

Handbook On The Politics Of Regulation

'Political science has leap-frogged law, economics, and sociology to become the dominant discipline contributing to regulatory studies. David Levi-Faur's volume taps the rich veins of regulatory scholarship that have made this the case. It brings together the talented new network of politics scholars intrigued by the importance of the changing nature of state and non-state regulation. Their fresh insights complement important new work by established stars of the field. Definitely a book to have on your shelf when in search of exciting theoretical approaches to politics.' – John Braithwaite, Australian National University "'Regulation", in its manifold forms, is the central process of contemporary governance, as it seeks to blend the dynamism of market economies with responsiveness to political and normative demands for health, safety, environmental protection, and fairness. Understanding regulation's varieties, vulnerabilities, and virtues has become a significant focus of academic research and theory. This volume provides an extraordinary survey of research in that field – a survey remarkable in its comprehensiveness, outstanding in the quality of the contributions by leading regulatory scholars from different nations and academic disciplines.' – Robert A. Kagan, University of California, Berkeley, US 'An authoritative collection by a range of contributors with outstanding reputations in the field.' – Michael Moran, WJM Mackenzie Professor of Government 'This is an extraordinarily useful one-stop-shop for a wide range of traditions and approaches to the political aspects of regulation. David Levi-Faur has assembled a fine collection that by reporting on the state of the art also shows the way ahead for a discipline that has to capture and explain dramatic changes in real-world regulatory philosophies and policies.' – Claudio Radaelli, University of Exeter, UK 'This is an unusually impressive edited volume. Its contributors include the leading academic experts on government regulation from around the world. Its several clearly-written and informative essays address the most important topics, issues, and debates that have engaged students of regulatory politics. I strongly recommend this volume to anyone interested in understanding the breadth and depth of contemporary scholarship on the political dimensions of regulation.' – David Vogel, University of California, Berkeley, US This unique Handbook offers the most up-to-date and comprehensive, state-of-the-art reviews of the politics of regulation. It presents and discusses the core theories and concepts of regulation in response to the rise of the regulatory state and regulatory capitalism, and in the context of the 'golden age of regulation'. Its ten sections include forty-nine chapters covering issues as diverse and varied as: theories of regulation; historical perspectives on regulation; regulation of old and new media; risk regulation, enforcement and compliance; better regulation; civil regulation; European regulatory governance; and global regulation. As a whole, it provides an essential point of reference for all those working on the political, social, and economic aspects of regulation. This comprehensive resource will be of immense value to scholars and policymakers in numerous fields and disciplines including political science, public policy and administration, international relations, regulation, international law, business and politics, European studies, regional studies, and development studies.

The Routledge Handbook of Language and Politics provides a comprehensive overview of this important and dynamic area of study and research. Language is indispensable to initiating, justifying, legitimatising and coordinating action as well as negotiating conflict and, as such, is intrinsically linked to the area of politics. With 45 chapters written by leading scholars from around the world, this Handbook covers the following key areas: Overviews of the most influential theoretical approaches, including Bourdieu, Foucault, Habermas and Marx; Methodological approaches to language and politics, covering – among others – content analysis, conversation analysis, multimodal analysis and narrative analysis; Genres of political action from speech-making and policy to national anthems and billboards; Cutting-edge case studies about hot-topic socio-political phenomena, such as ageing, social class, gendered politics and populism. The Routledge Handbook of Language and Politics is a vibrant survey of this key field and is essential reading for advanced students and researchers studying language and politics.

While political scientists and political theorists have long been interested in social and political performance, and theatre and performance researchers have often focused on the political dimensions of the live arts, the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored. This volume brings together leading scholars in the fields of Politics and Performance--drawing on experts across the fields of literature, law,anthropology, sociology, psychology, and media and communication, as well as politics and theatre and performance--to map out and deepen the evolving interdisciplinary engagement. Organized into seven thematic sections, the volume investigates the relationship between politics and performance to show thatcertain features of political transactions shared by performances are fundamental to both disciplines--and that to a large extent they also share a common communicational base and language.

The Antarctic and Southern Ocean are hotspots for contemporary endeavours to oversee 'the last frontier' of the Earth. The Handbook on the Politics of Antarctica offers a wide-ranging and comprehensive overview of the governance, geopolitics, international law, cultural studies and history of the region. Four thematic sections take readers from the earliest human encounters to contemporary resource exploitation and climate change. Written by leading experts, the Handbook brings together the very best interdisciplinary social science and humanities scholarship on the Antarctic and Southern Ocean.

