*Theodore Fontaine lost his family and freedom before his seventh birthday, when his parents were forced to leave him at an Indian residential school. Twelve years later, he left school frozen at the emotional age of seven. He was confused, angry and conflicted, on a path of self-destruction. At age 29, he emerged from this blackness and began a journey of self-exploration and healing. In this powerful and poignant memoir, Theodore examines the impact of the loss of his language and culture*

*and, most important, the loss of his family and community. He goes beyond details of the abuse of Indian children to provide readers with an understanding of why most residential-school survivors have stress disorders and why succeeding generations of First Nations children suffer from this chapter in history. Told as remembrances described with insights that have evolved in his healing, his story resonates with his resolve to help himself and other survivors and to share his enduring belief that one can pick up the shattered pieces and use them for good.*

Whitley Bulletin

The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS).

Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about

Literary Technique (Grades 9-12) Researching to

Deepen Understanding Building Evidence-Based

Arguments The program approaches literacy through

the development of knowledge, literacy skills, and

academic habits. Throughout the activities, students

develop their literacy along these three paths in an

integrated, engaging, and empowering way.

Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of

cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from “making inferences” to “reflecting critically.” Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as “preparing” and “completing tasks” that are essential to students’ success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.
