Los Angeles has always been a den of danger and bliss, but even darker tidings brew in the City of Angels. Cults, magic, and the supernatural are leaking into the worlds of glamour and dives of the gutter. To the spectators walking down Hollywood Blvd, it’s just more proof that La La Land is over the cuckoo’s nest. But to former child magician and Korean veteran turned newly-licensed private investigator James Brimstone, it means business is picking up. After attending his mentor’s funeral, Brimstone signs his first client: Nico, a beautiful actress with a face full of scars and an unbelievable story of sex, demons, and violence on the set of a pornographic film in the San Fernando Valley. The cops chalk it up to a bad trip from a lost soul, but Brimstone knows better. He takes the case, but the investigation goes haywire as he encounters Hell’s Angels, a lost book of Japanese erotica, and a new enemy whose powers may fill the streets of L.A. with blood. He’ll have to use his Carney wits, magic tricks, and a whole lotta charm to make it out of a world that is becoming . . . Hex-Rated.

Everything’s bigger in Texas—including romance, magic, and danger! Katie Chandler has fled fast-paced Manhattan and returned home to a simpler life, working at her family’s feed-and-seed store in Cobb, Texas. In a painfully selfless gesture, Katie had left the sexy wizard Owen Palmer to battle his demons in the magical realm—after all, Katie just seemed to attract evil, which only made Owen’s job a lot harder. But now it seems that trouble has followed her home: Despite the fact that Merlin, Katie’s old boss at Magic, Spells, and Illusions, Inc., has assured her that Cobb is free of enchantments, (magically speaking), Katie begins to notice curious phenomena. Cobb is being plagued by a series of inexplicable petty crimes and other devilish mischief, and after her experiences in Manhattan, Katie knows “unauthorized magic” when she sees it. As this new darkness strikes deep in the heart of Texas, Owen appears (literally) to investigate. Now Katie’s friends and family must show the bad guys why it’s bad luck to hex with Texas, while Katie and Owen combine their strengths like never before to uncover a sinister plot before evil takes root in the Lone Star State.

Instead, she’s applying to be an actual familiar for an actual witch. As in, real magic. The new job has a few perks - great room and board, excellent pay, and she’s apprenticing to a powerful witch. Sure, the witch is a bit eccentric. And sure, there was that issue with the black cat Reggie would prefer to forget about. The biggest problem, however, is warlock Ben Magnus, her employer’s nephew and the most arrogant, insufferable, maddening man to ever cast a spell. Reggie absolutely hates him. He’s handsome, but he’s also bossy and irritating and orders her around. Ben’s butt might look great in a crystal ball vision, but that’s as far as it goes. But when someone with a vendetta targets the household, she finds herself working with Ben to break a deadly curse. Apparently, when they’re not fighting like cats and dogs, things get downright...bewitching.

When Eleanor walked in on the scene of her capriciously cruel grandmother, Vivianne’s, murder, she came face to face with the killer—a maddening expression that means nothing to someone like her. With each passing day, the horror of having come so close to a murderer—and not knowing if they’d be back—overtakes both her dreams and her waking moments, thwarting her perception of reality. Then a lawyer calls. Vivianne has left her a house—a looming estate tucked away in the Swedish woods. The place her grandfather died, suddenly. A place that has housed a chilling past for over fifty years. Eleanor. Her steadfast boyfriend, Sebastian. Her reckless aunt, Veronika. The lawyer. All will go to this house of secrets, looking for answers. But as they get closer to uncovering the truth, they’ll wish they had never come to disturb what rests there.

Sophie Mercer thought she was a witch. That was the whole reason she was sent to Hex Hall, a reform school for delinquent Prodigium (aka witches, shapeshifters, and fairies). But that was before she discovered the family secret, and that her hot crush, Archer Cross, is an agent for The Eye, a group bent on wiping Prodigium off the face of the earth.