State and Society in Global Perspective

Handbook on the Politics of Higher Education

Handbook of the Politics of the Arctic

Handbook of Political Anthropology

Routledge Handbook of Brazilian Politics

The Routledge Handbook of Translation and Politics presents the first comprehensive, state of the art overview of the multiple ways in which ‘politics’ and ‘translation’ interact. Divided into four sections with thirty-three chapters written by a roster of international scholars, this handbook covers the translation of political ideas, the effects of political structures on translation and interpreting, the politics of translation and an array of case studies that range from the Classical Mediterranean to contemporary China. Considering established topics such as censorship, gender, translation under fascism, translators and interpreters at war, as well as emerging topics such as translation and development, the politics of localization, translation and interpreting in democratic movements, and the politics of translating popular music, the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics. With a substantial introduction and extensive bibliographies, this handbook is an indispensable resource for students and researchers of translation theory, politics and related areas.

Comprehensive and timely, this Handbook identifies the key characteristics, challenges and opportunities involved in the politics of small states across the globe today. Acknowledging the historical legacies behind these states, the chapters unpack the costs and benefits of different political models for small states.

Explains the theory of political survival, particularly in cases of dictators and despotic governments, arguing that political leaders seek to stay in power using any means necessary, most commonly by attending to the interests of certain coalitions.

The Oxford Handbook of Danish Politics provides the most comprehensive and thorough English language book on Danish politics ever written. It features chapters by 50 leading experts who have contributed extensively to the field they write about. Why is Denmark an interesting topic for a Handbook? In some respects, Danish political institutions and political life are very similar to that of other small, North European countries such as the other Scandinavian countries and Netherland. However, in other respects, Danish politics is interesting in its own right. For instance, Denmark has a world record in minority governments. According to standard scholarly knowledge, this should result in unstable governments and a bad economy. This is not the case, however, since Denmark has a rather stable political system and a strong and robust economy among the strongest in Europe. How? The Danes have continued reservations towards the EU despite close to 50 years of EC/EU membership, and the Danes rejected the Maastricht Treaty in 1992. Still, the EU issue is handled in ways that do not call for large political battles. How? A third example is that Denmark used to be known as a tolerant and liberal society; its Jews were almost all saved during German occupation during WWII, Denmark was the first country to free pornography, and the first country to formally register same-sex couples. Yet recent Danish politics has also been associated with xenophobia and anti-Muslim sentiments. Why?

Handbook of the Politics of China

Routledge Handbook of Postcolonial Politics

Handbook on the Politics of Antarctica

Routledge Handbook of Politics in Asia

These changes, together with the general advance in the study of regulation, undoubtedly demand a re-evaluation of the theory of regulation, its methodologies and scope of application. This book is a perceptive investigation of recent evolutions in the manner and extent of governance through regulation. Scholars and students of comparative politics, public policy, regulation theory, institutional economics and political sociology will find it to be essential reading. It will also prove a valuable source of reference for those working or dealing with regulatory authorities and for business managers in private industries and services operating under a regulatory framework.

This Handbook engages the reader in the major debates, approaches, methodologies, and explanatory frames within political anthropology. Examining the shifting borders of a moving field of enquiry, it illustrates disciplinary paradigm shifts, the role of humans in political structures, ethnographies of the political, and global processes. Reflecting the variety of directions that surround political anthropology today, this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world.

The Office Politics Handbook is for business executives, managers, consultants, lawyers, agents, editors, and anyone who wants to become more politically astute, more powerful, and more successful.

This is not a book on political game playing; it is for people who hate power games but who know that politics takes place in every organization and want to make sure they wind up on top of the heap...not at the bottom of the barrel. This book will explain why people are political animals, and why they engage in power-seeking behavior. It will also discuss different instruments of power to help you understand the cultural and collective forces at work in human nature, and the occasionally aggressive characteristics of the political animal. The Office Politics Handbook will show you how to:

Cultivate your political skill Exercise power beyond your place in the organizational chart Defend yourself against political attacks Know when to fight, when to retreat, and when to lead

It would be difficult to imagine how a development as world-changing as the emergence of the Internet could have taken place without having some impact upon the ways in which politics is expressed, conducted, depicted and reflected upon. The Handbook o

