

Grade 7 Alberta Social Studies Textbook

The studies in this volume uncover a wide range of opinion about young people and their involvement in politics.

Provides state-of-the-art reviews of policy issues and developments in the ways that countries define students with disabilities; disadvantages; approaches to career guidance; changes underway in higher education; and policy options for making investment in learning pays.

This collection of timely articles is the first to explore the dynamics between globalization and education from a specifically Canadian perspective. The articles engage with emergent debates and new discourses around global orientations to citizenship education, defining scholarly work and teaching practices in Canada.

A Bibliography

Key Findings and Lessons Learned

Thinking and learning are based on powerful concepts – ideas that identify, but also provoke and challenge. This collection is designed to ignite discussions among educators and learners at all levels about social studies concepts that generate curiosity, passion, and a sense of who we are and could be in this world. Contributors to this book, drawn from across the educational field, have focused on five selected concepts: democracy, diversity, ecological/environmental justice, multiculturalism, and social justice, unpacking and repacking each concept in powerful ways to exemplify their generative possibilities. Each author contextualizes their understandings within the broader philosophical, theoretical, and educational discourse, and explores these concepts from their unique perspective and through their multiple lenses. This collection seeks not to provide answers, but to invite readers into an ongoing dialogue about ideas that help us create meaning in the world.

Engage your students AND keep your sanity with classroom-tested tools. Tools for Teaching Social Studies delivers a wealth of practical solutions for classroom success — all grounded in solid educational philosophy. A lifeline for new social studies teachers and a source of inspiration and ideas for experienced teachers, this book offers you a boost at every stage of your career. Based on a master teacher's four decades of experience, this top-notch toolkit is packed with strategies: Learn five key teaching principles that put you and your students on the path to success. Discover your unique style. Connect with your students. Set and achieve realistic professional and personal goals. Stay organized and manage your time effectively. Empower yourself as a teacher. Avoid burn-out. Facilitate effective group work. Create engaging learning plans. Make the right use of social media. And much more!

This new resource from Oxford University Press introduces students to the development of Canada through the varied and rich perspectives of the Aboriginal, British, Francophone, and other groups. It also introduces students, in language they will understand, to active and responsible citizenship at the local, provincial, national and global levels. Components include Student Text, CD-ROM, Teacher's Resource, and Website.

The World Book Encyclopedia

Our Canada

Contemporary Canadian Childhood and Youth

The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities. As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities.

First published in 1989. Routledge is an imprint of Taylor & Francis, an informa company.

Developed specifically for children learning French as a second language, FrenchSmart helps supplement and consolidate what your child has learned at school in a systematic way. The engaging activities cover the major areas of learning French: vocabulary building, grammar, reading, and usage. Illustrations in English are provided where needed to ensure that your child learns with confidence. Inside FrenchSmart Grade 7 French workbook: French worksheets cover sports, marine life, the imperative, technology, the internet, the world, garden words, party words, questions: when? where? how?, shopping words, verbs from the 3rd group, newspaper words, numbers 1 to 1000, museum words, the media, transportation, and art and culture.

Connecting with the World

A Canticle for Leibowitz

This book presents the core concepts of geographical education as a means of understanding global issues from a spatial perspective. It treats education, supported by high standards, approaches, methodologies, and resources, as essential in exploring the interactions of the world's human and environmental systems at local, regional, and global scales embedded in the nature of the discipline of geography. It covers topics such as climate change, sustainable development goals, geopolitics in an uncertain world, global crisis, and population flows, which are of great interest to geography researchers and social sciences educators who want to explore the complexity of contemporary societies. Highly respected scholars in geography education answer questions on key topics and explain how global understanding is considered in K-12 education in significant countries around the globe. The book discusses factors such as the Internet, social media, virtual globes and other technological developments that provide insights into and visualization – in real time – of the intensity of relationships between different countries and regions of the earth. It also examines how this does not always lead to empathy with other political, cultural, social and religious values: terrorism threats and armed conflicts are also essential features of the global world. This book opens the dialogue for global understanding as a great opportunity for teachers, educators, scholars and policy makers to better equip students and future citizens to deal with global issues.

