Soooooo fun and  
less threatening

Jeanine's  
technique is  
basically fabric

with sewing  
techniques (raw-

She cuts fabric pieces and compose a collage by gluing and rearranging pieces on a background fabric she call my "canvas". After college, Jeanine may add shading and detail features with fabric paint. She then secures

the image with clear or smoke monofilament thread. After squaring up she may add fabric borders, then she layers with backing and batting. With a quilting process you can then increase texture and highlight

Fundamental to this technique is a

Ceramics

When it comes to

creating a work of art, there is nothing quite so visceral as being able to create something with your bare hands.

Sculpting clay is a very rewarding craft because it does not require a range of specialized tools or any really complicated techniques.

You can set your own pace. In this book, we will go through the

basic clay working tools and clay techniques to get you started. We will look at the whole process from start to finish - you will learn how to prepare the clay, how to mold it into the shape you want - we look at doing this by hand or by wheel - how to decorate it and how to fire it. You will learn about the tools that you

and ones that are just  
nice to have. At the end  
of this book, you will be  
able to start making

you get started, you will  
be hooked - there is

to do it again!  
Because of the  
challenges

nonprofit

not do it at all,
