

Hardpressed The Hacker Series Book 2 The Hacker Series Book 2

Blake Landon is a man who has everything-wealth, good looks, and the love of Erica Hathaway. The power couple has been through hell and back, and when life has torn them apart, somehow they have always found their way back to each other, more in love and stronger than ever. Erica has never been more ready to say I do. On the verge of making the ultimate commitment, she uncovers an unsettling chapter of Blake's history. As she makes peace with her own past and the family who left her behind, she presses Blake to tear down the last walls between them. Determined to know the man he once was, she opens a door to a world beyond her wildest imagination-a world that has her questioning the limits of her own desires. As danger lurks and dark secrets come to light, will the past destroy their promise of forever?

Haunted by the responsibility of caring for her troubled family, Maya Jacobs gave the only answer she could when Cameron asked her to marry him. Years later, entrenched in a soulless professional routine, she distracts herself from the lingering regret of her decision with a "work hard, play hard" lifestyle that guarantees no man will ever find his way into her heart again. Cameron Bridge has spent the past five years married to the military, trying to escape the painful memory of losing Maya. After fighting his own war in the desert, he starts a new life in New York City, with his siblings, Olivia and Darren, by his side. When fate brings Maya back to him in the heart of a city filled with its own hopes and shadows, can Cameron find the girl he once loved in the woman she's become?

A debut collection of erotic romances features three passionate novellas about Kit Townsend, a spirited woman involved in a no-strings triangle with two men, Ryder and Mac, until love unexpectedly enters the equation, and Mia Malone, framed for drug possession and forced to work undercover in a strip join, who finds danger and passion in the arms of Texas Ranger Logan Kincaid. Original. 25,000 first printing.

Editorial Reviews

Synopsis
Darren Bridge is living a bachelor 's dream. When he 's not running into burning buildings with his crew, he 's training the flavor of the week at his brother 's gym. Few women have ever been off limits...until Vanessa. Smart, beautiful, and legs for days, she 's unlike anyone he 's ever met. Too bad he 's sworn to leave her alone. Overworked with no end in sight, Vanessa Hawkins hasn 't had a vacation in nearly two years. When Cameron and Maya 's destination wedding takes her out of the office for a much-needed break, she finds herself struggling to resist her attraction to the best man. Darren is dangerously good-looking with enough charm to make any hot-blooded woman want to drop her panties and enjoy the ride, no matter how long it lasts. When they return to the city, Darren realizes the single life has lost its glimmer. But with everything else on her plate, Vanessa doesn 't have room in her life for a man, let alone a player. Can Darren find his way into her heart and convince her that he 's worth the risk?

Fate of Storms

Revenge: The Red Ledger

Stars Uncharted

The King 's Beast, Vol. 1

This 25th anniversary edition of Steven Levy's classic book traces the exploits of the computer revolution's original hackers -- those brilliant and eccentric nerds from the late 1950s through the early '80s who took risks, bent the rules, and pushed the world in a radical new direction. With updated material from noteworthy hackers such as Bill Gates, Mark Zuckerberg, Richard Stallman, and Steve Wozniak, **Hackers** is a fascinating story that begins in early computer research labs and leads to the first home computers. Levy profiles the imaginative brainiacs who found clever and unorthodox solutions to computer engineering problems. They had a shared sense of values, known as "the hacker ethic," that still thrives today. **Hackers** captures a seminal period in recent history when underground activities blazed a trail for today's digital world, from MIT students finagling access to clunky computer-card machines to the DIY culture that spawned the Altair and the Apple II.

