In the first unit, Building Good Reading Habits, you'll reinforce children's learning from kindergarten, and you'll establish ability-based partnerships that tap into the social power of peers working together to help each other become more strategic as readers. The second unit, Learning About the World: Reading Nonfiction, taps into children's natural curiosity as they explore nonfiction, while you teach comprehension strategies, word solving, vocabulary, fluency, and author's craft. The third unit, Readers Have Big Jobs to Do: Fluency, Phonics, and Comprehension, focuses on the reading process to set children up to read increasingly complex texts. The last unit of first grade, Meeting Characters and Learning Lessons: A Study of Story Elements, spotlights story elements and the skills that are foundational to literal and inferential comprehension, including empathy, imagination, envisioning, prediction, character study, and interpretation"--provided by publisher.

The regrettable fact is that the subject of manners is not much discussed anymore, and good manners seem practiced even less. But good manners are a prerequisite for the growth of moral character; they are the habits of conduct and behavior by which we express in the most ordinary circumstances our

fundamental respect for others, whether parents, friends, colleagues, or strangers. Fortunately, Karen Santorum has produced for parents and teachers a wonderfully rich and instructive anthology to help instill good manners in our children—and stand against a decline of civility and a coarsening of our common life. Under such headings as “Honor Your Mother and Father,” “Please and Thank You,” “No Hurtful Words,” “Good Behavior in Sport,” and “Showing Respect for Country,” Everyday Graces features stories and poems that will develop and enrich the moral imagination. This marvelous anthology features classic selections from such well-known authors as Hans Christian Anderson, Beatrix Potter, Mark Twain, Frances Hodgson Burnett, C. S. Lewis, Max Lucado, and Arnold Lobel, as well as forgotten gems that deserve a new hearing. Mrs. Santorum writes that this anthology grew out of the frustration of not being able to find a book on manners that instructs through stories rather than by rules of dos and don'ts. She and her husband tried and tested many of these selections on their six children. Each of the selections is briefly introduced with a thoughtful commentary at the close, producing an informality and intimacy that is inviting and infectious. Find out why Everyday Graces has become a beloved feature in homes, schools, churches, and libraries across America.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
