Nominated as one of America's best-loved novels by PBS's *The Great American Read* "It is universally read, from the cabinet council to the nursery," remarked Alexander Pope when *Gulliver's Travels* was published in 1726. One of the unique books of world literature, Swift's masterful satire describes the astonishing voyages of one Lemuel Gulliver, a ship's surgeon, to surreal kingdoms inhabited by miniature people and giants, quack philosophers and scientists, horses endowed with reason and men who behave like beasts. Written with great wit and invention, *Gulliver's Travels* is a savage parody on man and his institutions that has captivated readers for nearly three centuries. As bestselling author and critic Allan Bloom observed: "Gulliver's Travels is an amazing rhetorical achievement. Swift had not only the judgment with which to arrive at a reasoned view of the world but the fancy by means of which he could re-create that world in a form which teaches where argument fails and which satisfies all while misleading none." This representative collection of Swift's major writings includes the complete *Gulliver's Travels* as well as *A Tale of a Tub*, "The Battle of the Books," "A Modest Proposal," "An Argument Against Abolishing Christianity," "The Bickerstaff Papers," and many more of his brilliantly satirical works. Here too are selections from Swift's poetry and portions of his *Journal to Stella*. Swift's savage ridicule, corrosive wit, and sparkling humor are fully displayed in this comprehensive collection.

Contradictions between impressive levels of economic growth and the persistence of poverty and inequality are perhaps nowhere more evident than in rural Brazil. While Brazil might appear to be an example of the potential harmony between large-scale, export-oriented agribusiness and small-scale family farming, high levels of rural resistance contradict this vision. In this volume, individual contributions from a variety of researchers across the field highlight seven key characteristics of contemporary Brazilian resistance that have broader resonance in the region and beyond: the growth of international networks, the changing structure of state-society collaboration, the deepening of territorial claims, the importance of autonomy, the development of alternative economies, continued opposition to dispossession, and struggles over the meaning of nature. By analyzing rural mobilization in Brazil, this collection offers a range of insights relevant to rural contention globally. Each contribution in this title increases our understanding of alternative agricultural production, large-scale development projects, education, race and political parties in the contemporary agrarian context. This book was previously published as a special issue of the *Journal of Peasant Studies*.

In this brilliant meditation on conceptions of history, Le Goff traces the evolution of the historian's craft. Examining real and imagined oppositions between past and present, ancient and modern, oral and written history, *History and Memory* reveals the strands of continuity that have characterized historiography from ancient Mesopotamia to modern Europe.

O livro que se apresenta, resultado de pesquisa realizada pelas autoras, com apoio da FAPESP, pode ser lido no interior dos estudos voltados a entender os vínculos entre comunicação e educação. (...) A observação derradeira das autoras indicando ser imperioso promover a educação do olhar para o que vai de iconografia, fotografia, infográfico, nos livros didáticos, guarda duas dimensões relevantes.

An award-winning, stunningly illustrated, sober depiction of war. A recipient of the prestigious Nami Concours prize, this remarkable book of striking, often surreal illustrations and sparse prose reveals the many sides of war: where it comes from, how it creeps up on us, and how it destroys everything in its wake. During a time when wars are fought around the world, this evocative and bold interpretation may serve as a vehicle for difficult yet necessary discussions among readers of all ages. As Deborah Ellis, author of the *Breadwinner* series, says: "If children are old enough to be bombed, they are old enough to read about it."

This interdisciplinary work presents an integration of theory and research on how children develop their thinking as they participate in cultural activity with the guidance and challenge of their caregivers and other companions. The author, a leading developmental psychologist, views development as an apprenticeship in which children engage in the use of intellectual tools in societally structured activities with parents, other adults, and children. The author has gathered evidence from various disciplines--cognitive, developmental, and cultural psychology; anthropology; infancy studies; and communication research--furnishing a coherent and broadly

**based account of cognitive development in its sociocultural context. This work examines the mutual roles of the individual and the sociocultural world, and the culturally based processes by which children appropriate and extend skill and understanding from their involvement in shared thinking with other people. The book is written in a lively and engaging style and is supplemented by photographs and original illustrations by the author.**

