Provide targeted instruction to ELLE and other diverse learners! Many Response to Intervention (RTI) models were developed to identify specific learning disabilities in English-speaking students. This research-based resource provides more than 200 instructional interventions for using RTI with students from culturally and linguistically diverse backgrounds in Grades K-12, especially non-native English speakers and those with limited English proficiency. This book features 10 interventions for students' cognitive, behavior, literacy, and communication issues at each tier of a multi-tier RTI framework A reader-friendly format and straightforward directions for using each intervention Examples from practice and a glossary to aid implementation

This book focuses on the inter-relationship between reading, writing and speaking and listening. Psychologists and educationalists, influenced by the work of Vygotsky, have emphasised the importance of social interaction in learning, and the National Writing, Oracy and LINC Projects highlighted the need for quality interactive pupil discourse and effective teacher-pupil interaction. However, although the DfEE claims that the successful teaching of literacy is characterised by good quality oral work, speaking and listening is not included in the National Literacy Strategy Framework and the Literacy Training Pack does not address the issue. Literacy and Learning through Talk blends theory, research and practice to show how an integrated programme of work can be developed to ensure that literacy is taught in a vibrant and stimulating way. Strategies for developing successful group work and whole class, interactive discourse are examined and effective teaching roles and questioning techniques are explored. Transcripts of group discussions and examples of children's work illustrate various points and work plans and practical classroom activities are described.

Encourage reading skills by highlighting the high frequency words essential for beginning readers. With our resource, students will begin to think of words as not only a series of individual letters and sounds, but as easily recognizable chunks of language. Make a word by adding an onset, like "sn", to the rime, like "ail". Then, say the word out loud. Finish a sentence by matching words, like "sweep" and "keep", to the boxes that show tall and small letters. Read a sentence, like "We like to glide down the wide slide", and circle all the words that rime. Then, write your own sentences using words that rime. Aligned to your State Standards and written to Bloom's Taxonomy, reproducible writing tasks, rime & onset cards, crossword, word search, comprehension quiz and answer key are also included.