From a veteran culture writer and modern movie expert, a celebration and analysis of the movies of 1999—"a terrifically fun snapshot of American film culture on the brink of the Millennium...An absolute must for any movie-lover or pop-culture nut" (Gillian Flynn). In 1999, Hollywood as we know it exploded: *Fight Club*. *The Matrix*. *Office Space*. *Election*. *The Blair Witch Project*. *The Sixth Sense*. *Being John Malkovich*. *Star Wars: The Phantom Menace*. *American Beauty*. *The Virgin Suicides*. *Boys Don't Cry*. *The Best Man*. *Three Kings*. *Magnolia*. Those are just some of the landmark titles released in a dizzying movie year, one in which a group of daring filmmakers and performers pushed cinema to new limits—and took audiences along for the ride. Freed from the restraints of budget, technology, or even taste, they produced a slew of classics that took on every topic imaginable, from sex to violence to the end of the world. The result was a highly unruly, deeply influential set of films that would not only change filmmaking, but also give us our first glimpse of the coming twenty-first century. It was a watershed moment that also produced *The Sopranos*; *Apple's AirPort*; *Wi-Fi*; and Netflix's unlimited DVD rentals. "A spirited celebration of the year's movies" (Kirkus Reviews), *Best. Movie. Ever.* is the story of not just how these movies were made, but how they re-made our own vision of the world. It features more than 130 new and exclusive interviews with such directors and actors as Reese Witherspoon, Edward Norton, Steven Soderbergh, Sofia Coppola, David Fincher, Nia Long, Matthew Broderick, Taye Diggs, M. Night Shyamalan, David O. Russell, James Van Der Beek, Kirsten Dunst, the *Blair Witch* kids, the *Office Space* dudes, the guy who played *Jar-Jar Binks*, and dozens more. It's "the complete portrait of what it was like to spend a year inside a movie theater at the best possible moment in time" (Chuck Klosterman).

Path of Blood tells the gripping and horrifying true story of the underground army which Osama Bin Laden created in order to attack his number one target: his home country, Saudi Arabia. His aim was to conquer the land of the Two Holy Mosques, the land from where Islam had first originated, and, from there, to reestablish an Islamic Empire that could take on the West and win. Thomas Small and Jonathan Hacker use new insider evidence to expose the real story behind the Al Qaeda. Far from the image of single-minded holy warriors they present to the world, the bands of soldiers are riven by infighting and lack of discipline. Drawing on unprecedented access to Saudi government archives, interviews with top intelligence officials both in the Middle East and in the West, as well as with captured Al Qaeda militants, and access to exclusive captured video footage from Al Qaeda cells, *Path of Blood* tells the full story of the terrorist campaign and the desperate and determined attempt by Saudi Arabia's internal security services to put a stop to it.

From #1 New York Times bestselling author Meredith Wild... Days after their wedding, Blake and Erica Landon embark on their honeymoon—a journey that deepens their bond and promises to fade the scars of their past. Just when their troubles seem safely behind them, scandal surrounding would-be Governor Daniel Fitzgerald's election threatens their newfound peace. Back home, Blake finds himself at the center of the controversy, haunted by the transgressions of his hacker past that he has no wish to relive. With Blake's freedom at stake and their future in peril, Erica will stop at nothing to clear his name. But when Blake defies the authorities and refuses to seek the truth, their world gradually begins to crumble. Will he let his past win? Or can Erica convince him that their life together is worth fighting for—now more than ever... More in the Hacker series: **HARDWIRED** **HARDPRESSED** **HARDLINE** **HARD LIMIT**

Secrets of Reverse Engineering

Heroes of the Computer Revolution - 25th Anniversary Edition

A wealthy and powerful CEO takes on an innocent and inexperienced submissive and finds himself falling for her in the second novel of the erotic trilogy following *The Submissive*. Original.

Looks at how and where wine is made and how this affects its quality and pricing, including information on how the professionals taste and rate wine and a country-by-country tour of the latest vintages.

The sexy, elegant design of the Apple PowerBook combined with the Unix-like OS X operating system based on FreeBSD, have once again made OS X the Apple of every hacker's eye. In this unique and engaging book covering the brand new OS X 10.4 Tiger, the world's foremost "true hackers unleash the power of OS X for everything form cutting edge research and development to just plain old fun. OS X 10.4 Tiger is a major upgrade for Mac OS X for running Apple's Macintosh computers and laptops. This book is not a reference to every feature and menu item for OS X. Rather, it teaches hackers of all types from software developers to security professionals to hobbyists, how to use the most powerful (and often obscure) features of OS X for wireless networking, WarDriving, software development, penetration testing, scripting administrative tasks, and much more. * Analyst reports indicate that OS X sales will double in 2005. OS X Tiger is currently the #1 selling software product on Amazon and the 12-inch PowerBook is the #1 selling laptop * Only book on the market directly appealing to groundswell of hackers migrating to OS X * Each chapter written by hacker most commonly associated with that topic, such as Chris Hurley (Roamer) organizer of the World Wide War Drive

