Object-oriented programming increases software reusability, extensibility, interoperability, and reliability. Software testing is necessary to realize these benefits. Software testing aims to uncover as many programming errors as possible at a minimum cost. A major challenge to the software engineering community remains how to reduce the cost and improve the quality of software testing.

The requirements for testing object-oriented programs differ from those for testing conventional programs. Testing Object-Oriented Software illustrates these differences and discusses object-oriented software testing problems, focusing on the difficulties and challenges testers face. The book provides a general framework for class- and system-level testing and examines object-oriented design criteria and high testability metrics. It offers object-oriented testing techniques, ideas and methods for unit testing, and object-oriented program integration-testing strategy. Readers are shown how to test and can drastically reduce regression test costs, presented with step-by-step object-oriented testing, and introduced to object-oriented test design and systems. In addition to software testing problems, the text also covers various test methods developers can use during the design phase to generate programs with good testability. The book's

'Godan' is an epic in Hindi prose. It is the most famous work of Munshi Premchand. 'Godan' gives a vivid picture of the condition of Indian farmers during the author's lifetime. The novel is relevant today because the rural folks' problems still exist. Farmers have generally been exploited by money-lenders, government officials and superstitious community members. Hori, a well-off cultivator, suffers for his dependence on these exploiters. He works very hard, grows various crops, yet starves with his family because almost all his crops are given away to clear the creditor's dues. He efforts to protect his family dignity but fails because he was continuously exploited.

Kabir elevates us into the realm of the spirit - a world of beauty, majesty, even romance, where the relationship between lovers is a recurring metaphor for our relationship to the divine. For the last century, Rabindranath Tagore's classic translation, "Songs of Kabir," has been the standard, but over the years it has

suffered the ravages of time. In "Kabir Says," David Masterman has reworked Tagore's translation and breathed new life into it for the 21st century reader. But this edition goes beyond merely updating language and style; it considerably enhances the poetic form and flow of the English translation, and a new introduction and appendix have also been added to add depth to the reader's understanding.

scenes into a way of life that has long been shrouded in mystery. When Geeta, an educated, outgoing young woman from Bombay, marries into a staunchly traditional family, she suddenly finds herself forced to live in purdah in her husband's ancient home, the haveli. Unable to escape from the conservative customs that now define her life, she struggles to hold on to the modern values she has grown to cherish. Can she discover new meaning and dignity in what at first seems to her a strange and stultifying existence?