The Oxford Handbook of Politics and Performance

Routledge Handbook of Middle East Politics

The Routledge Handbook of the Politics of Migration in Europe provides a rigorous and critical examination of what is exceptional about the European politics of migration and the study of it. Crucially, this book goes beyond the study of the politics of migration in the handful of Western European countries to showcase a European approach to the study of migration politics, inclusive of tendencies in all geographical parts of Europe (including Eastern Europe, the Western Balkans, Turkey) and of influences of the European Union (EU) on countries in Europe and beyond. Each expert chapter reviews the state of the art field of studies on a given topic or question in Europe as a continent while highlighting any dimensions in scholarly debates that are uniquely European. Thematically organised, it permits analytically fruitful comparisons across various geographical entities within Europe and broadens the focus on European immigration politics and policies beyond the traditional limitations of Western European, immigrant-receiving societies. The Routledge Handbook of the Politics of Migration in Europe will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on migration, and European and EU Politics.

The Mediterranean space, defined by a major sea, a large number of littoral countries and to some extent their hinterlands, is at the same time an interface between Europe, Africa and Asia. This brings complex challenges in terms of achieving peace and stability. Recently it has received intense international attention through the internal destructiveness and spill-over from conflicts, primarily those waged in Libya, Syria and, more remotely, Iraq. This Handbook provides an overview of the political processes that shape the Mediterranean region in the contemporary context. It explores the issues of crucial importance to Mediterranean dynamics through a series of analytical sections that guide the reader towards a comprehensive understanding of the main regional interactions and trends. The Handbook explores: the complex historical formation of the contemporary Mediterranean geopolitical perspectives issues around peace and conflict the political economy of the region the role of non-state actors and social movements societal and cultural trends. The wide range of contributions from many of the leading academic experts on the region offers not only insights into the debates and processes that structure each theme, but also key pointers for a more general understanding of how distinct political, economic, social and cultural dynamics interact across the region. It will therefore be a key resource for policy-makers and students and scholars of Mediterranean politics and international relations.

Drawing on various perspectives and analysis, the Handbook problematizes Middle East politics through an interdisciplinary prism, seeking a melioristic account of the field. Thematically organized, the chapters address political, social, and historical questions by showcasing both theoretical and empirical insights, all of which are represented in a style that ease readers into sophisticated induction in the Middle East. It positions the didactic at the centre of inquiry. Contributions by forty-four scholars, both veterans and newcomers, rethink knowledge frames, conceptual categories, and fieldwork praxis. Substantive themes include secularity and religion, gender, democracy, authoritarianism, and new "borderline" politics of the Middle East. Like any field of knowledge, the Middle East is constituted by texts, authors, and readers, but also by the cultural, spatial, and temporal contexts within which diverse intellectual inflections help construct (write–speak) academic meaning, knowing, and practice. By denaturalizing notions of singularity of authorship or scholarship, the Handbook plants a dialogic interplay animated by multi-vocality, multi-modality, and multi-disciplinarity. Targeting graduate students and young scholars of political and social sciences, the Handbook is significant for understanding how the Middle East is written and re-written, read and re-read (epistemology, methodology), and for how it comes to exist (ontology).

The Routledge Handbook of Politics in Asia is designed to serve as a comprehensive reference guide to politics in Asia. Covering East, South, Southeast, and Central Asia, this handbook brings together the work of leading international academics to cover the political histories, institutions, economies, and cultures of the region. Taking a comparative approach, it is divided into four parts, including: A thorough introduction to the politics of the four regions of Asia from the perspectives of democratization, foreign policy, political economy, and political culture. An examination of the "Big Three" of Asia – China, India, and Japan – focusing on issues including post-Mao reform, China's new world outlook, Indian democracy, and Japanese foreign policy. A discussion of important contemporary issues, such as human rights, the politics of the internet, security, nationalism, and geopolitics. An analysis of the relationship between politics and certain theoretical ideas, such as Confucianism, Hinduism, socialist constitutionalism, and gender norms. As an invaluable and all-inclusive resource, this handbook will be useful for students, scholars, researchers, and practitioners of Asian politics and comparative politics.