Alejandro de la Fuente and George Reid Andrews offer the first systematic, book-length survey of humanities and social science scholarship on the exciting field of Afro-Latin American studies. Organized by topic, these essays synthesize and present the current state of knowledge on a broad variety of topics, including Afro-Latin American music, religions, literature, art history, political thought, social movements, legal history, environmental history, and ideologies of racial inclusion. This volume connects the region's long history of slavery to the major political, social, cultural, and economic developments of the last two centuries. Written by leading scholars in each of those topics, the volume provides an introduction to the field of Afro-Latin American studies that is not available from any other source and reflects the disciplinary and thematic richness of this emerging field.

A História Medieval entre a formação de professores e o ensino na Educação Básica no século XXI Autografia Norberto Bobbio is the foremost political theorist in Italy today. Written with verve and passion as well as erudition, this important work will make a major contribution to current debates in social and political theory. It will be of great interest to students of sociology, politics and philosophy, as well as to anyone concerned with the nature and future of democracy.

History and Truth deals with the epistemological premises and the objectivity of historical truth as well as the social conditioning of historical cognition. Both the problem of the model of cognitive relationship and the problem of truth are discussed in the context of true cognition. Comprised of eight chapters, this book begins with an overview of historians' conflicting interpretations regarding the causes of the French Revolution to highlight the tendency of historians to differ in their visions of the historical process, resulting in different and sometimes even contradictory representations of one and the same fact. The discussion then turns to three models of the process of cognition (the cognitive subject, the object of cognition, and knowledge as the product of the process of cognition), as well as the concept of truth as a philosophical problem. Subsequent chapters focus on two concepts of history, namely, positivism and presentism; The class character of historical cognition; historicism and relativism; and the selection of historical facts. The book also considers why history is continuously written anew before concluding with an assessment of the objectivity of historical truth. This monograph will be of interest to students, practitioners, and researchers in the fields of history, philosophy, and the social sciences.

**Seguindo a proposta do I Seminário Internacional Tecendo Redes Antirracistas: África(s), Brasil, Portugal, este livro traz uma série de textos que buscam produzir reflexões sobre o racismo experimentado em países de língua portuguesa nos continentes africano, sul-americano e europeu. Essas reflexões se posicionam como ferramentas para o enfrentamento ao fenômeno persistente do racismo que, longe de ser apenas um elemento estruturante das experiências da Modernidade, tem se intensificado nos últimos anos e mostrado que não se trata somente de um fato do passado colonial. A diversidade advinda dos três continentes faz deste livro uma ferramenta ímpar, necessária para um olhar comparativo, transnacional e transcontinental sobre as diferentes experiências com e contra o racismo, espinha dorsal do mundo moderno.**

Esau and Jacob is the last of Machado de Assis's four great novels. At one level it is the story of twin brothers in love with the same woman and her inability to choose between them. At another level, it is the story of Brazil itself, caught between the traditional and the modern, and between the monarchical and republican ideals. Instead of a heroic biblical fable, Machado de Assis gives us a story of the petty squabbles, conflicting ambitions, doubts, and insecurities that are part of the human condition.

By focusing on the textually mediated reactions of local residents, social movements, and media producers to policy changes implemented in the favelas of Rio de Janeiro, this book studies the development of literacy as a tool to mobilize, perform, and disseminate protest. *Researching Protest Literacies* presents a combination of ethnographic fieldwork and extensive archival research to analyse how traditional and technology-driven literacy practices informed a new cycle of social protest in favelas from 2006-2016. Chapters trace nuanced interactions, document changing power balances, and in doing so conceptualize five forms of literacy used to enact social change - campaigning literacies, memorial literacies, media-activist literacies, arts-activist literacies, and demonstration literacies. Building on these, the study posits protest literacies as a new way of researching the role of contemporary literacy in protest. This insightful monograph would be of interest to doctoral students, researchers, and scholars involved in the fields of literacy studies, arts education, and social movement studies, as well as those looking into research methods in education and international literacies more broadly.