"A gifted and thoughtful writer, Metzl brings us to the frontiers of biology and technology, and reveals a world full of promise and peril." — Siddhartha Mukherjee MD, New York Times bestselling author of *The Emperor of All Maladies* and *The Gene*
Passionate, provocative, and highly illuminating, *Hacking Darwin* is the must read book about the future of our species for fans of *Homo Deus* and *The Gene*. After 3.8 billion years humankind is about to start evolving by new rules.. From leading geopolitical expert and technology futurist Jamie Metzl comes a groundbreaking exploration of the many ways genetic-engineering is shaking the core foundations of our lives — sex, war, love, and death. At the dawn of the genetics revolution, our DNA is becoming as readable, writable, and hackable as our information technology. But as humanity starts retooling our own genetic code, the choices we make today will be the difference between realizing breathtaking advances in human well-being and descending into a dangerous and potentially deadly genetic arms race. Enter the laboratories where scientists are turning science fiction into reality. Look towards a future where our deepest beliefs, morals, religions, and politics are challenged like never before and the very essence of what it means to be human is at play. When we can engineer our future children, massively extend our lifespans, build life from scratch, and recreate the plant and animal world, should we?

Hardwired

Odyssey

The Precipice

À nos démons intimes

Blood of Zeus: Book One

Best. Movie. Year. Ever.

ears ago, the last desperate hopes of Earth were crushed as corporate Orbital blocs ruling from on high devastated the planet's face. Today, the autocratic Orbitals indulge in decadent luxury far above the mudboys, dirtgirls, zonedancers, and buttonheads who live out violent lives of electronic distraction and dependence amid the flooded, ruined cities and teeming slums of a balkanized America. But there are heroes; those who would stand against the Orbital powers and keep freedom's cause alive. Two such heroes are the metal-eyed ex-fighter pilot turned panzer-driver Cowboy, and Sarah, the cybernetic assassin desperate to find a better life for her drug-addicted brother. Together, Cowboy and Sarah embark on a high-octane odyssey across the shattered face of the American west. From Walter Jon Williams comes Hardwired, the hard-hitting, seminal classic that feels as prescient today as when it was first published. Like a steel-guitar fueled Damnation Alley, as directed by Sam Peckinpah, Hardwired demonstrates how Williams's singular vision helped defined the cyberpunk genre. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

In this rip-roaring space opera, a ragtag band of explorers are out to make the biggest score in the galaxy. On this space jump, no one is who they seem . . . Captain Hammond Roystan is a simple cargo runner who has stumbled across the find of a lifetime: the Hassim, a disabled exploration ship--and its valuable record of unexplored worlds. His junior engineer, Josune Arriola, said her last assignment was in the uncharted rim. But she is decked out in high-level bioware that belies her humble backstory. A renowned body-modification artist, Nika Rik Terri has run afoul of clients who will not take no for an answer. She has to flee off-world, and she is dragging along a rookie modder, who seems all too experienced in weapons and war . . . Together this mismatched crew will end up on one ship, hurtling through the lawless reaches of deep space with Roystan at the helm. Trailed by nefarious company men, they will race to find the most famous lost world of all--and riches beyond their wildest dreams . . .

In Hardpressed, the highly anticipated second book of the Hacker Series that began with Hardwired, Blake and Erica face threats that put both their love and their lives on the line. Despite Blake Landon s controlling ways, the young and wealthy hacker finally won the trust of the woman he loves. Internet entrepreneur Erica Hathaway broke down the walls that kept her from opening her heart and her business to Blake. Ready to start this new chapter in her life, Erica is determined not to let anything come between them, even if that means giving Blake back some of the control he craves in and out of the bedroom. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever."

An ancient grudge. A forbidden love. The only thing worse than being a demon is being a Valari. As an undergraduate at Los Angeles's Alameda University, Kara Valari can sometimes succeed at forgetting she's both. Lost between the pages of the classics and tucked into the shadows of lecture halls, she can dodge the paparazzi's lenses as well as her family's publicized dramas—not to mention their private expectations. She has one more year to feed her true passions. Then she'll be expected to fulfill a much darker destiny. Cursed with inexplicable strength and godlike stature, literature professor Maximus Kane knows all about darkness. Every day he's reminded of the missteps of his childhood and the devastating consequences they've had on those dearest to him. To atone, Maximus spends his nights alone and his days submerged in the quiet life of academia. His existence has become a study in control, and he's become a master at it—until Kara Valari walks into his toughest course. Viscerally, Kara's everything he craves. Logically, she's everything he rejects. She's a starlet of privilege. She's also a student. And after one touch, he can't deny that she's awakened something in him that may never go dormant. Nothing about her makes sense, but everything about her feels right. Especially in the deepest strands of his DNA, which are still shadows of mystery to him—a mystery Kara seems determined to uncover. She's Hollywood royalty. She's forbidden fruit. And he's pretty sure she could be the answer to everything.