Handbook on the Politics of Taxation

Winning the Game of Power and Politics at Work

Handbook of Digital Politics

Routledge Handbook of African Politics

Routledge Handbook of Political Management

In The Oxford Handbook of the Politics of Development, two of America's leading political scientists on the issue, Carol Lancaster and Nicolas van de Walle, assemble an international cast of leading scholars who craft a comprehensive, examination of development policy and its effects on the political and economic climates of a country.

Twenty-nine specialists offer their perspectives on migration from a wide variety of fields: political science, sociology, economics, and anthropology.

The Routledge Handbook of French Politics and Culture provides a detailed survey of the highly differentiated field of research on French politics, society and culture across the social sciences and humanities. The handbook includes contributions from the most eminent authors in their respective fields who bring their authority to bear on the task of outlining the current state-of-the-art research in French Studies across disciplinary boundaries. As such, it represents an innovative as well as an authoritative survey of the field, representing an opportunity for a critical examination of the contrasts and the continuities in methodological and disciplinary orientations in a single volume. The Routledge Handbook of French Politics and Culture will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on French politics, society and culture.

The Arctic has again become one of the leading issues on the international foreign policy agenda, in a manner unseen since the Cold War. Drawing on the perspectives of geo-politics and international law, this Handbook offers fresh insights and perspectives on the most pressing issues, grouped under the headings of political ascendancy, climate and environmental issues, resources and energy, and the response and policies of affected countries.

The Politics of Regulation

Routledge Handbook of the Politics of Brexit

The Handbook on the Political Economy of War highlights and explores important research questions and discusses the core elements of the political economy of war.

In this stirring call to arms, the activist, spiritual leader, and New York Times bestselling author of the classic A Return to Love confronts the cancerous politics of fear and divisiveness threatening the United States today, urging all spiritually aware Americans to return to—and act out of—our deepest value: love. America's story is one of great social achievement. From the Abolitionists who fought to outlaw slavery, to the Suffragettes who championed women's right to vote, to the Civil Rights proponents who battled segregation and institutionalized white supremacy, to the proponents of the women's movement and gay rights seeking equality for all, citizens for generations have risen up to fulfill the promise of our nation. Over the course of America's history, these activists have both embodied and enacted the nation's deepest values. Today, America once again is in turmoil. A spiritual cancer of fear threatens to undo the progress we have achieved. Discord and hatred are dissolving our communal bonds and undermining the spirit of social responsibility—the duty we feel toward one another. In this powerful spiritual manifesto, Marianne Williamson offers a tonic for this cultural malignancy. She urges us to imitate the heroes of our past and live out our deepest spiritual commitment: where some have sown hatred, let us now sow love. Williamson argues that we must do more than respond to external political issues. We must address the deeper, internal causes that have led to this current dysfunction. We need a new, whole-person politics of love that stems not just from the head but from the heart, not just from intellectual understanding but from a genuine affection for one another. By committing to love, we will make a meaningful contribution to the joyful, fierce and disruptive energies that are rising at this critical point in time. In the words of Abraham Lincoln, "we must think anew, and act anew . . . and then we shall save our country."

The Routledge Handbook of Political Management is a comprehensive overview of the field of applied politics, encompassing political consulting, campaigns and elections, lobbying and advocacy, grass roots politics, fundraising, media and political communications, the role of the parties, political leadership, and the ethical dimensions of public life. While most chapters focus on American politics and campaigns, there are also contributions on election campaigns in Europe, the Middle East, Russia, Australia, East Asia, and Latin America. In addition to a thorough treatment of campaign and elections, the authors discuss modern techniques, problems, and issues of advocacy, lobbying, and political persuasion, with a special emphasis throughout the volume on technology, the Internet, and online communications as political tools. Grounded in the disciplines of political science, political communications, and political marketing, the Routledge Handbook of Political Management explores the linkages between applied politics and social science theory. Leading American and international scholars and practitioners provide an exhaustive and up-to-date treatment of the state of this emerging field. This publication is a major resource for advanced undergraduates, graduate students, and scholars of campaigns, elections, advocacy, and applied politics, as well as for political management professionals.

