Farm Book

Presents an illustrated tale of danger and enchantment in the faery forest

A single volume combines Gnomes and Secrets of the Gnomes, featuring a myriad of gnome lore, history, and lifestyles, along with drawings that record the full details of gnomes' lives.

This is the intriguing story of garden gnomes and how they have come to reside in the flowerbeds of gardens across Britain. Originating in Europe, gnomes made the leap across the channel in the nineteenth century, where they were welcomed warmly by wealthy Brits who saw them as the must-have garden accessory. But the fortunes of the humble gnome were not to last, and they soon found themselves sneered at by serious gardeners. Turned away from fashionable gardens, the little gnomes found a friend in many a working class gardener, who adopted them in increasing numbers, and in a variety of humorous poses. Today, gnomes are as popular with the masses as ever, and this entertaining illustrated history will appeal to those who love, and hate, these small bearded characters.

Two travelers discover the secrets of sleep from the Sandman himself. Includes a book-within-a-book with helpful hints for both sleepyheads and insomniacs.

Gnomes and Gardens

Folklore is replete with tales of elves. Little is known about why or how they came into being, but they seem to be a part of the folk myth of every country in the Western Hemisphere. This unique reference work provides comprehensive information on the known little people from 340 ethnic groups within 49 linguistic divisions in the Western Hemisphere, particularly in the United States. The approximately 3,500 entries provide descriptions of each group of elves, alternate names, information on well-known individual elves in the group, their supposed habitat, and magical powers.

Examines the distinctive features, habits, and neighbors of the troll.

Pop-up pictures with movable parts and text describe the daily life of a gnome as he works, plays, and interacts with animals.

Gnomes are the mascots of the English garden. Loved and loathed in equal measure, they nonetheless hold a unique and essential place in the country's garden heritage. Award-winning photographer and author Vivian Russell presents an intimate portrait of these often shy garden dwellers, photographing and writing about ten gardens in which they are to be found. This book celebrates the various ways people have used them in their gardens, creating Lilliputian worlds of great charm and originality.

Secrets of the Gnomes

The Complete Gnomes

Dinotopia: A Land Apart from Time

A Novel of the War in the Pacific

THE PRESIDENT'S VAMPIRE is proof positive that an inordinate number of very strange things happen from sea to shining sea in the place known as the United States of America. It contains scrupulously documented accounts of ghosts, monsters, murderers, and hoaxes so improbable they will fascinate believers, skeptics, and anyone interested in the more obscure corners of American history and culture. "Robert Schneck is one of the best of a new breed of investigators into the relatively unknown byways of our cultural history. Because he is thoroughly familiar with his subject, writes with deceptive ease and a clarity that both amuses and educates, and because he never forgets that at the heart of even the strangest or most frightening of mysteries there are real human beings with a story to tell, I recommend him as a trusted guide." - Bob Rickard, Fortean Times Robert Damon Schneck is a freelance writer and contributor to Fortean Times, Fate, and other magazines. Friends describe him as a "loveable, nocturnal, monomaniac."

Explains everything one might want to know about gnomes, including how long they live, what their houses are made of, how long pregnancy lasts, what they do for a living, and where they go on their honeymoon.

It is often said that Americans can be divided into two groups: those who grew up on a farm and those who wished they had. This book will give pleasure—and information—to both. Hundreds of illustrations, rendered with perception, wit, and accuracy offer a heartwarming look at life on a farm in Holland. Full color.

An account of the life and work of gnomes, based on first-hand observations by the author and artist, who, themselves turned into gnomes, visited with gnomes in Lapland and Siberia.

Western: United States military targets the island of Okinawa as part of a plan to halt conflicts that are inflicting massive casualties on both sides. B-29 pilot Paul Tibbets accepts a mission with world-changing implications.

Exiled to the United States after her father, a Middle Eastern dictator, is killed in a coup, fifteen-year-old Laila must cope with a completely new way of life, the truth of her father's regime, and her mother and brother's ways of adjusting.

Follows the life cycle of a golden retriever.

Chasing the Phoenix: a science fiction masterpiece from a five-time Hugo Award winner Michael Swanwick! In the distant future, Surplus arrives in China dressed as a Mongolian shaman, leading a yak which carries the corpse of his friend, Darger. The old high-tech world has long since collapsed, and the artificial intelligences that ran it are outlawed and destroyed. Or so it seems. Darger and Surplus engineer a dog with human intelligence who walks upright, are a pair of con men and the heroes of a series of prior Swanwick stories. They travel to what was once China and invent a scam to become rich and powerful. Pretending to have limited super-powers, they aid an ambitious local warlord who dreams of conquest and once again reuniting China under one ruler. And, against all odds, it works. There are other forces at work behind the scenes. Chasing the Phoenix is a sharp, slick, witty science fiction adventure that is hugely entertaining from Michael Swanwick, one of the best SF writers alive. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A collection featuring the description, the history and tales about gnomes.

Born in 1882 John Albert Bauer was a Swedish painter and illustrator. He studied at the Royal Swedish Academy of Arts and in 1904 he illustrated his first book, 'Lappland'. He is best known for his illustrations in early editions of 'Bland tomtar och troll' (Among Gnomes and Trolls), featuring stories of Swedish folklore and fairy tales. Bauer's troll illustrations were of a grotesque style but with a touch of humour, appealing to both children and adults alike. Most of his works are watercolours usually in muted colours over pen and ink line work. This enchanting compilation features 83 of Bauer's best works mostly from various editions of 'Bland tomtar och troll'. This superb collection is certain to delight lovers of fairy tale illustration and also Bauer admirers.

