Illus. in full color. Chock-full of information about the most sensitive, intelligent, and friendly of large aquatic creatures, Dolphins! should fare swimmingly with kids who read about whales and sharks. Helen Keller was not always deaf and blind. She was born a healthy baby girl, but after a serious infection as a toddler, she lost both her hearing and sight. Doctors told her parents that she would never make anything of herself in a hearing and seeing world. Determined, her parents ignored the doctors and enrolled their daughter in Perkins School for the Blind, where she met her life-long companion Anne Sullivan. Ms. Sullivan is largely credited with teaching Helen language by spelling the names of objects onto her hand. Once she grasped the concept, Helen quickly learned to communicate through spelling and sign language. She began taking classes at Radcliffe College, where she became the first deaf-blind person to earn a Bachelor of Arts degree. Encouraged, she began advocating for deaf and blind people across the globe. She gave many speeches and wrote twelve books and numerous articles. When she passed away, she was the most recognized and respected deaf-blind person in the world. All About Helen Keller introduces middle-grade readers to one of the greatest inspirational personalities of our time. Helen Keller's life is described in detail so that fourth to eighth grade readers can get to know her through her life and accomplishments. With two timelines, a glossary, a bibliography, and an index, All About Helen Keller is sure to win over even the most reluctant of readers. Let's take a jump into history and learn all about Helen Keller.

Like so many people during the Great Depression of the 1930s, Marshall Loman's dad has lost his job. There's little money, but there are plenty of beans—in fact, Ma cooks them for supper every single night! Beans start looking better when Marshall sees the contest posted in the furniture store window. HOW MANY BEANS ARE IN THE JAR? WIN THIS BRAND NEW SEWING MACHINE! Ma needs that sewing machine—but how can Marshall possibly guess right? Then Marshall remembers something he learned in arithmetic class. Becky Birtha's engaging story, based on her grandmother's memories of Depression years in the African American community, is illustrated by Nicole Tadgell's expressive paintings.

A Life

Helen Keller lost her ability to see and hear before she turned two years old. But in her lifetime, she learned to ride horseback and dance the foxtrot. She graduated from Radcliffe. She became a world famous speaker and author. She befriended Mark Twain, Charlie Chaplin, and Alexander Graham Bell. And above all, she revolutionized public perception and treatment of the blind and the deaf. The catalyst for this remarkable life's journey was Annie Sullivan, a young woman who was herself visually impaired. The Story of My Life and the World I Live in

The Wizard of Menlo Park

Tells the story of Annie Sullivan, the woman who taught Helen Keller, a blind and deaf girl, to read and communicate.

Make believe you are Thumbelina ... find your way to a happy ending.

Helen Keller had absolutely no hearing or eyesight from the age of two, but became one of the most inspiring and well known people to have ever lived. For a number of years she functioned, in her words, simply as "an unconscious clod of earth." Then quite suddenly, she experienced the impact of "another mind" within her own. Despite not knowing where it came from or how it got there, she awoke to a new awareness of being able to talk and listen with her hands. She learned to read and write, wrote at least ten books, and attended college. Her religion developed from living deeply within her spiritual self, cut off from normal sensation, and spending her life on a spiritual plane. She incorporated her own experiences with the teachings of Emanuel Swedenborg, a mystic born in 1688, and the Swedenborgian Church. Swedenborg, like Keller, had experienced other realms of spirit and transmitted deeper teachings that Helen saw with great clarity. She wrote this book after receiving many requests for her to describe her religious beliefs.

It's a bright and beautiful spring day, and Pearl, a pig, is dawdling on her way home from school. Most unexpectedly, she strikes up an acquaintance with a small bone. "You talk?" says Pearl. "In any language," says the bone. "And I can imitate any sound there is." (Its former owner was a witch.) Pearl and the bone immediately take a liking to each other, and before you know it she is on her way home with the bone in her purse, left open so they can continue their conversation. Won't her parents be surprised when she introduces her talking bone! But before that happy moment comes, the resourceful bone must deal with a band of highway robbers in Halloween masks and, worse, a fox who decides that Pearl will be his main course at dinner that night. And deal it does, with gambits droll and thrilling. William Steig, incomparable master of the contemporary picture book, has never been better than in *The Amazing Bone*. *The Amazing Bone* is a 1976 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year, a 1977 Caldecott Honor Book, and a 1977 Boston Globe - Horn Book Awards Honor Book for Picture Books.

You might be forgiven for thinking that this book is exclusively for sports fans. It is not. James Thomas Farrell 's Studs Lonigan books are considered among the best of the 20th century. Like ESPN 's 30 for 30 documentary series, Farrell 's essays on baseball make great reading for anyone who loves great writing. Farrell steps away from fiction in this out-of-print gem. Ruth, Gehrig, Cobb and other baseball greats are here. Farrell saw them all and met many of them as a writer . Baseball is a game of statistics and poetry. Farrell purely and eloquently wrote about his love of the game. This book is an important piece of baseball history and an American sports writing classic. It's available for the first time as an affordable, well-formatted book for e-readers and smart phones. Be sure to LOOK INSIDE or download a sample.
