Besides being the right thing to do for Mother Earth, recycling can also make money—particularly when it comes to upcycling, a zero waste practice where discarded materials are fashioned into goods of greater economic or cultural value. In Upcycling Aluminum, Carl A. Zimring explores how the metal's abundance after World War II—coupled with the significant economic and environmental costs of smelting it from bauxite ore—led to the industrial production of valuable durable goods from salvaged aluminum. Beginning in 1886 with the discovery of how to mass produce aluminum, the book examines the essential part the metal played in early aviation and the world wars, as well as the troubling expansion of aluminum as a material of mass disposal. Recognizing that scrap aluminum was as good as virgin material and much more affordable than newly engineered metal, designers in the postwar era used aluminum to manufacture highly prized artifacts. Zimring takes us on a tour of post-1940s design, examining the use of aluminum in cars, trucks, airplanes, furniture, and musical instruments from 1945 to 2015. By viewing upcycling through the lens of one material, Zimring deepens our understanding of the history of recycling in industrial society. He also provides a historical perspective on contemporary sustainable design practices. Along the way, he challenges common assumptions about upcycling's merits and adds a new dimension to recycling as a form of environmental absolution for the waste-related sins of the modern world. Raising fascinating questions of consumption, environment, and desire, Upcycling Aluminum is for anyone interested in industrial and environmental history, discard studies, engineering, product design, music history, or antiques.

Flipping the Classroom

Collectors of jazz on vinyl know how difficult it can be to find pristine copies of original classic jazz recordings, and ever-changing market values can make pricing those albums even more difficult. With this fantastic, updated 2nd edition, collectors will be able to accurately price records using the most current US market values. This all-encompassing reference features all types of jazz issued on 331/3 rpm long-playing records, including Dixieland, bebop, big band, swing, West Coast, fusion, modern and many others. It includes over 40,000 albums released between 1948 and today, valued in three grades of condition, as well as a thoroughly illustrated label guide for easy distinction between first editions and later pressings. Collectors will discover thousands of records not listed in any other price guide.

Reputational Challenges in Sport

The Eb-5 Handbook

(Contemporary Romance): The Friessens: A New Beginning

There are times when what a youngster does or says is absolutely baffling to mom or dad. How can 15-year-old Sarah spend hours prepping her hair and not give one second to cleaning her room? Likewise, what's wrong with 10-year-old Mark who knows he shouldn't bully his little brother but does so anyway? Certainly parents want answers, and no one is surprised when a parent falls back on interrogating a child or teen with repeated " Why? " or " What were you thinking? " questions.Unfortunately, searching for the reasons children behave as they do by asking the ubiquitous " Why? " is ultimately unsuccessful and, frankly, irrelevant. " I don't know, " " Because, " or " I wasn't thinking, " is the usual child response, resulting in frustrated parents and youngsters who feel embarrassed, stupid or annoyed.Drs. Charles C. Larson and John B. Dockstader, each with more than thirty years of experience working with parents and youngsters, advise parents to step back from situations such as those described and offer, instead, techniques for evaluating and solving family problems without needing to know " Why? " . The authors counsel parents how to determine if a problem exists, who owns the problem and who is best equipped to solve it. Numerous real-life examples are presented to illustrate the problem-solving process and solutions.In Parenting Without Guilt, parents learn not only to solve family problems, but also why the challenges parents and youngsters face today are more demanding than ever before. In addition, parents are guided through each stage of child development, from birth to young adulthood, with attention to typical problems any parent may anticipate. Resources that parents can use to help them resolve family discords are discussed, to include working with educators, clergy, pediatricians, private practitioners and others.With compassion, humor and wisdom gained through practical experience, Drs. Larson and Dockstader offer information and advice that provides any parent with the skills to raise successful children without guilt, anxiety or distress.

The highly anticipated second book in THE FRIESSENS: A NEW BEGINNING continues with the moving saga of Neil & Candy in The Price to Love. *Warning - This is a highly emotional romance with realistic elements that may tug at your heartstrings. --"I loved this emotional roller coaster" - Author Mimi Barbour --"I was pulled in on the first page and could not put it down until I got to the last page. I love when a writer tells the story about a complete family." - Reviewer, Susan In THE PRICE TO LOVE...I knew my husband wanted a baby, but I couldn't give him one. When Neil paid for a surrogate and moved her into our home, he told me not to worry, but I couldn't help but notice that she recognized the strong, sexy alpha male inside him, and I suddenly felt as if I was on the outside looking in. Then, one day, I met Cat, the young girl who stole my heart. I saw something in Cat that I couldn't turn away from: a damaged, scarred soul filled with the kind of despair and hopelessness that should never have been in the innocent eyes of a child. Cat needed me--my voice, my hugs, and my love--and she captured my heart. However, neither Neil nor his family understood my need to help her. I found myself alone, and I knew I was the only one who could save Cat before it was too late. From sage steppe to mountain forest to the waters of the Pacific Ocean, Oregon's diverse habitats host an equally rich diversity of bird life. BIRDING OREGON guides you to more than 250 of the best birding sites, telling you where to go, when to go, and what you will see when you get there. Whether you are a casual bird watcher or a hard-core lister, this guide will help you make the most of your travels through Oregon. To be included in the book, all of the sites had to meet three criteria. 1. The site must be on public land, or on land accessible to the birding public. Trespassing is not OK, even for birders. 2. The site must be accessible in a normal passenger car. Nothing spoils a birding trip faster than a punctured oil pan or a broken axle. 3. The site must provide consistently good birding, year after year. Good birds can show up anywhere on occasion. But if your time is limited, you want to visit sites that offer the best birding on a regular basis. In addition to the site guides, BIRDING OREGON includes a checklist of 543 species of birds and their seasonal abundance. The Resources section lists contact information for federal and state agencies, conservation and birding organizations, birding trails, and guide services.