Engagements with the postcolonial world by International Relations scholars have grown significantly in recent years. The Routledge Handbook of Postcolonial Politics provides a solid reference point for understanding and analyzing global politics from a perspective sensitive to the multiple legacies of colonial and imperial rule. The Handbook introduces and develops cutting-edge analytical frameworks that draw on Black, decolonial, feminist, indigenous, Marxist and postcolonial thought as well as a multitude of intellectual traditions from across the globe. Alongside empirical issue areas that remain crucial to assessing the impact of European and Western colonialism on global politics, the book introduces new issue areas that have arisen due to the mutating structures of colonial and imperial rule. This vital resource is split into five thematic sections, each featuring a brief, orienting introduction: Points of departure Popular postcolonial imaginaries Struggles over the postcolonial state Struggles over land Alternative global imaginaries Providing both a consolidated understanding of the field as it is, and setting an expansive and dynamic research agenda for the future, this handbook is essential reading for students and scholars of International Relations alike.

Handbook on the Governance and Politics of Migration

Handbook on the Politics of Regulation

A Handbook for a New American Revolution

The Routledge Handbook of Translation and Politics

Institutions and Regulatory Reforms for the Age of Governance

This innovative Handbook sets out a conceptual and analytical framework for the critical appraisal of migration governance. Global and interdisciplinary in scope, the chapters are organised across six key themes: conceptual debates; categorisations of migration; governance regimes; processes; spaces of migration governance; and mobilisations around it.

The Routledge Handbook of Scandinavian Politics is a comprehensive overview of Scandinavian politics provided by leading experts in the field and covering the polity, the politics and the policy of Scandinavia. Coherently structured with a multi-level thematic approach, it explains and details Scandinavian politics today through a series of cutting-edge chapters. It will be a key reference point both for advanced-level students developing knowledge about the subject, as well as researchers producing new material in the area and beyond. It brings geographical scope and depth, with comparative chapters contributed by experts across the region. Methodologically and theoretically pluralistic, the handbook is in itself a reflection of the field of political science in Scandinavia and the diversity of the issues covered in the volume. The Routledge Handbook of Scandinavian Politics will be an essential reference for scholars, students, researchers and practitioners interested and working in the fields of Scandinavian politics, European politics, comparative politics and international relations.

Providing a comprehensive and cutting edge examination of this important continent, Routledge Handbook of African Politics surveys the key debates and controversies, dealing with each of the major issues to be found in Africa's politics

today. Structured into 6 broad areas, the handbook features over 30 contributions focused around: The State Identity Conflict Democracy and Electoral Politics Political Economy & Development International Relations Each chapter deals with a specific topic, providing an overview of the main arguments and theories and explaining the empirical evidence that they are based on, drawing on high-profile cases such as the Democratic Republic of Congo, Kenya, Nigeria, Somalia, South Africa, Rwanda and Zimbabwe. The Handbook also contains new contributions on a wide range of topical issues, including terrorism, the growing influence of China, civil war, and transitional justice, making it required reading for non-specialists and experts alike. Featuring both established scholars and emerging researchers, this is a vital resource for all students of African Studies, democratization, conflict resolution and Third World politics. The Handbook of the Politics of China is a comprehensive resource introducing readers to the very latest in research on Chinese politics. David Goodman provides an introduction to the key structures and issues, providing the foundations on which later learning can be built. Including a comprehensive bibliography, it is an ideal reference work for undergraduate and postgraduate students and academics. The Handbook contains four sections of new and original research, dealing with leadership and institutions, public policy, political economy and social change, and international relations. Each of the 26 chapters has been written by a leading internationally-established authority in the field and each reviews the literature on the topic, and presents the latest findings of research. Presenting the state of the art of the field, this reader-oriented Handbook is an essential primer for the study of China's politics.

The Routledge Handbook of the Politics of Migration in Europe
The Handbook on the Political Economy of War