The Hacker Series #4

Her first love has returned, and he's brought a friend... After running away from home and the boy who broke her heart, Evan Kennedy has kick-started the perfect new life with her celebrity fiancé. So what if said fiancé prefers guys? She knew the deal when they got engaged. And with her ticket to The Ranch, an exclusive resort where any fantasy can be satisfied, she can find someone to fulfill her less-than-traditional desires on the side. She just never expected that man to be Jace Austin, her old heart-breaker—all grown up, hard-bodied, and holding out a collar. She knows it's a world-class bad idea—especially since Jace has brought along his buddy Andre, who's every bit as irresistible. But if they can stick to the no-strings rules, so can she. Too bad Jace has never been so good with rules. Evan is convinced "forever" is a word used only in greeting cards, but Jace and Andre have one last fantasy of hers left to fulfill. It's time to go big or go home. And neither man has ever been a fan of going home.

In **HARDPRESSED**, the highly anticipated second book of the Hacker Series that began with **Hardwired**, Blake and Erica face threats that put both their love and their lives on the line. Despite Blake Landon's controlling ways, the young and wealthy hacker finally won the trust of the woman he loves. Internet entrepreneur Erica Hathaway broke down the walls that kept her from opening her heart and her business to Blake. Ready to start this new chapter in her life, Erica is determined not to let anything come between them, even if that means giving Blake back some of the control he craves in and out of the bedroom. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever.

The second he spared Isabel's life, everything changed. The instinct to protect her charts the course, because every time he turns away from her, something turns him back. Doesn't change the fact that she doesn't belong in his world. Isabel's learning to hold her own, but nothing can prepare her for the life he is being called back into. Isabel can barely accept the dark deeds of Tristan's past-- a bloody history spilled out in a ledger she's more preoccupied with than he'd like. When an old associate sets a dangerous plan in motion, there's no turning back. -- adapted from jacket

Determined to overcome a difficult past, Erica Hathaway learns early on to make it on her own. Days after her college graduation, she finds herself face to face with a panel of investors who will make or break her fledgling start-up website. The only thing she didn't prepare for was going weak in the knees over an arrogant and gorgeous investor who seems determined to derail her plans. Billionaire and rumoured hacker Blake Landon has already made his fortune in software, and he's used to getting what he wants. Captivated by Erica's drive and unassuming beauty, he's wanted nothing more than to possess her since she stepped into his boardroom. Determined to win her over, he breaks down her defences and fights for her trust, even if it means sacrificing a level of control he's grown accustomed to. But when Blake uncovers a dark secret from Erica's past, he threatens not just her trust, but the life she's fought so hard to create. The perfect new addition for fans of *Fifty Shades of Grey* and *Sylvia Day's Bared To You* series.

An Introduction to Reverse Engineering

Tips & Tools for Electronic Cartography

Grant's Heat

Argues that the human mind is not a meticulously designed organ but rather a "kluge," a clumsy, cobbled-together contraption, focusing on how the mind falls short with memory, belief, decision-making, language, and emotion.

Prince Tenyou is not what Rangetsu expected, and the political currents in the palace run deep and strange. Does Rangetsu have any chance of finding justice for her brother, or will she become just another Ajin casualty in the game of kings? -- VIZ Media

It's true that some people spend years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks –shortcuts that make learning simple – that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners – getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more. A stolen destiny. An impossible quest. Kara Valari has broken one of the underworld's highest laws and is serving the ultimate sentence. But nothing—not even the impossible quest of breaching the boundaries of hell and facing off with Hades himself—will keep Maximus Kane

from rescuing her. The journey will demand all of Maximus’s courage...and help from an unlikely guide. Driven by love, he sets off into a dark realm he only knows from the tattered pages of Dante’s Comedy. In hell’s bleak world, every part of Kara’s soul is subjected to Hades’s morbid fascination and merciless assault. Giving in to his demands means sharing the intimate details of why she dared to disobey him—a love for Maximus that, even now, burns on in her heart. Just when Kara resolves herself to an eternity of her nightmare, she discovers a glimmer of hope...a way to glimpse her beloved. Could her visions of Maximus unite them once more, or are they just another twisted punishment for her in a kingdom designed for agony? In those fleeting moments of light and passion, Kara rekindles her fight to survive. Darkness may still separate her from Maximus, but they’re connected by fate. But can their love survive this storm?

