last decade across a wide range of issues, and provides recommendations on how to increase responsiveness, coordination, and efficiency â€" both within the U.S. government and across the global health field.

Celebrate baby boys everywhere! In the tradition of best-selling **GLOBAL BABIES**, **GLOBAL BABY BOYS** shines a spotlight on boys from around the world, celebrating their strength, diversity, and potential. Babies love to look at babies and this bright collection of photos is a ticket to an around-the-world journey From Uruguay to the USA, this board book from the nonprofit Global Fund for Children features captivating photographs of curious, joyful, and adventurous baby boys from fourteen different cultures. The bright and bold pictures paired with simple text share a powerful message: no matter where they are born, baby boys can grow up to do anything. A perfect baby shower gift or first book for the toddler in your life. Part of the proceeds from this book's sales will be donated to the Global Fund for Children to support innovative community-based organizations that serve the world's most vulnerable children and youth.

Making Faces

Provides youngsters with an almost sensory experience." — School Library Journal

Hands can do all kinds of things — wave hello and good-bye, play peekaboo, touch things, clap, even tie a shoe. For the very young, hands are a never-ending source of discovery and a means of mastery in an ever-unfolding world. With singsong rhythm, simple design, and alluring color photos of toddlers, Hands Can invites the littlest readers to discover the many things hands can do.

This pocket book contains up-to-date clinical guidelines, based on available published evidence by subject experts, for both inpatient and outpatient care in small hospitals where basic laboratory facilities and essential drugs and inexpensive medicines are available. It is for use by doctors, senior nurses and other senior health workers who are responsible for the care of young children at the first referral level in developing countries. In some settings, these guidelines can be used in the larger health centres where a small number of sick children can be admitted for inpatient care.

This manual is a "one-stop shop" on how to present storytimes to suit different audiences including bilingual learners, special needs children, and those in a variety of settings such as Head Start, preschools, and day care situations. • Features strategies for using sign language and adapting storytime for special needs children • Includes ideas for expanding storytimes using hands-on learning, crafts, toys, and play

This baby is happy. Can you make a happy face? Find the happy baby! This bold, beautiful board book features six essential facial expressions: happy, sad, angry, surprised, silly, and sleepy. The idea is simple: Show a large, establishing image of a baby's face, then children making the same face, then ask the reader to find that baby among several other faces. The very last spread includes all of the baby faces and a mirror so babies can watch themselves make every face imaginable.

Global Health and the Future Role of the United States

Child injuries are largely absent from child survival initiatives presently on the global agenda. Through this report, the World Health Organization, the United Nations Children's Fund and many partners have set out to elevate child injury to a priority for the global public health and development communities. It should be seen as a complement to the UN Secretary-General's study on violence against children released in late 2006 (that report addressed violence-related or intentional injuries). Both reports suggest that child injury and violence prevention programs need to be integrated into child survival and other broad strategies focused on improving the lives of children. Evidence demonstrates the dramatic successes in child injury prevention in countries which have made a concerted effort. These results make a case for increasing investments in human resources and institutional capacities. Implementing proven interventions could save more than a thousand children's lives a day.--p. vii.

Babies everywhere love to play! The newest edition of the best-selling, photo-illustrated Global Babies series. Babies all over the globe play in different ways. They clap, point, wave, and touch. They play with balls, rattles, and blocks--and with other babies. No matter how they play, they're learning about the world around them. Time to play, global babies! Each page features adorable photos of babies from all around the world, making for the perfect baby-shower gift or first bedtime read for the toddler in your life. Part of the proceeds from this book's sales will be donated to Global Fund for Children to support innovative community-based organizations that serve the world's most vulnerable children and youth.

In Thrive, Arianna Huffington makes an impassioned and compelling case for the need to redefine what it means to be successful in today's world. Arianna Huffington's personal wake-up call came in the form of a broken cheekbone and a nasty gash over her eye--the result of a fall brought on by exhaustion and lack of sleep. As the cofounder and editor-in-chief of the Huffington Post Media Group--one of the fastest growing media companies in the world--celebrated as one of the world's most influential women, and gracing the covers of magazines, she was, by any traditional measure, extraordinarily successful. Yet as she found herself going from brain MRI to CAT scan to echocardiogram, to find out if there was any underlying medical problem beyond exhaustion, she wondered is this really what success feels like? As more and more people are coming to realize, there is far more to living a truly successful life than just earning a bigger salary

and capturing a corner office. Our relentless pursuit of the two traditional metrics of success--money and power--has led to an epidemic of burnout and stress-related illnesses, and an erosion in the quality of our relationships, family life, and, ironically, our careers. In being connected to the world 24/7, we're losing our connection to what truly matters. Our current definition of success is, as Thrive shows, literally killing us. We need a new way forward. In a commencement address Arianna gave at Smith College in the spring of 2013, she likened our drive for money and power to two legs of a three-legged stool. They may hold us up temporarily, but sooner or later we're going to topple over. We need a third leg--a third metric for defining success--to truly thrive. That third metric, she writes in Thrive, includes our well-being, our ability to draw on our intuition and inner wisdom, our sense of wonder, and our capacity for compassion and giving. As Arianna points out, our eulogies celebrate our lives very differently from the way society defines success. They don't commemorate our long hours in the office, our promotions, or our sterling PowerPoint presentations as we relentlessly raced to climb up the career ladder. They are not about our resumes--they are about cherished memories, shared adventures, small kindnesses and acts of generosity, lifelong passions, and the things that made us laugh. In this deeply personal book, Arianna talks candidly about her own challenges with managing time and prioritizing the demands of a career and raising two daughters--of juggling business deadlines and family crises, a harried dance that led to her collapse and to her "aha moment." Drawing on the latest groundbreaking research and scientific findings in the fields of psychology, sports, sleep, and physiology that show the profound and transformative effects of meditation, mindfulness, unplugging, and giving, Arianna shows us the way to a revolution in our culture, our thinking, our workplace, and our lives.

A toddler plays a game of peekaboo, and you're invited to play too. First there's Mommy to find, with Daddy not far behind. Then Puppy comes peeking around the corner, and a favorite toy train brings the toddler to Grandma and Grandpa. Isadora's brilliant, joyful pastel illustrations capture the familiar and cozy people, toys and animals that will delight babies. Join this sweet toddler in the morning fun, sharing words your baby can repeat and pictures your baby will recognize. Then find out what this toddler sees next. It could be you!

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Describes the special relationship that exists between children and their pet dogs all around the world.

What We Owe Each Other

The Power Law

World Report on Child Injury Prevention

Shows how children around the world stay healthy by eating good food, having access to clean water, living in safe homes, and sharing a loving community.

Babies get ready for bed differently around the world, but they are all cuddled, snuggled, and loved! Part of the best-selling Global Babies series. Good night, global babies! Babies love to look at babies and this bright collection of photos is a ticket to an around-the-world journey. From Panama to Peru, Vietnam to Argentina, each of the sixteen colorful photos in Global Baby Bedtimes is a glimpse into a new country and culture. Celebrate (quietly!) different bedtime routines and introduce babies and toddlers to their global neighbors as they all get ready to say "goodnight." A perfect baby shower gift or first book for the toddler in your life. Part of the proceeds from this book's sales will be donated to the Global Fund for Children to support innovative community-based organizations that serve the world's most vulnerable children and youth.

From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting from public services define the social contract that supports

and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. *What We Owe Each Other* identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, *What We Owe Each Other* provides practical solutions to current challenges and demonstrates how we can build a better society—together.