The Office Politics Handbook

The Routledge Handbook of French Politics and Culture

The Oxford Handbook of Urban Politics

This revised edition of the Handbook of Education Politics and Policy presents the latest research and theory on the most important topics within the field of the politics of education. Well-known scholars in the fields of school leadership, politics, policy, law, finance, and educational reform examine the institutional backdrop to our educational system, the political behaviors and cultural influences operating within schools, and the ideological and philosophical positions that frame discussions of educational equity and reform. In its second edition, this comprehensive handbook has been updated to capture recent developments in the politics of education, including Race to the Top and the Common Core State Standards, and to address the changing role politics play in shaping and influencing school policy and reform. Detailed discussions of key topics touch upon important themes in educational politics, helping leaders understand issues of innovation, teacher evaluation, tensions between state and federal lawmakers over new reforms and testing, and how to increase student achievement. Chapter authors also provide suggestions for improving the political behaviors of key educational groups and individuals with the hope that an understanding of political goals, governance processes, and policy outcomes may contribute to ongoing school reform. Since the MeToo hashtag went viral in 2017, the movement has burgeoned across social media, moving beyond Twitter and into living rooms and courtrooms. It has spread unevenly across the globe, with some countries and societies more impacted than others, and interacted with existing feminist movements, struggles, and resistances. This interdisciplinary handbook identifies thematic and theoretical areas that require attention and interrogation, inviting the reader to make connections between the ways in which the #MeToo movement has panned out in different parts of the world, seeing it in the context of the many feminist and gendered struggles already in place, as well as the solidarities with similar movements across countries and cultures. With contributions from gender experts spanning a wide range of disciplines including political science, history, sociology, law, literature, and philosophy, this groundbreaking book will have contemporary relevance for scholars, feminists, gender researchers, and policy-makers across the globe.

This text is an authoritative volume on an established subject in political science and the academy more generally: urban politics and urban studies. It covers the major themes that animate the subfield: the politics of space and place; power and governance; urban policy; urban social organization; and much more.

Understanding the politics of Higher Education is becoming more important as the sector is increasingly recognised as a vital source of innovation, skills, economic prosperity, and personal wellbeing. Yet key political differences remain over such issues as who should pay for higher education, how should it be accountable, and how we measure its quality and productivity. Particularly, are states or markets the key in helping to address such matters. The Handbook provides framing perspectives and perspectives, chapters on funding, governance and regulation, and pieces on the political economy of higher education and on the increased role of external stakeholders and indicators.

Routledge Handbook of Politics and Technology

The Routledge Handbook of the Politics of the #MeToo Movement

Routledge Handbook on the Politics of Global Health

Handbook on the Politics of Small States

Research Handbook on the Politics of International Law

This handbook provides a comprehensive global survey of the politics of technology. Written by an outstanding line up of distinguished scholars in the field, the handbook covers all aspects of the relationship between politics and technology including: Demand and support for new technologies and innovation by the state The effects of technology policies Technology development and innovation difference between various countries and regions Policy instruments and techno-industrial innovation Dynamism and change as outcomes of government policies Driving forces for science and innovative development Forming the basis of this handbook are examples of regional development, country studies and a rich variety of technologies, as well as topical issues such as divergent political interests in relation to technology and the economic exploitation of technologies. Employing a comparative and interdisciplinary approach in order to analyse the interplay between government activities and the development of new technologies, this handbook will be an invaluable resource for all students, scholars and practitioners working in the politics of technology, public policy and policy analysis. Protecting and promoting health is inherently a political endeavor that requires a sophisticated understanding of the distribution and use of power. Yet while the global nature of health is widely recognized, its political nature is less well understood. In recent decades, the interdisciplinary field of global health politics has emerged to demonstrate the interconnections of health and core political topics, including foreign and security policy, trade, economics, and development. Today a growing body of scholarship examines how the global health landscape has both shaped and been shaped by political actors and structures. The Oxford Handbook of Global Health Politics provides an authoritative overview and assessment of research on this important and complicated subject. The volume is motivated by two arguments. First, health is not simply a technical subject, requiring evidence-based solutions to real-world problems, but an arena of political contestation where norms, values, and interests also compete and collide. Second, globalization has fundamentally changed the nature of health politics in terms of the ideas, interests, and institutions involved. The volume comprises more than 30 chapters by leading experts in global health and politics. Each chapter provides an overview of the state of the art on a given theoretical perspective, major actor, or global health issue. The Handbook offers both an excellent introduction to scholars new to the field and also an invaluable teaching and research resource for experts seeking to understand global health politics and its future directions.

