

Guide Model Airstream 1976

THE MODERN CARAVAN is a warm invitation into rolling homes designed for life on the open road. Brimming with evocative storytelling and hundreds of photographs showcasing handsome interiors and stunning landscapes, this book features 25 stories from solo travelers, couples, and families who traded the comforts of a rooted life for ever-changing vistas and eye-opening experiences. You'll meet a family exploring Australia in a cozy vintage camper filled with plants and natural wood finishes; a young couple designing a modern trailer inspired by the colors and textures of the high desert; a husband and wife living in a chic Airstream with green velvet seating, floral wallpaper, and herringbone wood floors. Balancing style with function, each carefully crafted tiny home is the result of long-held dreams, ingenuity, and imagination.

DIY enthusiasts, tiny house-lovers, and van-lifers will find inspiration and step-by-step instructions in Tin Can Homestead, the ultimate resource for living small in your own Airstream paradise. The Airstream trailer is the ultimate symbol of vintage wanderlust-and the classic touring vehicle's resurgent popularity has dovetailed with the tiny house movement, resonating with design-minded individuals looking to live small. Tin Can Homestead, based on the popular Instagram of the same name, is the ultimate resource for these would-be DIY-ers, and the perfect coffee-table addition for anyone looking for streamlined, modern lifestyle inspiration. Part practical how-to, part lushly illustrated design inspiration, Tin Can Homestead follows the story of one couple as they build themselves a new life in an old Airstream. Through personal stories and down-and-dirty checklists, this book guides readers through all stages of creating their own Airstream homes-from buying a trailer to plumbing and electrical work. With a hip, bohemian aesthetic and a fresh authorial voice, the authors pair their DIY knowledge with lifestyle advice-including décor, design, and entertaining-and abundant illustrations, from in-process photographs to hand-drawn illustrations.

Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

As part of the preparation of the materials for this volume, the contributors attended a conference designed to explore the basic concept of symbiosis and its applicability to the study of parents and their offspring. Each participant was asked to focus not on the parental behavior of various species, but on parent and offspring as a symbiotic unit. The presentations were informal and the discussions intense. The chapters that follow were written many months after the conference and reflect the authors' efforts to integrate the comments and criticisms of their colleagues.

Out of this amalgam, the present volume was shaped. We wish to thank the National Institute of Mental Health for supporting the conference (Grant MH 36276) and the University of Chicago for hosting it. The editors would also like to acknowledge the contributions of Dr. M. Lewis and Dr. J. Reinisch, who provided additional perspectives on the discussions held at the meeting. Special thanks are due Gary Schwartz for his thoughtful assistance throughout the course of this project. Lu Ann Homza has provided invaluable secretarial help. Leonard A. Stories of Love, Beauty, and Adventure on the Open Road

Phonetics – the study and classification of speech sounds – is a major sub-discipline of linguistics. Bringing together a team of internationally renowned phoneticians, this handbook provides comprehensive coverage of the most recent, cutting-edge work in the field, and focuses on the most widely-debated contemporary issues. Chapters are divided into five thematic areas: segmental production, prosodic production, measuring speech, audition and perception, and applications of phonetics. Each chapter presents an historical overview of the area, along with critical issues, current research and advice on the best practice for teaching phonetics to undergraduates. It brings together global perspectives, and includes examples from a wide range of languages, allowing readers to extend their knowledge beyond English. By providing both state-of-the-art research information, and an appreciation of how it can be shared with students, this handbook is essential both for academic phoneticians, and anyone with an interest in this exciting, rapidly developing field.

Illustrated with rare and exclusive images from the official company archives, an authoritative and entertaining guide to the wildly popular, beautifully designed luxury recreational vehicle that has become a cultural icon, embodying the American spirit of freedom and adventure—and the ideal in mobile living. With its distinctive silver-bullet shaped profile, the Airstream has been an integral part of the American recreational landscape for more than eighty-five years. Since the 1930s, thousands of Americans have used it as a personal canvas to paint their own unique story as they've traveled the road of life, and today, these stunning, nostalgia-laden vehicles are more popular than ever. In Living the Airstream Life, Karen Flett tells the unique story of the designers who have transformed the brand into a mainstay of American life and the dreamers who have found their home, and their heart, in an Airstream. Living the Airstream Life is a tour along the diverse roads aficionados have taken in chasing their Airstream dreams. Stunning color photographs featuring new and vintage versions and compelling stories capture the allure of the Airstream and offer advice and insight on the practicalities of adopting this lifestyle. With spectacular photography and compelling stories, Living the Airstream Life offers inspiration for those actively pursuing the dream of life on the road—whether for permanent living or as a temporary escape from the daily grind—and everyone who wants to live vicariously through those who dare.

Thoroughly revised and updated, the second edition of "The Handbook of Phonetic Sciences" provides an authoritative account of the key topics in both theoretical and applied areas of speech communication, written by an international team of scholars and practitioners. The "Handbook" is accessibly structured into five major sections covering: experimental phonetics; biological perspectives; modelling speech production and perception; linguistic phonetics; and speech technology. It is re-oriented to create a more streamlined and user-friendly reference tool, whilst keeping the essential features that made the first edition so comprehensive. All contributions have been revised in order to bring them up-to-date with the latest research, and nine entirely new chapters have been added on topics including phonetic notation and sociophonetics, speech technology, and biological perspectives, along with an expanded section on prosody. Combining new and influential research, this volume offers an unparalleled resource for advanced students and specialists in phonetics, linguistics, speech and language therapy, psychology, and speech technology.
