The war had been going on for nearly a year and the Sirian Empire had a huge advantage in personnel and equipment. Earth needed an edge. Which was where James Mowry came in. If a small insect buzzing around in a car could so distract the driver as to cause that vehicle to crash, think what havoc one properly trained operative could wreak on an unsuspecting enemy. Intensively trained, his appearance surgically altered, James Mowry is landed on Jaimec, the ninety-fourth planet of the Sirian Empire. His mission is simple: sap morale, cause mayhem, tie up resources, wage a one-man war on a planet of eighty million. In short, be a wasp. First published in 1957, WASP is generally regarded as Eric Frank Russell's best novel, a witty and exciting account of a covert war in the heart of enemy territory.

Sixty-five million years ago, a disastrous cataclysm eliminated three quarters of all life on Earth. Overnight, the age of dinosaurs ended. The age of mammals had begun. But what if history had happened differently? What if the reptiles had survived to evolve intelligent life? In West of Eden, bestselling author Harry Harrison has created a rich, dramatic saga of a world where the descendents of the dinosaurs struggled with a clan of humans in a battle for survival. Here is the story of Kerrick, a young hunter who grows to manhood among the dinosaurs, escaping at last to rejoin his own kind. His knowledge of their strange customs makes him the humans' leader...and the dinosaurs' greatest enemy. Rivalling Frank Herbert's Dune in the majesty of its scope and conception, West of Eden is a monumental

Slippery Jim DiGriz. The galaxy's greatest thief and con artist: the Stainless Steel Rat. For novel upon novel, Jim DiGriz has outfoxed the forces of conventionality, cutting a stylish swathe through dozens of star systems. Now, Slippery Jim and his beautiful wife Angelina find themselves becalmed on a painfully boring backwater planet, with nothing to do but practice their skills at computer crime. Then they meet a billionaire who claims to be 40,000 years old--who offers them millions of credits to investigate a string of unsolved interstellar bank robberies. Robberies which, it turns out, always happen when the circus is nearby. . . . In a sense, The Stainless Steel Rat has always been a high-wire performer. Now, as he infiltrates the world of the galactic big top, he's taking the role to extremes . . . and drawing the attention of more dangerous ringmasters and strongmen than he ever expected. Will this be his final show? Has Slippery Jim finally leapt for his last trapeze? Naaah. The Remarkable True Story of the Battersea Poltergeist

First published in the year 1898, the present book 'Rupert of Hentzau' was written by the celebrated English novelist and playwright - Anthony Hope. This novel is a sequel to the author's one of the much appreciated novels 'The Prisoner of Zenda'.

The present book 'The Misplaced Battleship' is a science fiction work by American author Harry Harrison. It was first published in the year 1960.

It began with a key. One afternoon in 1956, in the home of the Hitchings family in Battersea, south London, a small silver key appeared on Shirley Hitchings' bed. This seemingly insignificant event heralded the beginning of one of the most terrifying, incredible and mysterious hauntings in British history. The spirit, who quickly became known as 'Donald', began to communicate, initially via tapping sounds, but over time - and with the encouragement of psychical researcher Harold Chibbett, whose case-files appear here - by learning to write. Soon, the spirit had begun to make simply incredible claims about his identity, insisting that he was one of the most famous figures in world history - but what was the truth? Here, for the first time, is the full story, told by the

woman right at the heart of it all – Shirley herself.

Ecological Form brings together leading voices in nineteenth-century ecocriticism to suture the lingering divide between postcolonial and ecocritical approaches. Together, these essays show how Victorian thinkers used aesthetic form to engage problems of system, interconnection, and dispossession that remain our own. The authors reconsider Victorian literary structures in light of environmental catastrophe; coordinate “natural” questions with sociopolitical ones; and underscore the category of form as a means for generating environmental—and therefore political—knowledge. Moving from the elegy and the industrial novel to the utopian romance, the scientific treatise, and beyond, Ecological Form demonstrates how nineteenth-century thinkers conceptualized the circuits of extraction and violence linking Britain to its global network. Yet the book’s most pressing argument is that this past thought can be a resource for reimagining the present.

Jim believes he has pulled off a successful bank job, but is out-conned into working for the Special Corps, the elite law-enforcement and spy agency led by the former greatest crook in the Galaxy, Harold P. Inskipp, and composed mostly of ex-criminals like him. He believes he has escaped from the Corps, and meets his love interest, Angelina - also a criminal genius, but lacking in Jim's relatively high moral codes and strictures against killing. She is building an illegal space battleship on an otherwise peaceful planet. Angelina was born unattractive and committed crimes to pay for her transformation into a beautiful woman; her psychological traumas are treated when Jim captures her, but she retains her allure and her criminal tendencies and joins in the Special Corps as Jim's partner.

From the bestselling co-author of the People novels comes a riveting science fiction adventure on a planet with danger around every corner Donovan is a

world of remarkable wealth, a habitable paradise of a planet. It sounds like a dream come true. But Donovan's wealth comes at a price. When the ship Turalon arrives in orbit, Supervisor Kalico Aguila discovers a failing colony, its government overthrown and the few remaining colonists now gone wild. Donovan offers the chance of a lifetime, one that could leave her the most powerful woman in the solar system. Or dead. Planetside, Talina Perez is one of three rulers of the Port Authority colony—the only law left in the one remaining town on Donovan. With the Corporate ship demanding answers about the things she's done in the name of survival, Perez could lose everything, including her life. For Dan Wirth, Donovan is a last chance. A psychopath with a death sentence looming over his head, he can't wait to set foot on Port Authority. He will make one desperate play to grab a piece of the action—no matter who he has to corrupt, murder, or destroy. Captain Max Taggart has been The Corporation's "go-to" guy when it comes to brutal enforcement. As the situation in Port Authority deteriorates, he'll be faced with tough choices to control the wild Donovanians. Only Talina Perez stands in his way. Just as matters spiral out of control, a ghost ship, the Freeland, appears in orbit. Missing for two years, she arrives with a crew dead of old age, and reeks of a bizarre death-cult ritual that deters any ship from attempting a return journey. And in the meantime, a brutal killer is stalking all of them, for Donovan plays its own complex and deadly game. The secrets of which are hidden in Talina Perez's very blood.
