This book addresses poverty and well-being, equity, and efficiency in selected African countries. The chapters focus on three main topics: studies in the measurement and analysis of well-being and vulnerability to poverty, women's empowerment, and the dynamics and determinants of income and efficiency among smallholders. The chapters in the first section examine poverty, well-being, and vulnerability to poverty, as well as social exclusion, with a focus on households in Ethiopia, Rwanda, and Tanzania. They highlight the need to consider multidimensional

measures of well-being and vulnerability to poverty, the need to address the distribution of vulnerability across different segments of the population, as well as the importance of developing public policies aimed at poverty reduction and promoting the well-being of the poor. The next section deals with issues related to women's empowerment, including a multidimensional case study of women's empowerment in Ghana and women's access to microfinance services in Ethiopia. The final section focuses on dynamics and determinants of income and efficiency among farm households in Ethiopia and Uganda. Using a variety of

The Routledge Companion to Media and Human Rights offers a comprehensive and contemporary survey of the key themes, approaches and debates in the field of media and human rights. The Companion is the first collection to bring together two distinct ways of thinking about human rights and media, including scholarship that examines media as a human right alongside that which looks at media coverage of human rights issues. This international collection of 49 newly written pieces thus provides a unique overview of current research in the field, while also providing historical

context to help students and scholars appreciate how such developments depart from past practices. The volume examines the universal principals of freedom of expression, legal instruments, the right to know, media as a human right, and the role of media organisations and journalistic work. It is organised thematically in five parts: Communication, Expression and Human Rights Media Performance and Human Rights: Political Processes Media Performance and Human Rights: News and Journalism Digital Activism, Witnessing and Human Rights Media Representation of Human Rights: Cultural, Social and Political. Individual essays cover an array of topics, including mass-surveillance, LGBT advocacy, press law, freedom of information and children's rights in the digital age. With

The expansion of knowledge economy, globalization, and economic competitiveness has imparted importance of knowledge and innovation in local economies worldwide. As a result, integrating knowledge generation and innovation considerations in urban planning and development processes has become an important

agenda for establishing sustainable growth and long-term competitiveness of contemporary cities. Today, making space and place that concentrate on knowledge generation and innovation is a priority for many cities across the globe. Urban knowledge and innovation spaces are integrated centres of knowledge generation, learning, commercialization and lifestyle. In other words, they are high-growth knowledge industry and

worker clusters, and distinguish the functional activity in an area, where agglomeration of knowledge and technological activities has positive externalities for the rest of the city as well as firms located there. Urban knowledge and innovation spaces are generally established with two primary objectives in mind: to be a seedbed for knowledge and technology and to play an incubator role nurturing the development and growth of new, small,

attempts to understand this important but poorly understood sector by both talking to students and front-line staff and by interviewing the officials responsible for managing post-compulsory education and lifelong learning. By examining the sector simultaneously from the 'bottom up' and from 'top down', the authors show how recent policy is affecting three disadvantaged groups - 16-19 year olds who have fared poorly in official tests at school;

unemployed adults learning basic skills; and employees at work learning basic skills. The authors conclude that there are serious failings and suggest principles and features of a more equitable and effective learning system.

Class, urbanist Richard Florida identifies the emergence of a new social class reshaping the twenty-first century's economy, geography, and workplace. This Creative Class is made up of engineers and managers, academics and musicians, researchers, designers, entrepreneurs and lawyers, poets and programmer, whose work turns on the creation of new forms. Increasingly, Florida observes, this Creative Class determines how workplaces are organized, which companies prosper or go bankrupt, and which cities thrive, stagnate or decline. Florida offers a detailed

to the economics of the
business of maritime
transport. It provides an
economic explanation of

four aspects of maritime transport, namely, the demand, the supply, the market and the strategy. The book first explains why seaborne trade happens and what its development trends are; it then analyses the main features of shipping supply and how various shipping markets function; the book finally addresses the critical strategic issues of the shipping business. The full range of different types of shipping are covered throughout the chapters and cases. The book combines the basic

principles of maritime transport with the modern shipping business and the latest technological developments, particularly in the area of digital disruption. The ideas and explanations are supported and evidenced by practical examples and more than 160 tables and figures. The questions posed by the book are similar to those that would be asked by the students in their learning process or the professionals in the business environment, with the answers concentrating on the reasons for what

The spectacular victory of Narendra Modi and the BJP in 2014 and again in 2019 demands a nuanced exploration of the factors that led to it. Though the role of the middle class and the media in the making of what is called the ‘Modi Wave’ is often talked about, a clear-eyed and unbiased look at how they transformed the political landscape in post-liberalization India is still wanting. This book studies how the Indian middle class, once seen as politically indifferent, has gradually become a player of importance. This change, which slowly began in the 1990s,

Where To Download Grade12 2014paper Of Business Studies

has now reached a crescendo, and Modi has become the icon of the changing economic demands of the middle class and their ideological rightward shift. The new middle class played a decisive role in the electoral outcomes of 2014 and 2019—two elections that have undoubtedly changed the way India imagines itself and how the rest of the world sees India. Modi's management of mainstream and social media—primary consumers of which is the ever-growing middle class—has played a key role in his emphatic victories. This book will help the reader understand the arsenal that Modi used in these elections and is a must-read for scholars of politics, media studies and sociology.

How Identity Politics is Dividing the Land of the Free

The Plot to Change

America exposes the

myths that help identity

politics perpetuate

itself. This book

reveals what has really

happened, explains why

Where To Download Grade12 2014paper Of Business Studies

it is urgent to change course, and offers a strategy to do so. Though we should not fool ourselves into thinking that it will be easy to eliminate identity politics, we should not overthink it, either. Identity politics relies on the creation of groups and then on giving people incentives to adhere to them. If we eliminate group making and the enticements, we can get rid of identity politics. The first myth

Where To Download Grade12 2014paper Of Business Studies

that this book exposes is that identity politics is a grassroots movement, when from the beginning it has been, and continues to be, an elite project. For too long, we have lived with the fairy tale that America has organically grown into a nation gripped by victimhood and identitarian division; that it is all the result of legitimate demands by minorities for recognition or restitutions for past wrongs. The second myth

Where To Download Grade12 2014paper Of Business Studies

is that identity politics is a response to the demographic change this country has undergone since immigration laws were radically changed in 1965. Another myth we are told is that to fight these changes is as depraved as it is futile, since by 2040, America will be a minority-majority country, anyway. This book helps to explain that none of these things are necessarily true.

Controlling Capital examines three pressing issues in financial market regulation: the contested status of public regulation, the emergence of 'culture' as a proposed modality of market governance, and the renewed ascendancy of private regulation. In the years immediately following the outbreak of crisis in financial markets, public regulation seemed almost to be attaining a position of command – the robustness and

Where To Download Grade12 2014paper Of Business Studies

durability of which is explored here in respect of market conduct, European Union capital markets union, and US and EU competition policies. Subsequently there has been a softening of command and a return to public-private co-regulation, positioned within a narrative on culture. The potential and limits of culture as a regulatory resource are unpacked here in respect of occupational and organisational aspects,

Where To Download Grade12 2014paper Of Business Studies

stakeholder connivance and wider political embeddedness. Lastly the book looks from both appreciative and critical perspectives at private regulation, through financial market associations, arbitration of disputes and, most controversially, market 'policing' by hedge funds. Bringing together a distinguished group of international experts, this book will be a key text for all those concerned with issues
