

Grade 12 Feb March 2014 Paper 1

This book reveals the nature of Sino-US strategic competition by examining the influence exerted by major secondary stakeholders, e.g. Japan, Russia, India, the Koreas, and ASEAN, on the two powers, USA and its rival China, who consider each other as a source of greatest challenges to their respective interests. By adopting "strategic triangles" as the analytical framework and assessing triangular relational dynamics, such as US-China-Japan or US-China-Russia, the author illustrates how secondary stakeholders advance their own interests by exploiting their respective linkages to the two rivals, thereby, shaping Sino-US complete dynamics. This work adds a regional and multivariable perspective to the understanding of the Indo-Pacific's insecurity challenges.

This 2015 Article IV Consultation highlights that Russia entered 2014 with declining potential growth owing to the stabilization of oil prices, stalled structural reforms, weak investment, declining total factor productivity, and adverse population dynamics. In addition, the ongoing slowdown was exacerbated by the dual external shocks from the sharp decline in oil prices and sanctions. The authorities took measures to stabilize the economy and the financial system. Russia is expected to be in recession in 2015 owing to the sharp drop in oil prices and sanctions. Growth should resume in 2016 while inflation continues to decline.

This book offers to delineate a key phenomenon in contemporary Anglophone fiction: novel expansion, when the plot and characters from a finished novel are retrieved to be developed in new adventures set before, after or during the narrative time of the source-text. If autographic and allographic sequels are almost as old as literature, prequels – that imagine the anteriority of a narrative – and coquels – that develop secondary characters in the same story time as the source-text – are more recent. The overall trend for novel expansion spread in the mid-1980s and 1990s and has since shown no sign of abating. This volume is organised following three types of relationships to the source-texts even if these occasionally combine to produce a more complex structure. This book comprises 11 essays, preceded by an introduction, that examine narrative strategies, aesthetic, ethical and political tendencies underlying these novel expansions. Following the overview provided in the introduction, the reader will find case studies of prequels, coquels and sequels before a final chapter that encompasses them all and more.