Reversing

On My Knees

How 1999 Blew Up the Big Screen

Devour all five books in the addictive #1 New York Times bestselling series that's sold over a million copies worldwide, perfect "for those who love Fifty Shades." (Heroes and Heartbreakers) Hardwired Erica Hathaway has had to work hard her whole life—first when she lost her parents and then to prove herself in the male-dominated tech world. The only thing she didn't prepare for was billionaire and rumored hacker Blake Landon. He's sexy, intimidating, and determined to win her over. But when Blake uncovers a dark secret from Erica's past, even he may not be able to protect her. Hardpressed Erica has broken down the walls that kept her from opening her heart and her business to Blake, and she's determined not to let anything come between them. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever. Hardline Erica has given Blake her trust and her love, and he has no intention of letting her out of his life again. But when he tests the boundaries of her commitment, she is forced to face the dark desires he's kept hidden. As their bonds grow stronger, their enemies are closing in. With Erica's company in danger, Blake must protect her from those who would ruin her only to get to him. Hard Limit When life has torn them apart, Blake and Erica have always found their way back to each other, deeper in love and stronger than ever. But on the verge of making the ultimate commitment, Erica uncovers an unsettling chapter of Blake's history. As danger lurks and dark secrets come to light, will the past destroy their promise of forever? Hard Love Just when Blake and Erica think their troubles are safely behind them, Blake finds himself at the center of a massive scandal, haunted by the transgressions of his hacker past. But when he defies the authorities and refuses to seek the truth, will he let his past win? Or can Erica convince him that their life together is worth fighting for—now more than ever?

Beginning with a basic primer on reverse engineering—including computer internals, operating systems, and assembly language—and then discussing the various applications of reverse engineering, this book provides readers with practical, in-depth techniques for software reverse engineering. The book is broken into two parts, the first deals with security-related reverse engineering and the second explores the more practical aspects of reverse engineering. In addition, the author explains how to reverse engineer a third-party software library to improve interfacing and how to reverse engineer a competitor's software to build a better product. * The first popular book to show how software reverse engineering can help defend against security threats, speed up development, and unlock the secrets of competitive products * Helps developers plug security holes by demonstrating how hackers exploit reverse engineering techniques to crack copy-protection schemes and identify software targets for viruses and other malware * Offers a primer on advanced reverse-engineering, delving into "disassembly"—code-level reverse engineering—and explaining how to decipher assembly language

In today's litigious business world, cyber-related matters could land you in court. As a computer security professional, you are protecting your data, but are you protecting your company? While you know industry standards and regulations, you may not be a legal expert. Fortunately, in a few hours of reading, rather than months of classroom study, Tari Schreider's Cybersecurity Law, Standards and Regulations (2nd Edition), lets you integrate legal issues into your security program. Tari Schreider, a board-certified information security practitioner with a criminal justice administration background, has written a much-needed book that bridges the gap between cybersecurity programs and cybersecurity law. He says, "My nearly 40 years in the fields of cybersecurity, risk management, and disaster recovery have taught me some immutable truths. One of these truths is that failure to consider the law when developing a cybersecurity program results in a protective façade or false sense of security." In a friendly style, offering real-world business examples from his own experience supported by a wealth of court cases, Schreider covers the range of practical information you will need as you explore – and prepare to apply – cybersecurity law. His practical, easy-to-understand explanations help you to: Understand your legal duty to act reasonably and responsibly to protect assets and information. Identify which cybersecurity laws have the potential to impact your cybersecurity program. Upgrade cybersecurity policies to comply with state, federal, and regulatory statutes. Communicate effectively about cybersecurity law with corporate legal department and counsel. Understand the implications of emerging legislation for your cybersecurity program. Know how to avoid losing a cybersecurity court case on procedure – and develop strategies to handle a dispute out of court. Develop an international view of cybersecurity and data privacy – and international legal frameworks. Schreider takes you beyond security standards and regulatory controls to ensure that your current or future cybersecurity program complies with all laws and legal jurisdictions. Hundreds of citations and references allow you to dig deeper as you explore specific topics relevant to your organization or your studies. This book needs to be required reading before your next discussion with your corporate legal department. This new edition responds to the rapid changes in the cybersecurity industry, threat landscape and providers. It addresses the increasing risk of zero-day attacks, growth of state-sponsored adversaries and consolidation of cybersecurity products and services in addition to the substantial updates of standards, source links and cybersecurity products.

