*Josef Koudelka has been acknowledged by the London Times as "the most potent and powerful photographer alive today." Unsentimental, solitary, deeply felt, sometimes troubling, Koudelka's photographs confront us, penetrate us, demand that we reflect on life's pilgrimage. The book's opening essay, by Nobel Prizewinning author Czeslaw Milosz, provides a moving counterpoint to these images. Exiles also features an expanded biography and bibliography on Koudelka, as well as many photographs. Born in Moravia, Josef Koudelka began his career as an aeronautical engineer. His book Gypsies was published by Aperture in 1975.*

A children's book that, wrapped in the warm embrace of gently water-coloured pages, will take them on the amazing adventures of two unforgettable characters: Gideon is a tiny yet fearless mouse, who dreams of great adventures; Paco is an easy-going dragon who is as big as a hill, but has a soul as innocent as a baby's. Gideon would love to win the flying race, an important sporting event in the valley; and he would like to do it by riding a magnificent dragon... Meeting Paco changes his life and transforms his dream into reality. AUTHOR: Marco Furlotti is an illustrator and author of children's books. His passion for storytelling and illustration are expressed through images imbued with energy and humour.

*Kwaidan: Stories and Studies of Strange Things features several Japanese ghost stories and a brief non-fiction study on insects. Most of these stories were translated from old Japanese texts. The author also states that one of the stories - Yuki-onna - was told to him by a farmer in Musashi Province, and his was apparently the first record of it. Riki-Baka is based on a personal experience of the author. Table of Contents: The Story of Mimi-nashiHôichi Oshidori The Story of O-Tei Ubazakura Diplomacy Of a Mirror and a Bell Jikininki Mujina Rokurokubi A Dead Secret Yuki-Onna The Story of Aoyagi Jiu-Roku-Zakura The Dream of Akinosuke Riki-Baka Hi-Mawari Hôrai In the last half of the book, Hearn lists collected Chinese/Japanese superstitions and his own personal thoughts on various members of the insect world. Butterflies: Personification of the human soul. Mosquitoes: Karmic reincarnation of jealous or greedy people in the form of Jiki-ketsu-gaki or "blood-drinking pretas". Ants: Mankind's superior in terms of chastity, ethics, social structure, longevity and evolution.*

*The recent development of ideas on biodiversity conservation was already being considered almost three-quarters of a century ago for crop plants and the wild species related to them, by the Russian geneticist N.I. Vavilov. He was undoubtedly the first scientist to understand the impor tance for humankind of conserving for utilization the genetic diversity of our ancient crop plants and their wild relatives from their centres of diversity. His collections showed various traits of adaptation to environ mental extremes and biotypes of crop diseases and pests which were unknown to most plant breeders in the first quarter of the twentieth cen tury. Later, in the 1940s-1960s scientists began to realize that the pool of genetic diversity known to Vavilov and his colleagues was beginning to disappear. Through the replacement of the old, primitive and highly diverse land races by uniform modem varieties created by plant breed ers, the crop gene pool was being eroded. The genetic diversity of wild species was equally being threatened by human activities: over-exploita tion, habitat destruction or fragmentation, competition resulting from the introduction of alien species or varieties, changes and intensification of land use, environmental pollution and possible climate change.*

Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity.Structured in three musical movements, Separate Rooms is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. Separate Rooms, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

One day you will be happy, but first life will teach you how to be strong. A powerful novel, charged with strong emotions, with a cadenced rhythm. A story of domestic violence, of psychological abuse that will grab you in the gut. Mysia, a young woman, and her monochromatic life that step by step will become increasingly tinged with black, a black that knows sadness, fear, mourning. And in an escalation of violence, when the situation seems to become irreparable, impossible to bear, it will seem as if there is only one solution... But life is sometimes able to surprise us, and although this will not represent a fair reward for the wrongs suffered, perhaps over time will be able to mitigate the memories, cushioning sharp edges and opening an unhopd-for glimmer of light. Every one of us deserves a life in color, deserves to finally be the architect of our own destiny, without succumbing any longer, to finally be free to love, to love each other. PUBLISHER: TEXTIME

