At a time of climate crisis, isolation and social breakdown, *Driving with strangers* is a manifesto to alter how we think about our place in the world. Veteran hitchhiker and lifelong aficionado of hitchhiking culture, Purkis journeys through the history of hitchhiking to explore the unique opportunities for cooperation, friendship, sustainability and openness that it represents. Join Purkis on the kerbside, in search of Woody Guthrie as he examines the politics of the travelling song, deep on a Russian hitch-hiking expedition, or considering the

politics of travel and risk on the ' Highway of Tears ' in British Columbia, Canada. The reader is taken on a panoramic road trip through a century of hitchhiking across different decades, countries and continents. Purkis, a self-styled ' vagabond sociologist ' , is the perfect passenger to accompany you on a journey away from isolation, social distancing, closed borders and into a better understanding of why and how strangers can enrich our lives. From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't

know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review)

“The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review)

“I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It

teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

As everyone knows, there are three ways of doing things. The right way, the wrong way and the Top Gear way. Although, on reflection, that's usually just the wrong way, but faster and with more shouting. Anyway, the good news is that this third way of doing things can be applied to almost anything, and that includes motoring in general. All you need is the right guidance, which is where the brand new Top Gear Alternative Highway Code comes in. Top Gear's Alternative Highway Code will show you how to bring the ambitious but rubbish philosophies of the world's most popular TV programme to your driving, containing advice on general motoring, as well as specific tips on how to deal with common eventualities like a rapidly sinking amphibious camper van, a caravan airship that's just crashed into a small bush, or a stupid home-

made limousine that's snapped in half while transporting a top celebrity to an awards ceremony. Road users should not leave home without it.

This volume responds to a growing interest in the language of legal settings by situating the study of language and law within contemporary theoretical debates in discourse studies, linguistic anthropology, and sociolinguistics. The chapters in the collection explore many of the common occasions when those acting on behalf of the legal system, such as the police, lawyers and judges, interact with those coming into contact with the legal system, such as suspects and witnesses. However the chapters do this work through the conceptual lens of 'textual travel', or the way that texts move across space and time and are transformed along the way.

Collectively, notions of textual travel shed new light on the ways in which texts can influence, and are influenced by, social and legal life. With contributions from leading experts in language and law, Legal-Lay Communication explores such 'textual travel' themes as the mediating role of technologies in the investigatory stages of the legal process, the centrality of intertextuality in the legal construction of cases in court, the transformative effects of recontextualization in processes of judicial decision-making, and the way that processes of textual travel disturb the apparent permanence of legal categorization. The book challenges both the notion of legal text as a static repository of meaning and the very idea of legal-lay or lay-legal communication.

With information on roads and road markings, motorways, traffic signs, documentation, the road user and the law, this is essential reading for all drivers - not just those learning to drive. This edition is specific to Northern Ireland.
