When Maisie is struck by lightning, her face is partially destroyed. She's lucky enough to get a face transplant, but how do you live your life when you can't even recognize yourself any more? She was a runner, a girlfriend, a good student ... a normal girl. Now, after a single freak accident, all that has changed. As Maisie discovers how much her looks did and didn't shape her relationship to the world, she has to redefine her own identity, and figure out what 'lucky' really means.

Learning How to Learn

A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* *A Mind for Numbers* and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains:

- Why sometimes letting your mind wander is an important part of the learning process
- How to avoid "rut think" in order to think outside the box
- Why having a poor memory can be a good thing
- The value of metaphors in developing understanding
- A simple, yet powerful, way to stop procrastinating

Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

These workbooks provide hundreds of fun pages for practicing all the skills kids need to succeed in each grade. Compiled from the popular Reading Skills, Spelling Skills, Math Skills, Language Arts, Writing Skills, and test Prep series, these colorful workbooks include: High interest stories to develop reading proficiency; exercises in math problems students will face; grade