A fully-spectrum collection of photos of Queen Elizabeth II, paired with illuminating captions explaining each outfit, spanning nine decades of fashion and every color of the rainbow. This riotously colorful book takes a photographic journey through Queen Elizabeth II's ten decades of color-blocked style. The photographs, which span the colors of the rainbow and a century of style, are gorgeously accessorized with captions and commentary by journalist and broadcaster Sali Hughes, who gives fascinating context to each photo. Readers will learn how the Queen has used color and fashion in strategic and discreetly political ways, such as wearing the colors of the European flag to a post-Brexit meeting or a pin given to her by the Obamas to a meeting with Donald Trump.

With stunning photographs that span from the 1950s to today, and featuring brilliant colors ranging from the dusky pinks the Queen wore in girhhood through to the neon green dress that prompted the hashtag #MeonAt90, this must-have collection celebrates the iconic fashion statements of the UK's longest reigning and most vibrant monarch.

The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economics" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminaates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The definitive catalog on the first woman artist to become a glamorous star. A cosmopolitan painter and icon of the art deco movement, Tamara de Lempicka created images that became the symbols of an era, the "crazy" 1920s and 1930s. She was possibly that period's most brilliant exponent. Driven by an iron will to achieve, Tamara not only cultivated her artistic talent, she also consciously built an image, that of an elegant and sophisticated woman, the extravagant protagonist of the European high life. Published to mark the exhibition in Rome from March 11-July 3,

2011, the monograph traces the entire career of this fascinating Polish artist who lived in Europe, the United States, and Mexico and catalogs the sum of her works. Through scrupulous scientific analysis of 120 paintings and works on paper, the publication recreates the artistic atmosphere of the time, suggesting unique parallels and comparisons with contemporary works. It also offers the reader a cross section of the artist's life, which was filled with glamour but at the same time marked by the great and terrible historic events of the twentieth century. Lawrence Venuti, winner of a Guggenheim fellowship and the Global Humanities Translation Prize, among many other awards, has translated into English these Italian Gothic tales of obsessive love, mysterious phobias, and the hellish curse of everlasting life. In this collection of nine eerie stories, Ignio Ugo Tarchetti switches effortlessly between the macabre and the breezily comical. Set in nineteenth-century Italy, his characters court spirits and blend in with the undead: passionate romances filled with jealousy and devotion are fueled by magic elixirs. Time becomes fluid as characters travel between centuries, chasing affairs that never quite prosper. First published by Mercury House in 1992.

The Jung-White Letters charts fifteen years of correspondence between C. G. Jung and Victor White, an English Dominican priest and theologian. The dialogue between the two provides valuable insights into the development of Jung's thought, and the relationship between psychology and religion. Jung hoped that his correspondence with White would help him to reinterpret the classic Christian symbols and White sought Jung's support of his project to integrate analytical psychology into Catholic theology. Although both Jung and White were committed to a productive collaboration, the letters trace a trajectory toward a crisis of misunderstanding and betrayal, culminating in a sharpening of disagreements after publication of Jung's Answer to Job. The letters are presented with great attention to authenticity, and Jung's previously published letters have been restored to their original style. The text is helpfully annotated throughout with historical, literary and personal references. A wealth of editorial material is also included to set the letters in context, including an authoritative memoir of Victor White. Jung's engagement with White was an essential dialogue that contributed importantly to his late writings, forcing him to refine his critique of classical theology. This volume will be of great interest to all Jungian analysts, psychoanalysts and psychotherapists and anyone interested in investigating the complex relationship between analytical psychology and religion.

Everyone knows that a tiny acorn into a mighty oak grows, and a caterpillar emerges into a butterfly. But in this clever, visually enchanting volume, it's also true that a cow can result in both a bottle of milk and a painting of a cow, and an ape in a jungle may become an urban King Kong. Just as day turns into night and back again, a many-tiered cake is both created and eaten down to a single piece. With simple, graphic illustrations sure to appeal to even the youngest of children, this smart exploration of the fascinating theme of before and after will please the most discerning adult readers, too.
