A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Robin Friday was an exceptional footballer who should have played for England. He never did. Robin Friday was a brilliant player who could have played in the top flight. He never did. Why? Because Robin Friday was a man who would not bow down to anyone, who refused to take life seriously and who lived every moment as if it were his last. For anyone lucky enough to have seen him play, Robin Friday was up there with the greats. Take it from one who knows: ‘There is no doubt in my mind that if someone had taken a chance on him he would have set the top division alight,’ says the legendary Stan Bowles. ‘He could have gone right to the top, but he just went off the rails a bit.’ Loved and admired by everyone who saw him, Friday also had a dark side: troubled, strong-minded, reckless, he would end up destroying himself. Tragically, after years of alcohol and drug abuse, he died at the age of 38 without ever having fulfilled his potential. The Greatest Footballer You Never Saw provides the first full appreciation of a man too long forgotten by the world of football, and, along with a forthcoming film based on Friday’s life, with a screenplay by co-author Paolo Hewitt, this book will surely give him the cult status he deserves.

In 1967, Peter Bart, then a young family man and rising reporter for the New York Times, decided to upend his life and enter the dizzying world of motion pictures. Infamous Players is the story of Bart’s whirlwind journey at Paramount, his role in its triumphs and failures, and how a new kind of filmmaking emerged during that time. When he was lured to Paramount by his friend and fellow newcomer, the legendary Robert Evans, the studio was languishing, its slate riddled with movies that were out of touch with the dynamic sixties. By the time Bart left Paramount, in 1975, the studio had completed a remarkable run, with films such as The Godfather, Rosemary’s Baby, Harold Maude, Love Story, Chinatown, Paper Moon, and True Grit. But this new golden era at Paramount was also fraught with chaos and company turmoil. Drugs, sex, runaway budgets, management infighting, and even the Mafia found their way onto the back lot, making Paramount surely one of the most unpredictable, even bizarre, studios in t history of the movie industry. Bart reflects on Paramount’s New Hollywood era with behind-the-scenes details and insightful analysis; here too are his fascinating recollections of the icons from that time: Warren Beatty, Steve McQueen, Robert Redford, Clint Eastwood, Jack Nicholson, Marlon Brando, Al Pacino, Francis Ford Coppola, Roman Polanski, and Frank Sinatra, among others. For over four decades, first on the inside as a studio executive and later as the longtime editor in chief of Variety, Peter Bart has viewed Hollywood from an incomparable vantage point. The stories he tells and the lessons we learn from infamous Players are essential for anyone who loves movies. By his early thirties, Paul Allen was a world-famous billionaire—and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor—combined with the resources to launch and support new initiatives—have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, and what he’s learned from his many endeavors—both the triumphs and the failures—and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen’s role in the dawn of private space travel (with SpaceShipOne) and discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

Analyzes the structure and habits of commercial news media and finds that, while more women are working in the U.S. news media than before, coverage of women’s issues is still inadequate

Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it ‘good’ or ‘bad.’ Rather, criticism uses the close examination of a television program to explore that program’s cultural significance, creative strategies, and its place in a broader social context. How to Watch Television brings together forty original essays from today’s leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium’s earliest days to contemporary online transformations of television, How to Watch Television is designed to engender classroom discussion among television critics of all backgrounds.

As the right-wing has known for decades: in tight elections, motivated grassroots groups with grit make the difference. Don't sell them out, Democrats, for the centrist voter on the fence, says Flanders. There's a tide of progressive activism rising that's changing what's possible in American politics. She's traveled the country and gathered more than enough entertaining evidence to make her case. Laura Flanders, the New York Times best-selling author of Bushwomen, believes there are no such things as "red" and "blue" states. Even in the most surprising places, she's finding progressive change. From Vermont to Salt Lake City to Las Vegas's famous Strip, Flanders journeys through the heartland USA and discovers a simple truth: people don't vote for the GOP because Republicans represent their interests; they vote Republican because Democrats barely field a team. Adamant, opinionated, funny, and always engaging, Flanders chronicles what she's learned from scores of voters and activists—about how change is happening in Main St. USA, even if it rarely catches the attention of the mainstream media. Mormons defending women's rights, casino owners teaming up with waitresses to raise the minimum wage, blue collar construction workers and lesbian mothers working together to make their workplaces safer and more secure for all. Flanders finds young, supposedly "alienated" Americans, who are driving scores of new voters to the polls. Fiery polemic, assured narrative, and acute political commentary, Blue Grit will be crucial reading for everyone interested in the future of the Democrats, and this country.

The Robin Friday Story

Today everyone—whether they know it or not—is in the emotional transportation business. More and more, success is won by creating compelling stories that have the power to move partners, shareholders, customers, and employees to action. Simply put, if you can't tell it, you can't sell it. And this book tells you how to do both. Historically, stories have always been igniters of action, moving people to do things. But only recently has it become clear that purposeful stories—those created with a specific mission in mind—are absolutely essential in persuading others to support a vision, dream or cause. Peter Guber, whose executive and entrepreneurial accomplishments have made him a success in multiple industries, has long relied on purposeful story telling to motivate, win over, shape, engage and sell. Indeed, what began as knack for telling stories—as an entertainment industry executive has, through years of perspiration and inspiration, evolved into a set of principles that anyone can use to achieve their goals. In Tell to Win, Guber shows how to move beyond soulless Power Point slides, facts, and figures to create purposeful stories that can serve as powerful calls to action. Among his techniques:
* Capture your audience's attention first, fast and foremost
* Motivate your listeners by demonstrating authenticity
* Build your tell around "what's in it for them"
* Change passive listeners into active participants
* Use "state-of-the-heart" technology online and offline to make sure audience commitment remains strong
To validate the power of telling purposeful stories, Guber includes in this book a remarkably diverse number of "voices"—master tellers with whom he's shared experiences. They include YouTube founder Chad Hurley, NBA champion Pat Riley, clothing designer Normal Kamali, "Mission to Mars" scientist Genry Lee, Under Armour CEO Kevin Plank, former South African president Nelson Mandela, magician David Copperfield, film director Steven Spielberg, novelist Nora Roberts, rock legend Gene Simmons, and physician and author Deepak Chopra. After listening to this extraordinary mix of voices, you'll know how to craft, deliver—and own—a story that is truly compelling, one capable of turning others into viral advocates for your goal.