Ever the obedient daughter, Daisy Patel always follows the rules, but the one thing she can't give her family is the marriage they expect. With few options left to her, and desperate to escape a parade of unwanted suitors, she asks her childhood crush to be her decoy fiancé. When Liam learns that his inheritance is contingent on being married, he realises Daisy has the perfect solution to his problem. Sparks fly when Daisy and Liam go on a series of dates to legitimise their fake relationship. Too late, they realise that very little is convenient about their arrangement. History and chemistry aren't about to follow the rules of this engagement.

Monster hunting isn't for the faint of heart -- the first in a brand-new middle-grade series by NYT bestselling author, Kelley Armstrong. Twelve-year-old Rowan is destined to be Queen; her twin brother, Rhydd, to be Royal Monster Hunter. Rowan would give anything to switch places, but the oldest child is always next in line, even if she is only older by two minutes. She resigns herself to admiring her monster hunting aunt's glorious sword and joining her queen mother for boring diplomatic teas. But tragedy shatters the longstanding rule, and Rowan finds herself hunting the most dangerous monster of all: a gryphon. Accompanied by a feisty baby jackalope and a giant wolf that barely tolerates her, Rowan sets off on a journey that will see her join other unlikely allies: a boy with monster-hunting ambitions of his own, and a girl hiding dangerous motives. It will take all of Rowan's skills, both physical and diplomatic, to keep this adventure on track. The future of her kingdom depends on it.

Ignazio Vitale n'est pas un homme bon. Je le soupçonne dès notre première rencontre, je sens le danger qui entoure cet homme. Il a une façon d'exiger l'attention, de prendre le contrôle, de savoir ce que je pense avant même que je le sache. C'est à la fois inquiétant et attirant. C'est sombre et redoutable. C'est tout ce que j'ai toujours voulu, et pourtant la dernière chose dont j'ai besoin. Une obsession. Il ne lui faut pas longtemps pour m'attirer dans sa toile, me charmer jusque dans son lit et me prendre au piège de sa vie, une vie dont j'ignore tout avant qu'il soit trop tard. Il a des secrets, des secrets que je ne peux percer et qui m'empêchent de partir, même si je le supplie de me laisser m'en aller. Je l'aperçois parfois dans ses yeux, cette noirceur terrifiante et fascinante à la fois. C'est un monstre dans un emballage somptueux, et ce que je découvre en le démasquant change absolument tout. J'ai envie de le haïr. Parfois même, j'y parviens. Et pourtant, ça ne m'empêche pas de l'aimer.

Software mogul Blake Landon has met his match in headstrong Erica Hathaway. While his controlling nature and her independent spirit continue to battle, Blake has no intention of letting her out of his life again. Erica has given Blake her trust and her love, determined that they will conquer any challenges together. But when he demands more and tests the boundaries of her commitment, she is forced to face the dark desires he's kept hidden. As their bonds grow tighter, their enemies close in. With Erica's start-up in danger, Blake's frustration grows as he tries to protect her from those who would ruin her only to get to him. Can their relationship survive when Blake's enemies cross the line and threaten more than her livelihood?

This urgent and eye-opening book makes the case that protecting humanity's future is the central challenge of our time. If all goes well, human history is just beginning. Our species could survive for billions of years - enough time to end disease, poverty, and injustice, and to flourish in ways unimaginable today. But this vast future is at risk. With the advent of nuclear weapons, humanity entered a new age, where we face existential catastrophes - those from which we could never come back. Since then, these dangers have only multiplied, from climate change to engineered pathogens and artificial intelligence. If we do not act fast to reach a place of safety, it will soon be too late. Drawing on over a decade of research, The Precipice explores the cutting-edge science behind the risks we face. It puts them in the context of the greater story of humanity: showing how ending these risks is among the most pressing moral issues of our time. And it points the way forward, to the actions and strategies that can safeguard humanity. An Oxford philosopher committed to putting ideas into action, Toby Ord has advised the US National Intelligence Council, the UK Prime Minister's Office, and the World Bank on the biggest questions facing humanity. In The Precipice, he offers a startling reassessment of human history, the future we are failing to protect, and the steps we must take to ensure that our generation is not the last. "A book that seems made for the present moment." —New Yorker

