The W201 was a compact saloon designed to address both concerns about fuel economy generated by the first oil crisis in the 1970s and competition for sales from the BMW 3 Series. Many doubted that Mercedes could deliver a compact car whilst retaining their

traditional qualities. But
the W201 soon won

them over. For here was

a car that was a real

Mercedes in the

tradition of the time - it

was just smaller. With

photographs, the book

features the reasons

behind the need to build

a new compact saloon in

the 1980s. It covers the

styling, engineering and

In the very
beginning, the
automotive
industry was
dominated by
open-top
vehicles whose