In the early twenty-first century, key public health issues and challenges have taken centre stage on the global scene, and health has been placed at the heart of our collective aspirations for human development and well-being. But significant debate exists not only about the causes, but also about the possible solutions for nearly all of the most important global health challenges. Competing visions of the values and perspectives that should underlie global health policies have emerged, ranging from an emphasis on cost effectiveness and resource constraints on one extreme, to new calls for health and human rights, and renewed calls for health and social justice on the other. The role of different intergovernmental agencies, bilateral or unilateral donors, public or private institutions and initiatives, has increasingly been called into question, whilst the spread of neoliberal policies and programmes, and existing international trade regimes and intellectual property rights, are deeply implicated in relation to global health responses. This volume critically evaluates how the global health industry has evolved and how the interests of diverse political and economic stakeholders are shaping the context of a rapidly changing institutional landscape. Bringing together leading authors from across the world, the Handbook's eight sections explore: - Critical perspectives on global health - Globalisation, neoliberalism, and health systems - The changing shape of global health governance - Development assistance and the politics of global health - Scale-up, scale-down, and the sustainability of global health programmes - Intellectual property rights, trade relations, and global health - Humanitarian emergencies and global health politics - Human rights, social justice, and global health The Routledge Handbook on the Politics of Global Health addresses both the emerging issues and conceptualisations of the political strategies, policy-making processes, and global governance of global health, along with expanding upon and highlighting the critical priorities in this rapidly evolving field. It provides an authoritative overview for students, practitioners, researchers, and policymakers working in or concerned with the politics of public health around the globe.

The surprise decision expressed by the British people in the referendum held in June 2016 to leave the European Union was remarkable. It also presents a "natural experiment" where the exposure of a society to an extraordinary event allows scholars to observe, in real time in the real world, the interaction of variables. The Routledge Handbook of the Politics of Brexit takes stock of what we know in the social science community about the Brexit phenomenon so far and looks to make sense of this remarkable process as it unfolds. The book asks simple questions across a range of areas and topics so as to frame the debate into a number of navigable "subdiscussions," providing structure and form to what is an evolving and potentially inchoate topic. As such, it provides a systematic account of the background for, the content of, and the possible implications of Brexit. The handbook therefore does not examine in detail the minutiae of Brexit as it unfolds on a day-to-day basis but raises its sights to consider both the broad contextual factors that shape and are shaped by Brexit and the deeper sources and implications of the British exit from the European Union. Importantly, as interest in Brexit reaches far beyond the shores of the United Kingdom, so an international team of contributors examines and reveals the global implications and the external face of Brexit. The Routledge Handbook of the Politics of Brexit will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in and actively concerned about research on Brexit, British politics, European Union politics, and comparative politics and international relations.

The Dictator's Handbook

The Oxford Handbook of Global Health Politics

Handbook of Education Politics and Policy

A Politics of Love

The Oxford Handbook of the Politics of International Migration

With contributions from leading international scholars, this Handbook offers the most rigorous and up-to-date analyses of virtually every aspect of Brazilian politics, including inequality, environmental politics, foreign policy, economic policy making, social policy, and human rights. The Handbook is divided into three major sections: Part 1 focuses on mass behavior, while Part 2 moves to representation, and Part 3 treats political economy and policy. The Handbook proffers five chapters on mass politics, focusing on corruption, participation, gender, race, and religion; three chapters on civil society, assessing social movements, grass-roots participation, and lobbying; seven chapters focusing on money and campaigns, federalism, retrospective voting, partisanship, ideology, the political right, and negative partisanship; five chapters on coalitional presidentialism, participatory institutions, judicial politics, and the political character of the bureaucracy, and eight chapters on inequality, the environment, foreign policy, economic and industrial policy, social programs, and human rights. This Handbook is an essential resource for students, researchers, and all those looking to understand contemporary Brazilian politics.

This comprehensive Handbook provides an insight into the main concepts and academic debates on taxation from a political science perspective. Providing a background to current debates on green taxation, taxation and inequality, taxation and gender, tax evasion and avoidance, and tax compliance, it offers potential avenues for future research.

Political sociology is the interdisciplinary study of power and the intersection of personality, society and politics. The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces. Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines. The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society, and discussions of specific applications found in the widely scattered literature where substantive research in the field is published. This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover. The purpose of this handbook is to summarize state-of-the-art theory, research, and methods used in the study of politics and society. This area of research encompasses a wide variety of perspectives and methods that span social science disciplines. The handbook is designed to reflect that diversity in content, method and focus. In addition, it will cover developments in the developed and underdeveloped worlds.

What is the relationship between politics and international law? Inspired by comparative politics and socio-legal studies, this Research Handbook develops a novel framework for comparative analysis of politics and international law at different stages of governance and in different governance systems. It applies the framework in a wide range of fields—from human rights and environmental standards, to cyber conflict and intellectual property—to show how the relationship between politics and international law varies depending on the sites where it unfolds.

The Routledge Handbook of Language and Politics
