Recent developments in direct taxes and VAT/GST Taxes – in general – have become the topic of broad legal and policy discussions. VAT and GST are often said to be the fiscal success story of the 20th century, as almost all developed countries levy VAT or GST or similar all-encompassing broad-based consumption taxes. Global trends in direct taxes are visible at the level of international players, such as the OECD. Due to the OECD's BEPS project, national tax systems are being significantly modified. This book aims at

identifying and discussing the current global trends in both VAT/GST and direct taxes. In daily practice, VAT/GST and direct taxes should be regarded simultaneously. Therefore, the Master's theses contained in this book deal with and highlight numerous issues, challenges and opportunities found in both direct taxes and in the VAT/GST area, ranging from nexus in direct taxes and VAT/GST, recent developments in certain policy areas, the definition of taxable persons, tax abuse, non-discrimination rules, charities, transfer pricing, European State aid,

immovable property, share deals etc. While the construction of VAT/GST and direct taxes differs, both taxes have similarities. The contributions in this book make a legal comparison of the recent developments in direct taxes and VAT/GST in the relevant fields, provide an analysis of the similarities and differences of the two taxation systems and highlight global trends in taxation.

Indirect taxes have played an increasingly important role in the Indian economy. Indirect tax was first introduced in India in 1944 in the form of excise duty on Indian products as a measure of protection for goods imported from the UK. In the course of time, it became a well-established tax to shore up government finances. The need for reform in indirect taxes was felt soon after Independence, and several committees were appointed for this purpose.

From there, the process of reforms of indirect taxes in India went through ups and downs till the introduction of the Goods and Services Tax (GST) in 2017. Indirect Tax Reform in India: 1947 to GST and Beyond maps these developments in detail and analyses the political economy behind it. It also deals with the current problems, the conceptual infirmities and the reforms needed urgently to restrict the disruption it has caused in the economy so far. Tax (GST) in India in July 2017 is the greatest achievement of the government towards reform of indirect taxation system in the 21st century. GST provides relief to the business community in India by converting several taxes into a single tax and also beneficial for the government in managing the tax system in a better way. The book gives first hand informations about GST and its various aspects in detail. It will cater to the needs of traders, entrepreneurs, researchers, academicians and students. This book will also be helpful to those who are interested to know about GST in detail.

phased manner, and India is also following the same. In India, e-Invoicing will be rolled out from 1st Oct 2020, as one of the anti-tax evasion measures for taxpayers who are having a turnover above Rs 500 crores in a financial year. Similar to the rollout of GST, where the taxpayers have to change the business process for effective implementation, the rollout of e-Invoice also involves changes in the business process, and the book covers the same. It also talks about the implementation in some of the countries, along with the benefits of e-Invoice to the taxpayers and the nation as a whole. The book provides a unique combination, as it talks about the provisions of the e-Invoice and the impact on the business and interpretation of provisions related to the same and also the API architecture

This 2016 Article IV Consultation highlights that economic outcomes in Sierra Leone have deteriorated sharply over the past two years. Growth declined dramatically from 20.7 percent in 2013, to 4.6 percent in 2014, and further to -21.1 percent in 2015. The budget is under severe pressure. Between mid-2014 and end-2015, the Leone depreciated 22 percent against the U.S. dollar. Banking sector

vulnerabilities have increased. Living standards have also deteriorated significantly since late 2014. The medium-term outlook is somewhat positive, with growth projected to recover to 4.3 percent in 2016, increasing gradually to about 6.5 percent by 2020.