"This is a novel in the guise of the tape-recorded recollections of a black woman who has lived 110 years, who has been both a slave and a witness to the black militancy of the 1960's. In this woman Ernest Gaines has created a legendary figure, a woman equipped to stand beside William Faulkner's Dilsey in The Sound And The Fury." Miss Jane Pittman, like Dilsey, has "endured," has seen almost everything and foretold the rest. Gaines' novel brings to mind other great works The Odyssey for the way his heroine's travels manage to summarize the American history of her race, and Huckleberry Finn for the clarity of her voice, for her rare capacity to sort through the mess of years and things to find the one true story in it all." -- Geoffrey Wolff, Newsweek
"Stunning I know of no black novel about the South that excludes quite the same refreshing mix of wit and wrath, imagination and indignation, misery and poetry. And I can recall no more memorable female character in Southern fiction since Lena of Faulkner's Light In August than Miss Jane Pittman." -- Josh Greenfield, Life

For all those who want to feel love, acceptance, forgiveness, peace, rest, and freedom from the past, Mike Bickle's timeless message will break open and restore any heart. Many men and women struggle with what they've done and who they are. They have never really had an opportunity to encounter Jesus' personality and to understand how He sees His children--until now.

What does God feel about you? No matter what you have done, God wants you to know that His love is very deep. Seeing the passion of God's personality will help bring you to a personal wholeness and spiritual maturity. It will awaken a stronger devotion to God and a passion for Jesus.

The women appointed to President Bush's cabinet and subcabinet, fronts for an extremist administration, are revealed in how they arrived in office, where they are headed and what their power means for women's equality, in portraits of Secretary of the Interior Gale Ann Norton, Labor Secretary Elaine Chao, Condoleezza Rice, Lynne Cheney, and others.

Sarah Palin has many faces: hockey mom, fundamentalist Christian, sex symbol, Republican ideologue, fashion icon, "maverick" populist. But, above all, Palin has become one thing: an American obsession that just won't go away. Edited by two senior editors at 'The Nation' magazine, this sharp, smart, up-to-the-minute book examines Palin's quirky origins in Wasilla, Alaska, her spectacular rise to the effective leadership of the Republican Party, and the nightmarish prospect of her continuing to dominate the nation's political scene. With contributions by: Amy Alexander, Max Blumenthal, Juan Cole, Joe Conason, Jeanne Devon, Eve Ensler, Michelle Goldberg, Jane Hamsher, Christopher Hayes, Mark Hertsgaard, Jim Hightower, Linda Hirshman, Naomi Klein, Dahlia Lithwick, Amanda Marcotte, Shannyn Moore, John Nichols, Rick Perlstein, Tom Perrotta, Katha Pollitt, Robert Reich, Frank Rich, Hanna Rosin, Jeff Sharlet, Matt Taibbi, Michael Tomasky, Rebecca Traister, Katrina vanden Heuvel, Jessica Valenti, Patricia Williams, Jonan Wypijewski and Gary Young among others.

This personal narrative is co-authored by two of the best-known names in American UHF television broadcast management: Kathryn "Kity" Brown Putnam and William Lowell "Bill" Putnam. During the first two decades of Ultra-High Frequency (UHF) television, when the established VHF (Very-High Frequency) stations dominated the TV marketplace, the Putnams built and operated three successful UHF outlets: WWLP-TV in Springfield, Massachusetts; WKCF-TV in Dayton, Ohio; and KSTU-TV in Salt Lake City, Utah. Kity and Bill recall how they labored for survival during the "dozen lean years" between 1953 and 1964, and the events along their way to leadership in the world of advertiser-supported analog television. Included are several original poems written by Bill, and tantalizing recipes created for Kity's long-running local cooking show.

The very first book on space systems failures written from an engineering perspective. Focuses on the causes of the failures and discusses how the engineering knowledge base has been enhanced by the lessons learned. Discusses non-fatal anomalies which do not affect the ultimate success of a mission, but which are failures nevertheless. Describes engineering aspects of the spacecraft, making this a valuable complementary reference work to conventional engineering texts.

The celebrated Hollywood icon comes fully to life in this complex portrait by noted film historian and master biographer Scott Eyman. Exploring Wayne's early life with a difficult mother and a feckless father, 'Eyman gets at the details that the bean-counters and myth-spinners miss ... Wayne's intimates have told things here that they've never told anyone else' (Los Angeles Times). Eyman makes startling connections to Wayne's later days as an anti-Communist conservative, his stormy marriages to Latina women, and his notorious--and surprisingly long-lived--passionate affair with Marlene Dietrich.
