Drawing on a lifetime of pastoral experience, *The Care of Souls* is a beautifully written treasury of proven wisdom which pastors will find themselves turning to again and again. Harold Senkbeil helps remind pastors of the essential calling of the ministry: preaching and living out the Word of God while orienting others in the same direction. And he offers practical and fruitful advice—born out of his five decades as a pastor—that will benefit both new pastors and those with years in the pulpit. In a time when many churches have lost sight of the real purpose of the church, *The Care of Souls* invites a new generation of

This book contains 32 full-color photos of beautifully painted landscapes of the Hudson River Valley and is accompanied by text that discusses how Protestant theology had a profound impact on nineteenth century art and life itself.

Over the past centuries the pendulum has constantly swung between an emphasis on the role of either nature or nurture in shaping human destiny, a pendulum often energised by ideological considerations. In recent decades the flourishing of developmental biology, genomics, epigenetics and our increased understanding of neuronal plasticity have all helped to subvert such dichotomous notions. Nevertheless, the media

still report the discovery of a gene 'for' this or that behaviour, and the field of behavioural genetics continues to extend its reach into the social sciences, reporting the heritability of such human traits as religiosity and political affiliation. There are many continuing challenges to notions of human freedom and moral responsibility, with consequent implications for social flourishing, the legal system and religious beliefs. In this book, Denis Alexander critically examines these challenges, concluding that genuine free will, often influenced by genetic variation, emerges from an integrated view of human personhood derived from contemporary biology.

Counterwise, we have been creating Christian practices made up of the short passages from the New Testament, never seeing the entire panoramic saga. Unleashing the Word of God is a must read.

knowing how to recognize and benefit from books that are spiritually and aesthetically good. Literary expert Gene Veith helps book lovers better understand what they read as he explains how each major literary genre communicates. Showing how comedy, tragedy, realism, and fantasy can portray the Christian worldview, Veith delves into related topics such as the value of fairy tales, the tragic and the comic sense of life, the contrast between the classical and the Hebraic traditions, and the role of postmodernity (a subject of vital importance to Christians). Introducing readers to writers past and present, Veith helps Christians to influence culture from an educated perspective and get more out of their reading.

Hampshire - the first openly gay man to be called to serve in such a position. Clearly beloved in his diocese and chosen from a wide selection of candidates, the election was entirely proper and the result clear cut, yet it sparked a hurricane storm of controversy that has polarised religious opinion on five continents and still rages five years on. Here, Gene Robinson reflects on his journey of faith, his life experiences, the concerns that matter most to him as a bishop and the controversy that has rocked the church he loves and to which he is committed.

in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his

A CHRISTMAS STORY -- humorous and nostalgic Americana, reissued in a strikingly designed paperback edition. Before Garrison Keillor and Spalding Gray there was Jean Shepherd: a master monologist and writer who spun the materials of his all-American childhood into immensely resonant--and utterly hilarious--works of comic art. In *God We Trust: All Others Pay Cash* represents one of the peaks of his achievement, a compound of irony, affection, and perfect detail that speaks across generations. In *God We Trust*, Shepherd's wildly witty reunion with his Indiana hometown, disproves the adage "You can never go back." Bending the ear of Flick, his childhood-buddy-

turned-bartender, Shepherd recalls passionately his genuine Red Ryder BB gun, confesses adolescent failure in the arms of Junie Jo Prewitt, and relives a story of man against fish that not even Hemingway could rival. From pop art to the World's Fair, Shepherd's subjects speak with a universal irony and are deeply and unabashedly grounded in American Midwestern life, together rendering a wonderfully nostalgic impression of a more innocent era when life was good, fun was clean, and station wagons roamed the earth. A comic genius who bridged the gap between James Thurber and David Sedaris, Shepherd may have accomplished for Holden, Indiana, what Mark Twain did for Hannibal, Missouri.

Burnt-out believers and spiritual secularists have given up any hope that an engaging and meaningful spirituality can be found in a single Christian denomination. So rather than attending worship at a local church, they attend to their spiritual needs elsewhere. Instead of being fed by a single denomination, they feast upon a smorgasbord of spiritual beliefs. And while these disaffected believers have not rejected the existence of God or the need for meaningful spirituality, they have strongly rejected whatever it is they think the church today has to offer.

neglected. Author Gene Getz tells readers that the Bible says more about the things we own than any other subject except the Godhead. His thorough exploration of biblical history reveals overarching "suprapinciples" of ownership that apply to all people everywhere, then and now. Getz shows how Christians can resist the deadly tendency towards selfishness inherent in today's culture and how to use their possessions as effective tools for witness and spiritual growth. Avoiding both the extreme of "selling all and giving to the poor" and the greed-centered "prosperity gospel," he explains the biblical attitude toward possessions: a releasing of "this is mine" view of our possessions and allowing God's gifts to flow

Our world is alive with fascinating new ideas, discoveries, and technologies. But for Christians this can also present problems-especially when the values of postmodernism and secular university life conflict with basic Christian principles. What should Christians do when their beliefs come under attack in the classroom or the public square? *Loving God with All Your Mind* shows us that the answer is neither wholesale rejection of intellectual life and culture, nor blind acceptance of it. The answer lies in understanding that Jesus is Lord of all of life and that everything in life must be carefully viewed