Presents sample nonfiction reading selections covering a variety of content areas along with comprehension tests and activities for students in grades seven and eight.

Budget literacy is defined as 'the ability to read, decipher, and understand public budgets to enable and enhance meaningful citizen participation in the budget process'. It is comprised of two main parts - (i) a technical understanding of public budgets, including familiarity with government spending, tax rates and public debt and; (ii) the ability to engage in the budget process, comprising of practical knowledge on day-to-day issues, as well as an elementary understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process -- governments -- simplify

and disseminate budget information for demand-side actors -- citizens -- this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of "budget illiteracy" is to provide budget-literacy education in schools to youth, helping them evolve into civic-minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for budget literacy education, and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

How Should "culture" be Assessed?.

Provides comprehensive coverage of the English-language literature.

This document contains papers on the following topics: Canadian citizenship for a progressive state; the current status of teaching about citizenship in Canadian elementary and secondary schools; Canadian society in the year 2000; the Charter and the teaching human rights and citizenship; the Charter and legal literacy; literacy for citizenship; ways of teaching values; theories and attitudes towards political education; thoughts on education for global citizenship; role-play and citizenship education; co-operative learning; and an exercise in simulations and citizenship education.

It's 1943 and World War II is raging. 15-year-old Robert Tourond is home in Calgary, but his three brothers are all fighting the Nazis. Robert follows the exploits of his favourite comic book heroes who also battle bad guys in the comics Robert spends his allowance on. When Robert finds a meteorite in Nose Hill Park near his home, in the same week that a meteorite features in his heroes' stories, Robert is convinced that a magical link exists between them, and that the superheroes will protect his brothers. Robert has a nemesis of his own on the streets of Calgary - a girl they call "Crazy Charlie." When Robert gets a job delivering telegrams, Charlie does

too, cutting into his profits. Then they discover exactly what those telegrams they're delivering have for the recipients. Then Charlie has to deliver one to Robert's house. Can Robert and his heroes really protect all three brothers and bring them home? What will happen if reality comes crashing into his world, like a meteorite falling from space? Who will help then?

EducationVoices and VisionsA Story of Canada

Provides comprehensive coverage of the English-language literature on the history of Canadian childhood and youth. Private schools have frequently provided innovative, experimental, and creative programunavailable to students in the public system. The most successful have survived and expanded by offering an educational experience widely perceived to be not just as good as that available in the public system, but better. In Canada, private schools are enjoying an unprecedented popularity and while most are day-only, over sixty sustain boarding programs, as do two off-shore Canadian schools. The Handbook of Canadian Boarding Schools presents information on the educational environment of each province,then offers comparative information on each boarding school. The information on each school includes: basic data, location, history, philosophy, the campus, boarding facilities, health and safety, administration and faculty, student body and student conduct, academic calendar and program, information technology, student activities and student conduct, admission and costs. The Handbook also supplies several appendices outlining important programs often available through boarding schools, such as Advanced Placement courses and the International Baccalaureate. For parents in Canada and abroad about to commit substantial sums to their children's education, the Handbook of Canadian Boarding Schools is an essential tool to help them make the right decision. It is also an indispensable resource for supporters of the public system looking for ideas that have worked elsewhere.

Voices and Visions

This resource focuses on Canadian history. It examines time periods such as first contact, moving towards confederation, and after confederation. This resource was developed to support Alberta's grade 7 social studies curriculum. Teachers are encouraged to use only those sections that pertain to Saskatchewan's provincial social studies curriculum outomes. This resource supports the teaching of: Dynamic relationships, Interactions and Interdependence, Power and Authority and Resources and wealth.

Recueil de douze articles d'universitaires canadiens spécialisés dans l'étude de la didactique géographique au primaire et au secondaire. Les contributions portent sur l'acte d'enseigner, sur la matière et sur l'étudiant. Elles sont rédigées soit en anglais (huit articles), soit en français (quatre articles), selon la langue de chaque auteur.

Interactive Notebooks: Language Arts for grade 7 is a fun way to teach and reinforce effective note taking for students.

Students become a part of the learning process with activities about plot structure, conflict, clauses, misplaced and dangling modifiers, connotation, allusion, and more! --This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. --Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.