"Not many living artists would be sufficiently brave or inspired to attempt reflecting in art what Borges constructs in words. But the detailed, evocative etchings by Erik Desmazieres provide a perfect counterpoint to the visionary prose. Like Borges, Desmazieres has created his own universe, his own definition of the meaning, topography and geography of the Library of Babel. Printed together, with the etchings reproduced in fine-line duotone, text and art unite to present an artist's book that belongs in the circle of Borges's sacrosanct Crimson Hexagon - "books smaller than natural books, books omnipotent, illustrated, and magical.'"--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Then, a reception for Neve ends abruptly when the artist is found dead in his office. When the police investigation nets Celeste, Alex decides to find the true culprit. With the help of her magically-inclined aunt and cousins, Alex dives in to clear her friend's name. But there was more to Neve Ryland than met the eye...and Alex fears she may be in way too deep. The Craft for the #MeToo era, this debut unfolds a riveting psychological drama shot through with sharp humor and dark magic for readers of Ninth House and The Power. When Lee, a first year at Smith, is raped under eerie circumstances during orientation week by an Amherst frat boy, she's quickly disillusioned by her lack of recourse. As her trauma boils within her, Lee is selected for an exclusive seminar on Gender, Power, and Witchcraft, where she meets Luna (an alluring Brooklyn hipster), Gabi (who has a laundry list of phobias), and Charlotte (a waifish, chill international student). Granted a charter for a coven and suddenly in possession of real magic, the four girls are tasked by their aloof Professor with covertly retrieving a grimoire that an Amherst fraternity has gotten their hands on. But when the witches realize the frat brothers are using magic to commit and cover up sexual assault all over Northampton, their exploits escalate into vigilante justice. As Lee's thirst for revenge on her rapist grows, things spiral out of control, pitting witch against witch as they must wrestle with how far one is willing to go to heal. Consensual Hex is both a gripping page-turner and a sensitive portrait of a young woman coming of age, uncovering the ways in which love and obsession and looking to fit in can go hand in hand. Lee, an outstanding, magical anti-heroine, refuses to be pigeonholed as a model victim or a horrific example. Instead, her caustic voice demands our attention, clawing out from every page, equally vicious and vulnerable as she lures us, then dares us, to transgress. Dark, biting, and archly camp, Consensual Hex announces Harlowe as a significant talent.

New York Times Bestseller Erin Sterling casts a delightful spell with a spine-tingling romance full of wishes, witches, and hexes gone wrong. “A delightful and witty take on witchy mayhem.” — Popsugar *Nine years ago, Vivienne Jones nursed her broken heart like any young witch would: vodka, weepy music, bubble baths...and a curse on the horrible boyfriend. Sure, Vivi knows she shouldn't use her magic this way, but with only an "orchard hayride" scented candle on hand, she isn't worried it will cause him anything more than a bad hair day or two. That is until Rhys Penhallow, descendent of the town's ancestors, breaker of hearts, and annoyingly just as gorgeous as he always was, returns to Graves Glen, Georgia. What should be a quick trip to recharge the town's ley lines and make an appearance at the annual fall festival turns disastrously wrong. With one calamity after another striking Rhys, Vivi realizes her silly little Ex Hex may not have been so harmless after all. Suddenly, Graves Glen is under attack from murderous wind-up toys, a pissed off ghost, and a talking cat with some interesting things to say. Vivi and Rhys have to ignore their off the charts chemistry to work together to save the town and find a way to break the break-up curse before it's too late.*

When LA-babe Sophie Stone relocates to Mythic, Massachusetts, she learns that the most popular, best-dressed girls in the high school are actually a coven of witches formed to save the town from an evil that was foretold decades ago, and Sophie has been chosen as the coven's leader. *Original.*

All six are burdened by desire and ambition, and as they collide on the university campus, their attractions set in motion a domino effect of affairs and heartbreak. Meanwhile, Nell slowly fills her empty apartment with poisonous plants to study, and she begins to keep a series of notebooks, all dedicated to Joan. She logs her research and how she spends her days, but the notebooks ultimately become a painstaking map of love. In a dazzling and unforgettable voice, Rebecca Dinerstein Knight has written a spellbinding novel of emotional and intellectual intensity.

The focus of Digital Design and Implementation with Field Programmable Devices is on a practical knowledge of digital system design for programmable devices. The book covers all necessary topics under one cover, and covers each topic just enough that is actually used by an advanced digital designer. The book is broken into three sections, covering digital system design concepts, use of tools, and systematic design of digital systems. This book provides a recap of digital design topics and computer architectures and shows the Verilog language for synthesis. In addition, for an industrial setting, the book shows how existing design components are used in upper level designs, and how user libraries are formed and utilized. Using Altera's UP2 programmable device development board with this book helps engineers test and debug their designs before programming their programmable devices on production boards. In an educational setting, the book can be used as a complementary book for the basic logic design course, or a laboratory book for the sophomore logic design lab, or as a textbook for senior level design courses. Using Altera's UP2 programmable device education board with this book helps students see their designs being implemented and tested,

and thereby get a down-to-wire understanding of how things work.
