The text of the work was first created by Grigori Grabovoi during the seminar the 29th of December 2015. The structures of the personality as consciousness, spirit, soul from the point of view of their organization from the physical body are considered in the topic of this seminar. First, the physical body of a person is considered, and then this consideration is***

Then the technology of organizing the physical body of a person is considered from the point of view of God, and specific management methods are given for the rapid development of controlling clairvoyance and forecasting to ensure eternal life. ***Here, Dr. Grigori GRABOVOI's position on the Soul formulates the technology of the work of the Soul, doing a most wondrous job of transformation by providing actionable knowledge in ways that encourage control and instant action. Implementing this knowledge attentively, its complex simplicity as if ignites a very insightful process and experience, while also making absolute sense in terms of its axiomatic principles, their application and of course, the results. If you are interested to take a next serious step towards your spiritual development and growth, perhaps this exceptional book with its theory and practical ways of thinking will be a key***

***to your current process for further progress in your personal management and in global salvation. Considering Dr. GRABOVOI's axiom that, the Soul of man is built according to the same laws as the physical body of The One God, one can see that the Soul is already eternal because It is built according to the same laws. Did you know that your Soul is always in action, never sleeps, and that It always starts working immediately at whatever stage of a situation when asked by your Consciousness? Do you wish to know more about the properties and qualities, the special characteristics of your own Soul? For example, for the Soul, the control is always action - to improve and to normalize (i.e. make to the norm of the Creator) as It was created with these qualities. The norm is how God makes the norm, how the plants and animals grow, how the World is transformed, how the person breathes in general - this is the technology of human healing. One can restore oneself by thinking since it is the Soul that creates thought. Therefore, it is sufficient to develop one's Consciousness to the level one is really indestructible, to the level of realization of reality towards the norm, towards the physical body of the One God for self-realization and its translation to the rest of the World. God does for all at once; so you do for all and for yourself. So, you can use your Soul to help yourself. Upon reading and studying this book you can find out ways of***

***thinking that can inspire you, for example: - to learn to control through your understanding and through your logic - to start to understand life with your Soul and to act at the Soulic level of your perception - to make the decision that you want to be healthy and are healthy - to reach the state of complete internal tranquillity by the presence of your Soul - to feel your health and be healthy regardless of anything and everything - to activate your spiritual physical body - to reach the spiritual state where your body is absolutely healthy - to see God in your physical body and to be in the Light of the physical body of God - to use your Soul as the instrument to transport Love everywhere - to learn how God created and created you - to cultivate your awareness to use your Soul to help yourself 319\_817\_318 718\_648519\_71***

In fact, in the evolutionary development, the action of the Soul, based on the principles and methods, is retained for infinite time. Therefore, when we consider a similar system in the external world, we can quite simply evaluate and apply the methods of development of evolution, which are in the fact that the future information is considered firstly, as universal information, and as a consequence of this principle, is considered as private information in a particular place.***

A person must realize the factor or the space where he is in eternity from the point of view of his personal life. Then it turns out that he is close to the outside world, to the real world as if of control, from the point of view of the Creator-God, where eternity is an environment fixed by the life of both God and man. *The work "Educational System of Grigori Grabovoi" was created by Grigori Petrovich Grabovoi in February, 2000*

*This book is based on my research, which is essentially a large gathering of evidence, ranging from prophecies (both ancient and new), recent declarations from high-level people around the world, as well as some statements in the words of the World Teacher himself and my own personal experiences, tending to prove that the Second Coming of Christ in visible form has occurred, that he was born in a conventional, natural and easy way. All elements in this book follow a logical sequence, coming together to form a perfect puzzle, and each*

*aspect can be further broadened and deepened almost to infinity. I therefore set some limits to the scope of this present work, but did my best for it still to be utterly fascinating and to stir awakening in your mind and heart. Of course, if you do not agree with me, I can understand your doubts. However, it should be noted that no one has yet managed to move my ideas from the position where I stand firmly and joyously, but do not think for a minute that my conclusions are based in fanaticism, far from it, actually. I'm at my core a genuinely free individual, of a very inquisitive nature. I try to look at the world in its totality and to move toward the goal which is Eternal and Harmonious Development for all.*

*The author writes: "In this thread, I will show how the goal that you have created, for example, how the beginning of control, this goal needs to be controlled, how to bring it to the level of concentration, and so on. That is, the methods of this seminar apply to any goals that you set primarily as a target".