When Edward takes Myrtle to the wood to see goblins, she fails to notice the strange creatures hiding among the thorn trees. Pulling tabs or turning the pages to activate pop-up figures reveals hidden goblins.

Shows the gnomes David and Sophia listening to music, conducting a choir of frogs, dancing to a tune on the pan-flute, and singing lullabies at dawn. On board pages.

The Little Winter Book of Gnomes

A Field Guide to the Little People

The Fairy Tale Art of John Bauer

There's a new threat in town - and it's only twelve inches tall. How to Survive a Garden Gnome Attack is the only comprehensive survival guide that will help you prevent, prepare for, and ward off an imminent home invasion by the common garden gnome. Once thought of as harmless garden decorations, evidence is mounting that these smiling lawn statues are poised and ready to wreck havoc. The danger is real. And it's here. Class 1 gnome-slayer and gnome defence expert Chuck Sambuchino has developed a proven system - Assess, Protect, Defend, Apply - for safeguarding property, possessions, and loved ones. Strategies include step-by-step instructions for gnome-proofing the average dwelling, recognising and interpreting the signs of a gathering horde and - in the event that a secured perimeter is breached - confronting and combating the attackers at close range.

"This delightful book is not only great fun to read, but makes most interesting and intelligent suggestions about the reality and work of this particular branch of the nature world. It can help us open our minds to fascinating dimensions that do exist on the planet."--Dorothy MacLean, co-founder of Findhorn and author, "To Hear the Angels Sing: An Odyssey of Co-creation with the Devic Kingdom."

This new study on Thomas Gainsborough concentrates on the early life and works of the great eighteenth-century artist. Gainsborough's talent was evident at a young age, and before he established himself as one of London's leading portrait artists he was able to indulge himself in his true passion, landscapes, as well as providing portraits for a provincial clientele. Graced with the light and gentle shadows of the English countryside, these early works provided the foundation for much of Gainsborough's later work. But many of them, including the renowned Mr. and Mrs. Andrews, and His Daughters Chasing a Butterfly, can be called masterpieces in their own right. It was in Suffolk that the artist developed a naturalistic approach to portraiture by abandoning "conversation pieces" and painting instead a number of straightforward head-and-shoulder portraits. This lively and accessible volume features eighty color and black-and-white reproductions of Gainsborough's paintings, etchings, and drawings. They not only shed light on the development of one of England's most revered painters, but also offer an intimate look at the work of a young painter in the thrall of his subjects, and just beginning to realize his full talents.

A look at all aspects of gnome life, their origins and fashions, their pastimes, opinions and culinary tastes. It examines urban gnomes, suburban, bucolic and wild ones.

The Art of Amy Brown

A Science Fiction Novel

A cozy book of gnomes (and gnomes), just in time for the holidays Kirsten Sevig grew up hearing about little gnomes in great Nordic folktales. When she realized that a "gnome" was also another word for a proverb, she brought the two together. The result is a charming collection of Scandinavian wisdom accented by whimsical illustrations. There are gnome women chopping wood ("chop your own wood and it will warm you twice"), men surreptitiously knitting ("two balls of yarn are better than one"), and gnome kids making snow angels, skiing, and more. In The Little Winter Book of Gnomes, Sevig invites readers into a cozy wonderland of her own prolific imagination. With recipes for holiday favorites like mulled cider and gingerbread, this book is the perfect gift to inspire readers to take joy in all of winter's little happy-makers.

In 2003, a fascinating handwritten manuscript about Dutch gnomes was discovered in the mysterious Richel-Eldermans collection that had recently been donated to the British Museum of Witchcraft and Magic. This book presents an annotated translation of this intriguing work, with comments on the provenance of the manuscript and studies of the places described within it. Focusing on the origins of gnomes, their way of life, and their astonishing cultural expressions, this first book of the series opens a doorway into traditional beliefs and magical experiences that will forever transform your understanding of the world of the gnomes.

In a land far away, magical little people called gnomes deliver Christmas gifts and surprises instead of Santa Claus.

A collection of beautiful photographs, the results of a worldwide quest to prove the existence of fairies, will have even the most skeptical believing in the existence of these magical beings.

Gnomes

Creative Projects for Every Room of Your Home

A History

In 1862, after being shipwrecked in uncharted seas, Professor Arthur Denison and his twelve-year-old son Will find themselves washed up on a strange island where people and dinosaurs live together peacefully.

Fans of Mo Willems and Dev Petty's I Don't Want to Be a Frog will love this humorous tale about one gnome's journey to prove he is unlike the other magical creatures in the forest. Join Gnome (that's spelled G-N-O-M-E--don't ask why the G is silent!) as he travels through the magical forest to attend the annual Gnome Festival. Along the way he encounters elves, dwarves, trolls, and fairies. But don't be mistaken. He is NOTHING like those magical creatures. Well, maybe he is . . . but only a little bit! When Gnome finally arrives at the festival, he realizes that all the traits he thought made gnomes different from the others actually made them alike--and that's just fine.

Shows the gnomes David and Sophia doing their chores, taking care of their children, and teaching the woodland animals. On board pages.
