

Hello Baby Animals A High Contrast Book

Hello, sun. Good to see you, puppy. What's going on, butterfly? Hello, My World... Making connections between images on a page and the real world is an important building block for your baby's communication skills—and this charming introduction to simple objects found around a baby's world, paired with friendly text and bold, basic patterns, provides an important high-contrast experience for young developing eyes. Using simple greetings like “Bonjour, flowers,” “What's up, clouds?”, and “Hola, baby” alongside lovely black-and-white art by Jannie Ho (illustrator of TummyTime: Animal Parade), Hello, My World is the perfect board book for babies just beginning to look around and learn about their world. Also available: Hello, Baby Animals; Hello, Ocean Friends; and Hello, Garden Bugs.

A charming introduction to ten beautiful little bugs, featuring high contrast black-and-white illustrations. A glittering burst of colored foil brings a vivid splash of color to every page. With first words to join in with, this stunning book will captivate sparkly little babies everywhere! Babies and toddlers will love to meet the adorable bugs in this engaging book! Little hands can turn the sturdy board pages to meet a host of cute characters, including a ladybug, a

Hello Baby!

What Can Live in a Grassland?

Hello, Baby Beluga

Space: Board Book

Making connections between images on a page and the real world is an important building block for your baby's communication skills--and this charming introduction to ten baby animals, paired with a friendly text, and bold basic patterns, provide a great high-contrast experience for young developing eyes. The perfect follow up to Hello, Ocean Friends.

Take a trip to the Arctic with Baby Beluga. Pre-readers and beginning readers meet the adorable and playful baby beluga whale. The questions that kids will have for the baby beluga are answered simply and clearly by the baby whale himself. Young learners discover that baby belugas stay close to their mothers and live in large pods, they eat shrimp and fish and other sea creatures, and they can make many sounds like chirps, moos, whistles, and more. HELLO, BABY BELUGA is perfect for reading aloud at story hour and bed time. Patricia Wynne illustrates baby beluga's icy blue north Atlantic home and lets children get up close to these fascinating and friendly creatures.

A sports-themed, high-contrast board book promotes early eye development while helping babies make connections between images on a page and the real world, depicting two-color images of sports figures and balls on bold, single-color backgrounds.

Hello Baby from Priddy Books is a range of very first, high-contrast black and white books for babies from birth,

designed with clearly-defined patterns to provide optimum visual stimulation for the first weeks and months of baby's life. This chunky board book has a brightly colored, combined shaker teether with soft, rounded corners for little ones to chew and a fun rattle for them to shake.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and

national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and

forensic science educators.

Uses high contrast illustrations to introduce young readers to different modes of transportation, from balloons and trains to submarines and rockets.

Hello, My World

Dive in with these fascinating creatures of the sea! Can animals be identified by just one of their distinctive parts? Readers get the chance to find out in this guessing-game picture book. First, they are shown a body part and asked which ocean animal it belongs to. Then, the following spread reveals the whole animal, along with a description of its characteristics — particularly its one-of-a-kind body part — and habitat. From fins to flippers and tentacles to tails, there's no better introduction to the awesomeness of ocean animals! With bold illustrations and playful fun for all, this book offers a unique look at ocean animals, one body part at a time.

Hello Baby from Priddy Books is a range of very first, high-contrast black and white books for babies from birth, designed with clearly-defined patterns to provide optimum visual stimulation for the first weeks and months of baby's life. This uniquely shaped, lightweight book has smooth, curved pages for little fingers to explore and a grip handle to hold.

Rhyming text introduces young readers to the five classes of vertebrates, describing the characteristics of reptiles, fish, mammals, birds, and amphibians.

Shares illustrations of familiar foods, toys, and vehicles with readers. After meeting a bevy of baby animals— including a clever monkey, a sleepy leopard, and a dusty lion cub—the baby in this story discovers the most precious creature of all . . . itself, of course! With an exuberant rhyming text by bestselling author Mem Fox and adorable

cut-paper illustrations by Caldecott Honor recipient Steve Jenkins, this book is an irresistible celebration of the joyful connection between parent and child.