Is ignoring the heat a recipe for disaster? Grant Twombley has it all—a successful career, a contacts list full of gorgeous and willing bedmates, and the ear of Los Angeles's most prominent captain of industry. But being Sebastian Shark's right-hand man isn't without its challenges. Messy ones. Unknown forces still work to take down Shark Enterprises, and Grant's full focus is needed to protect their empire. But he's sitting on a scandalous secret. A truth he can't even share with his best friend. Until disaster strikes. Rio Gibson carries dark secrets of her own. She hides them well...until her world is shattered. She holds Shark responsible, but the only person she shares her suspicions with is also the man closest to him—the giving, gorgeous man who makes her feel so many new and surprising things. Dangerous things. But Rio's used to handling the heat in the kitchen, and she can handle this challenge too. Getting out simply isn't an option—no matter how bad it'll burn in the end.

Editorial Reviews "The third book in Wild's Bridge series is a fantastic read, certain to woo new readers and satiate her returning fans. Over the Edge checks off all the boxes: it's emotional, intense and extremely sexy. Wild taps into an often thought of as taboo fantasy — one woman sharing two men — and makes it a possibility, allowing the reader to live vicariously through the main character. While this is part of the Bridge series, it's also effective as a standalone novel." -RT Book Reviews "Sinful, emotional, explosive, profound...this is all the best we know and love from Meredith Wild, cranked to an epic Level 11. You will not be able to put it down." -USA Today Bestselling Author Angel Payne "Scorching hot ménage? Check. A romance that will pull at your heartstrings? Check. A story that will stay with you long after you've finished it? Check. What more can I say? I simply loved it." -NYT Bestselling Author Sawyer Bennett "Just when you thought Meredith Wild had delivered the hottest, steamiest scenes in the romance world, she turns it up. Over the Edge will leave you wondering how you ever lived without men like Ian and Will in your bed. At the same time. Man. I wished I was Olivia." -USA Today Bestselling Author CD Reiss "An intriguing, sexy story about unexpected love and balancing others' expectations against your heart" -NYT Bestselling Author Shayla Black "Emotionally charged. Sexy. Forbidden. You won't be able to put Over the Edge down." -Heidi McLaughlin, NYT Bestselling Author "Intensely sexy and deeply romantic, Over The Edge is more than just a scorching hot menage story -- it's about a captivating love that you can't help but root for." -Lauren Blakely, NYT Bestselling Author "Meredith Wild delivers yet again with another sizzling romance where sharing takes on a whole new meaning..." -Sarah Robinson, bestselling author of the Kavanagh Legends series "Meredith Wild creates the perfect ménage for her fans: scorching sex, unexpected love, and a happily ever after sure to please romance fans long after they've closed the cover on Ian, Olivia, and Will." -Madhuri Pavamani "Meredith Wild has totally turned up the heat... An all out 5-star read full of hotness, sex appeal, emotional gut-wrenching feels, and moral dilemmas throughout!" -Two Girls Who Love Books "#1 New York Times bestselling author Meredith Wild, turns up the heat to scorching with the third book in the Bridge series. Sinfully sexy with a ménage romance, everyone will love Liv, Will and Ian's story." -Vilma's Book Blog "The heat is on! Meredith Wild really turns it up with this sizzling, beautifully written menage story. Two sexy, captivating men and one strong, determined heroine. I loved Meredith's Hacker Series and this is just as good and at times even hotter. All I can say is WOW!" -Nelle L'Amour, NYT Bestselling Author of the THAT MAN TRILOGY. "Meredith Wild ends the series with such a gem." -Heroes & Heartbreakers "One of the hottest books I've ever read." -Book Boyfriend Addict "Erotic and unexpectedly tender..." -Kirkus Reviews "I was hooked from the start! Over The Edge was sexy as hell with a love story I never saw coming." -Nina Levine, USA Today Bestselling Author "My fingers are still virtually scorched from scrolling the pages of this smoking hot book." -Smut Book Junkie Book Reviews Synopsis Olivia Bridge has always been a good girl—good grades, good friends, and a good job that her wealthy parents handed her. Desperate to carve out a life that is truly hers, Liv walks away from it all and takes on the challenge of helping her brothers open a chain of fitness centers in New York City. Just as she's beginning to find her footing in a new place, she's caught between two men who couldn't be more determined to turn all her goodness inside out. Will Donovan has the capital to make the Bridge brothers' entrepreneurial dreams a reality. Taking their uptight sister to bed seems a reasonable perk for the risk. Liv is the smartest, sexiest prude Will's ever met, and he can't wait to break her down. Life is too short for Ian Savo to play by anyone's rules. Sharing women with his friend isn't anything new, so when Will introduces him to Liv, he can't wait to get a taste. But falling for the same girl, or falling at all, was never in the plans...

