Kelley Wingate's Math Practice for fifth grade is designed to help students master basic math skills through focused math practice. Practice pages will be leveled in order to target each student's individual needs for support. Some pages will provide clear, step-by-step examples. The basic skills covered include multiplication and division of fractions, more advanced division, decimals, volume, and a comprehensive selection of other fifth grade math skills. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will provide a strong foundation of basic skills and will offer differentiated practice pages to make sure all students are well prepared to succeed in today's Common Core classroom. The books will include Common Core standards matrices, cut-apart flashcard sections, and award certificates. This series is designed to engage and recognize all learners, at school or at home.

First Place Math, Grade 5 Practice Activity Book

What is fifth grade math? Not all schools and teachers around the world cover the same topics in the same depth in 5th grade, yet at this stage the student is generally learning a variety of arithmetic and prealgebra skills. This fifth grade math workbook includes: decimal place values, arithmetic with decimals, arithmetic with fractions (including mixed numbers), multiplication with multiple digits, long division practice, data analysis with a variety of graphs, pattern recognition (additive and multiplicative relationships), geometric figures (including perimeter and area), measurement and unit conversions (customary and metric), a first introduction to working with variables, financial mathematics, and other fifth grade math and prealgebra skills. The author, Chris McMullen, Ph.D., has over twenty years of experience teaching math skills to physics students. He prepared this workbook to share his strategies for applying arithmetic and prealgebra skills. The answers to all of the exercises can be checked with a key at the back.