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

"Outstanding. A great entry point for the developer and investor." – Brian Calle, Orange County Register "Combines the experience of the authors to give a unique perspective on the important EB-5 program which drives capital formation and jobs across our country." – Congressman Jared Polis
Whether you are a foreign investor seeking a United States green card or a domestic developer sourcing capital for your latest project, the United States EB-5 visa program offers unique opportunity. In an industry known to be difficult to understand, The EB-5 Handbook breaks down the EB-5 program into its simple basics- investment, economic growth, and green cards. In The EB-5 Handbook, investors and developers alike will learn the essentials of the program, the benefits it can offer, and how to get started on their EB-5 journey with sections uniquely tailored to each party. Ali Jahangiri of EB5 Investors Magazine has brought together an all-star team of experts from nearly every segment of the industry. The authors – Jeff Campion, Linda He, David Hirson, Linda Lau, Dawn Lurie, Joseph McCarthy, Al Rattan, Reid Thomas, John Tishler, Kyle Walker, and Kevin Wright – and the editors – Elizabeth Peng and Cletus Weber –all have an established history of success working with EB-5 investors and developers. The EB-5 Handbook is the first book of its kind to bring together such a diverse group of authors to increase transparency and knowledge of the EB-5 program.

Every aspect of playing great blues guitar is covered, building from first principles such as blues rhythm, riffs, structure and fills, to more advanced techniques such as approach chords, shell chords and 'drop two' chord voicings.

Issues of reputation management are negotiated in a wide array of contexts, yet arguably one of the most visible of these areas involves how such stories unfold within the sporting arena. Whether involving individual athletes, teams, organizations, leagues, or global entities, the process of navigating issues of image repair and/or restoration and crisis-based communication has never been more byzantine with a plethora of communicative media outlets functioning in myriad manners. Reputational Challenges in Sport explores the intersection of reputation, sport, and society. In doing so, the book advances theory and then explores individual, team, and organizational applications from varied methodological perspectives as they relate to reputation and identity management and crisis orientations. The book provides a synthesis of previous works while offering a contemporary advancement of these subjects from a variety of epistemological approaches. It gives voice to variety of perspectives that offer a robust advancement of issues relating to reputation, sport, and modern society.

It whispers, it sings, it rocks, and it howls. It expresses the voice of the folk—the open road, freedom, protest and rebellion, youth and love. It is the acoustic guitar. And over the last five decades it has become a quintessential American icon. Because this musical instrument is significant to so many—in ways that are emotional, cultural, and economic—guitar making has experienced a renaissance in North America, both as a popular hobby and, for some, a way of life. In Guitar Makers, Kathryn Marie Dudley introduces us to builders of artisanal guitars, their place in the art world, and the specialized knowledge they've developed. Drawing on in-depth interviews with members of the lutherie community, she finds that guitar making is a social movement with political implications. Guitars are not simply made—they are born. Artisans listen to their wood, respond to its liveliness, and strive to endow each instrument with an unforgettable tone. Although professional luthiers work within a market society, Dudley observes that their overriding sentiment is passion and love of the craft. Guitar makers are not aiming for quick turnover or the low-cost reproduction of commodities but the creation of singular instruments with unique qualities, and face-to-face transactions between makers, buyers, and dealers are commonplace. In an era when technological change has pushed skilled artisanship to the margins of the global economy, and in the midst of a capitalist system that places a premium on ever faster and more efficient modes of commerce, Dudley shows us how artisanal guitar makers have carved out a unique world that operates on alternative, more humane, and ecologically sustainable terms.

"When Jon Sveinsson wrote this travelogue in 1894, there is no way he could have known of the fame he would one day acquire as a writer. In fact, it was not until some twenty years later that his children's book "Lost in the Arctic" ... was first published ... and the fame of 'Nonni' ([his] boyhood Icelandic nickname) spread ... his books were eventually translated into some 40 languages ... Jon Sveinsson is the only Jesuit priest ever born in Iceland. He left his homeland as a boy ... to follow [the] call ... Still longing to follow his dream to become a missionary, he ... volunteered to travel to Iceland in order to care for the souls of his fellow countrymen"--Publisher's foreword.

Gruhn's Guide to Vintage Guitars

In the 1980s, heavy metal went mainstream. The dark themes and brain-busting riffage of bands like Black Sabbath and Deep Purple suddenly fell out of favor—replaced by a new legion of metalheads whose themes of girls, partying, girls, drugs, and girls were presented amid shredding solos and power ballads and who were somehow more acceptable to the masses. In this ultimate guide to the subgenre, acclaimed heavy-metal journalist Martin Popoff examines hair metal in an all-encompassing oral history jacked up by a kaleidoscope of outrageous and previously unpublished quotes, anecdotes, photos, and memorabilia. The Big Book of Hair Metal features the observations of dozens of musicians, producers, promoters, label execs, and hangers-on in examining hair metal's rise and fall as well as all the bands that kept Aqua Net in business through the Reagan recession: Twisted Sister, Bon Jovi, Poison, Mötley Crüe, Ratt, Warrant, Great White, Whitesnake, Cinderella, Vixen, Skid Row, L.A. Guns, Guns N' Roses, and dozens more. In crafting a narrative of hair metal, Popoff also examines the factors that contributed to the movement's rise (including MTV, Reagan's “morning in America,” and a general move toward prudish morals); the bands that inspired it (the Sweet, New York Dolls, Alice Cooper, and KISS, for a start); and the scenes that nurtured it (the Sunset Strip, anyone?). The ride finally ended circa 1991, when hair metal was replaced by grunge, but what a ride it was. Here it is in all of its primped-up glory.