Since the dawn of creation, man has designed maps to help identify the space that we occupy. From Lewis and Clark's pencil-sketched maps of mountain trails to Jacques Cousteau's sophisticated charts of the ocean floor, creating maps of the utmost precision has been a constant pursuit. So why should things change now?Well, they shouldn't. The reality is that map creation, or "cartography," has only improved in its ease-of-use over time. In fact, with the recent explosion of inexpensive computing and the growing availability of public mapping data, mapmaking today extends all the way to the ordinary PC user.Mapping Hacks, the latest page-turner from O'Reilly Press, tackles this notion head on. It's a collection of one hundred simple—and mostly free--techniques available to developers and power users who want draw digital maps or otherwise visualize geographic data. Authors Schuyler Erle, Rich Gibson, and Jo Walsh do more than just illuminate the basic concepts of location and cartography, they walk you through the process one step at a time.Mapping Hacks shows you where to find the best sources of geographic data, and then how to integrate that data into your own map. But that's just an appetizer. This comprehensive resource also shows you how to interpret and manipulate unwieldy cartography data, as well as how to incorporate personal photo galleries into your maps. It even provides practical uses for GPS (Global Positioning System) devices--those touch-of-a-button street maps integrated into cars and mobile phones. Just imagine: If Captain Kidd had this technology, we'd all know where to find his buried treasure!With all of these industrial-strength tips and tools, Mapping Hacks effectively takes the sting out of the digital mapmaking and navigational process. Now you can create your own maps for business, pleasure, or entertainment--without ever having to sharpen a single pencil.

Provides step-by-step instructions on basic hacking techniques and reverse engineering skills along with information on Xbox security, hardware, and software.

Hard Limit

This heart-breaking story—perfect for fans of If I Stay and Five Feet Apart—follows a girl swept up in the magic of her first love, until it all comes to a tragic end that might lead her into the afterlife itself. Soon to be a motion picture on Paramount+ starring Joey King! After bouncing around in foster homes for most of her childhood, seventeen-year-old Tessa Jacobs doesn't believe she deserves love—not from her adoptive parents, and certainly not from anyone at school. But everything changes when she has a chance encounter with Skylar, a senior from a neighboring town who's a true romantic. Their budding relationship quickly leads to the kind of passion you only see in the movies. As her heart begins to open, Tessa starts to believe she might be deserving of love after all. When tragedy strikes, Tessa wakes up alone in a hospital room with no memory of how she got there. And then she learns the horrifying news: Skylar is dead. As Tessa searches for answers, Skylar's spirit reaches out to her from the other side. Desperate to see him one last time, Tessa must race against the clock to uncover the shocking truth of their relationship—a truth that might just lead to the afterlife itself. "This story and Marc had such a big impact on me. Somehow my heart breaks and swells all at the same time while reading this. A powerful telling of

love and loss." -Joey King, star and producer of The In Between

"A seamlessly woven story of renewed love, faith restored, and redefining oneself without a past for perspective." ~Angel Payne, USA Today Bestselling Author No one else can stop them. I've never loved Tristan more. I've never trusted him less. Is it murder in his eyes or just jealousy when he insists we'll find answers in Boston, headquarters of one of our greatest enemies and home to the man I left back in Rio? I haven't forgotten Kolt's betrayal nor the blood that's already been spilled between our families. Inviting him back into my life with the promise of settling our unfinished business is a dangerous gamble that could end in more bloodshed. But as his family's twisted plan starts to unfold, nothing can prepare me for the horror of what will happen if I do nothing. More people will die, and every death will serve a dark purpose. Tristan and I may be an army of two, but one thing is certain—if we can't save them, no one will.
