**Supplement your social studies curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on US states, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, and various topics including scale, legends, cardinal directions, latitude and longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials.**

**Perfect for children ages 9 and 10, this workbook develops the further understanding of geography of fourth graders and contains curriculum-aligned exercises on topics including a more detailed look at each continent, physical features, and types of maps, with a focus on different maps of the United States. Level by level, the write-in DK Workbooks: Geography series offers at-home practice that kids actually enjoy--making them ideal supplements to schoolwork. Designed to support curriculum standards, this series is developed with leading educational experts to build confidence and understanding. Each leveled workbook, for children ages 3-9, is packed with activities and challenges, offering the beneficial repetition and cumulative learning that lead to mastery. Fact boxes on each page give a simple overview of the topics being covered, review the basics, and often offer an example of the task at hand. The exercises themselves reinforce key geography topics including map reading, compass directions, continents, countries and states, borders, bodies of water, and more.**

**English as a Medium of Instruction in Grade 11 Geography**

**Practice, Assess, Diagnose**

The exercises themselves reinforce key geography topics including map reading, compass directions, continents, countries and states, borders, bodies of water, and more.**

**This study explores the effect of English as medium of instruction in Geography teaching in Grade 11. It focuses on classroom interaction where both the teachers and learners have limited proficiency in the language of instruction. It reflects on the challenges experienced by Afrikaans speaking teachers in mediating Geography lessons to isiXhosa speaking learners in Grade 11 at one secondary school in the Western Cape.**

**Opportunities for developing innovative approaches in teaching and learning geography have been rapidly increasing in recent years. This is in part because of the spread of new technologies that allow access to geographic information and geographic geo-media resources. These new tools offer broad access to information and open data sources. They have revolutionised the way in which teachers of geography can work with pupils and students. "Education for Digital Earth" is now possible. As such, the exclusive use of traditional approaches to the teaching of geography is no longer reasonable today. The European Commission-funded network initiative, digital-earth.eu, promotes innovation and best practices in the implementation of geo-media as a digital learning environment for school learning and teaching. This book, supported by EUROGEO, analyses the main challenges facing geographical education - curriculum, methodology, teacher education and training and geospatial technologies - and illustrates different examples of the use of geoinformation in geographical education in several European countries.**
