Working for the Paranormal Protection Agency has never been boring, but shadow-dragon Duke didn't expect to meet his mate in the line of duty. He certainly didn't expect a warrior every inch his match, or for her to slap him across the ass with her tail and take off across the city.

With Baron on a very personal protection detail, Duke has to fly solo on the pair's investigation into the warlock who nearly killed Baron's mate. Just one problem, his mate is working with the warlock. So, dead or alive, he has to bring her in... She found the one thing she didn't want. Her mate. Now she needs to get rid of him before he ruins her mission... Sleeping for centuries has its drawbacks, Chase knew that going in. What she didn't expect was to wake with a Warlock's spelled collar around her neck and to find her charge, the Queen's daughter, in a cage. Vowing to free them both will take skill and strength and she doesn't need the distraction of a hot as hell male dragon trying to make his claim on her. Even though her heart aches to complete their joining, she can't. Not yet. The mission, or her heart. Can she have both? Or will she need one to complete the other? Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

Noir...if he could touch her only once, he would sacrifice his life. Dullness spread in his chest. Of course, Noir's protection had priority over his own cravings. Like always, he had no other choice but to drool over her from a distance. How robust was a gargoyle heart, really?

She does not know that she has a protector who watches her day and night, while she tries to find the killers of her parents. To save Noir's life, Vincent has to give up his cover. Although they feel attracted to each other, both know, they never can fall in love and feel passion. The consequences would be devastating because everything he touches in his human form turns into stone. But fate has other plans...