The Future of Democracy

Cognitive Development in Social Context

Brazil is a rapidly emerging country. Brazilian theology, namely the Theology of Liberation, has become well known in the 1970s and 1980s. The politically active Base Ecclesial Communities and the progressive posture of the Roman Catholic Church contrasted with a steadily growing number of evangelicals, mostly aligned with the military regime but attractive precisely to the poor. After democratic transition in the mid-1980s, the context changed considerably. Democracy, growing religious pluralism and mobility, a vibrant civil society, the political ascension of the Worker's Party and growing wealth, albeit within a continuously wide social gap, are some of the elements that show the need of a new approach to theology. It must be a theology that is both critical and constructive, resisting and cooperative, a theology that is able to give orientation to the churches, valuing and encouraging their contribution in society while avoiding attempts of imposition. *The Churches and Democracy in Brazil*, the fruit of years of interdisciplinary study of the Brazilian context and its main churches and theology, makes its case for an ecumenically articulated public theology. It seeks inspiration mainly in Luther and Lutheran theology, emphasizing human dignity, freedom, trust, the disposition to serve, and the ability to endure the ambiguities of reality, as well as a fresh interpretation of the doctrine of the two regiments. These are the fundamental elements of what makes human beings full members of the body politic: citizenship, their right to have rights and to be able to effectively live them, together with their corresponding duties, in a move of growing political participation conscious of their religious motivation in view of the commonweal.

Este livro apresenta diversas experiências docentes, do Brasil e de outros países, relacionadas à História Medieval, tanto no aspecto da formação de professores quanto no âmbito do ensino na educação básica. Com uma variedade de capítulos que envolvem novas abordagens contemporâneas, antigos temas sob novos olhares, objetos de ensino e pesquisa: possibilidades de abordagens e territorialidades: entre (des)conhecidas e tradicionais, este livro tem como objetivo servir de material para professores e professoras em formação e professores e professoras que já atuam em sala de aula, tanto na formação de docentes - a partir de abordagens, temas, objetos e territorialidades do Medieval - quanto no ensino de História Medieval na educação básica.

In the course of his famous travels, Gulliver is captured by miniature people who wage war on each other because of religious disagreement over how to crack eggs, is sexually assaulted by giants, visits a floating island, and decides that the society of horses is better than that of his fellow man.

tablets para a comunidade escolar, aplicativos com sequências didáticas, cursos planejados em ambientes virtuais, conteúdos digitais disponíveis nos materiais de aula. A oferta de recursos digitais nas escolas vem representando, desde as décadas finais do século passado, um cenário complexo que integra uma parte importante da realidade na Educação Básica. Neste cotidiano baseado, cada vez mais, na cultura digital, os agentes educacionais têm refletido sobre as práticas de ensino, buscando alternativas menos tradicionais e que visam se conectar à rede de transformações das sociedades globais. Assim, o objetivo desse livro é compreender como o professor de História que trabalha na Educação Básica pode atuar como um curador de recursos educacionais, por meio da identificação, da análise e da seleção dos conteúdos digitais que possam ser integrados aos planejamentos e às práticas docentes.

*A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.*

**A obra tem como objeto de estudo as relações entre a construção das identidades e a formação da consciência histórica de professores de História e jovens estudantes em escolas no meio urbano e rural. É resultado de uma investigação qualitativa de cunho etnográfico. Foram realizados os seguintes procedimentos: levantamento documental e bibliográfico; observação e produção de notas de campo; questionário respondido pelos jovens estudantes; entrevistas com gestores e professores de História. A pesquisa revelou que os estudantes são atores sociais plurais, amam, sofrem, divertem-se, pensam a respeito de suas condições e de suas experiências de vida, posicionam-se diante dela, possuem desejos e propostas de mudança de vida. São críticos em relação à instituição escolar, mas acreditam na escola e confiam nos professores. Os jovens estudantes atribuíram sentido positivo para a História. Os professores, ao ensinar História, expressaram o desejo de contribuir para a formação crítica dos estudantes. Recorriam a diferentes fontes e linguagens no processo de ensinar História. Mesmo diante das adversidades, os professores buscavam ensinar História de forma significativa aos jovens estudantes.**
