X-Kit Literature Series: FET Othello

This book contains a general introduction to the education of academically able students. It provides a solid background of basic knowledge and a survey of research and theory for educational theorists, student teachers, practising teachers, administrators and planners. It offers insights into relevant practical problems as well as guidelines for classroom practice. The significance of this material is outlined for the various levels of the educational system from the individual classroom to the regional planning level. The book is not, however, designed to offer set answers and pat solutions, but to provide rationale for the creative work of teachers and administrators.

Perfect Sample Papers is a series prepared as per the guidelines, syllabus and marking scheme issued by CBSE for Class X Summative Assessment II . The salient features of Perfect Sample Papers are: • The questions in the sample papers have been so designed that complete syllabus is covered. • Solutions to the first five sample papers are given. Students are advised to attempt these papers first, and take help from the solutions provided in the book to identify their weak areas and improve them. • Additional ten unsolved sample papers for practice will help students gain confidence. • The questions in the sample papers are of varying difficulty level and will help students evaluate their reasoning, analysis and understanding of the subject matter.

Annual Report of the Schools of New Brunswick

Foreword by David Didau. Samuel Elliott has been the pupil from hell. He knows what he needed from his teachers in order to turn his life around - and in this book he shares that knowledge with hard-pressed colleagues who just want to do their best for their pupils. In ASBO Teacher Samuel offers no-nonsense principles hewn from the chalkface of the modern British classroom: ideas and approaches that have worked for the author in the most challenging settings and with the most testing pupils. Covering a range of issues spanning behaviour management, lesson structure, resource preparation and narratives in the classroom, the book is a blueprint for becoming a particular kind of teacher - one who has high expectations, a concern for pupil well-being, and a knack for ushering learners into more effective learning.
