Investment has flooded back to cities because dense, walkable, mixed-use urban environments offer choices that support diverse dreams. Auto-oriented, single-use suburbs have a hard time competing. Suburban Remix brings together experts in planning, urban design, real estate development, and urban policy to demonstrate how suburbs can use growing demand for urban living to renew their appeal as places to live, work, play, and invest. The case studies and analysis show how compact new urban places are being created in suburbs to produce health, economic, and environmental benefits, and contribute to solving a growing equity crisis.

In this anthology of weird fiction, twenty-two authors share their harrowing visions of worlds shaped by the Yellow Sign, in stories and poems inspired by Robert W. Chambers's foundational works of weird horror. From the personal to the historic, from the macabre to the fantastic, the stories and poems gathered here illuminate new, unexpected realities shaped by the King in Yellow, under the sway of the Yellow Sign, or in the grip of madresses inspired by their power. Authors included: Marc Abbott - Linda D. Addison - Meghan Arcuri - Greg Chapman - JG Faherty - Trevor Firetog - Patrick Freivald - Carol Gyzander - Todd Keisling - John Langan - Curtis Lawson - Adrian Ludens - Lisa Morton - Joseph S. Pulver, Sr. - Sarah Read - Kathleen Scheiner - Ann K. Schwader - Darrell Schweitzer - J. Daniel Stone - Steven Van Patten - Tim Waggoner - Kaaron Warren Robert W. Chambers's classic work of weird fiction, *The King in Yellow* (1895), contained two stories that have exercised wide influence in the genre. "The Repairer of Reputations" introduced the world to *The King in Yellow*, a play in two acts, banned for its reputed power to drive mad anyone who reads its complete text. Another story, "The Yellow Sign," used the experiences of an artist and his model to elaborate on the mythos of the Yellow King, the Yellow Sign, and their danger to all who encounter them. In those tales Chambers crafted fascinating glimpses of a cosmos populated by conspiracies, government-sanctioned suicide chambers, haunted artists, premonitions of death, unreliable narrators-and dark, enigmatic occurrences tainted by the alien world of Carcosa, where the King rules in his tattered yellow mantle. In Carcosa, black stars rise and Cassilda and Camilla speak and sing. In Carcosa, eyes peer from within pallid masks to gaze across Lake Hali at the setting of twin suns.

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

By replacing equations with diagrams, the book allows non-specialist readers to fully understand the concepts in relativity without the slow, painful progress so often associated with a complicated scientific subject. It allows readers not only to know how relativity works, but also to intuitively understand it.

This special issue explores the intersection of queer theory and comics studies. The contributors provide new theories of how comics represent and reconceptualize queer sexuality, desire, intimacy, and eroticism, while also investigating how the comic strip, as a hand-drawn form, queers literary production and demands innovative methods of analysis from the fields of literary, visual, and cultural studies. Contributors examine the relationships among reader, creator, and community across a range of comics production, including mainstream superhero comics, independent LGBTQ comics, and avant-garde and experimental feminist narratives. They also address queer forms of identification elicited by the classic X-Men character Rogue, the lesbian
