*The extraordinary, groundbreaking novel from Laurie Rabe Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for a disenfranchised teenager while demonstrating the importance of speaking up for oneself. Speak was a 1999 National Book Award Finalist for Young People's Literature.*

*Kass Morgan, New York Times bestselling author of The 100, once again delivers pulse-pounding action and glittering romance in this thrilling sequel to Light Years. Tensions are rising between the Quattans and the Specters, and the Quatra Fleet is gearing up for an epic fight. Orelia has been arrested for espionage, and her future is looking bleak . . . until the Quattans make her a surprising offer that could save her life--and the lives of everyone in the galaxy. Reeling from his breakup, Arran finds comfort in a sympathetic boy From Loos, someone who understands how hard it can be to fit in. But is it enough for Arran to forget his heartbreak? Cormak's position at the Academy is finally secure. But when someone discovers his treasonous secret, it jeopardizes everything he's fought for, including his relationship with the person he cares about most. And Vesper is ready to become a superstar officer . . . until she uncovers a conspiracy that shakes her faith in the Quatra Fleet to its core. As secret machinations come to light, these cadets will be forced to overcome their differences and band together to restore peace to their worlds.*

*In this thrilling conclusion to New York Times bestselling authors Kass Morgan and Danielle Paige's The Ravens duology, loyalty, love, and friendships are tested as sorority sisters Scarlet and Vivi must face the forces of hell itself when a rival sorority threatens to wreak havoc on campus. The ultra-exclusive Kappa Rho Nu—the Ravens—are determined to restore balance to the world. After destroying an ancient talisman and barely saving their sorority in the process, they'll go to any lengths to keep their secret as Westerly's most powerful coven of witches. Scarlet Winter, a legacy Raven, has finally gotten what she's always wanted: Scarlet is Kappa Rho Nu's newest president. Unlike her mother or older sister before her, Scarlet has a vision for a more unified Kappa, one where no sister falls to the forces of wicked magic. But the powers of the presidency have their own pitfalls. And with the pressures of alumni bureaucracy and past failures weighing on her, Scarlet finds herself at risk of losing the very thing that defined her: her magic. As a new member of Kappa Rho Nu, Vivi Devereaux finally knows what it's like to belong. She has her Kappa Rho Nu sisters behind her and, with Scarlet's blessing, Vivi's happily dating her first college crush (who also just happens to be Scarlet's ex). When Scarlet assigns Vivi the coveted role of social chair, Vivi is determined to live up to her Big's expectations. But Vivi's studies in witchcraft take a deadly turn when she uncovers a new form of magic, one that has mysterious ties to Kappa Rho Nu's past and the vengeful demon once tied to their talisman. With the weight of their newfound roles and the terrible price of destroying the talisman haunting them, Scarlet and Vivi must save their sisterhood when the forces of hell itself and a rival sorority threaten to unleash havoc on the Ravens.*

But how do you begin to trust the very people you've spent a lifetime learning to hate?*

We have a strong instinct to belong to small groups defined by clear purpose and understanding--"tribes." This tribal connection has been largely lost in modern society, but regaining it may be the key to our psychological survival. Decades before the American Revolution, Benjamin Franklin lamented that English settlers were constantly fleeing over to the Indians-but Indians almost never did the same. Tribal society has been exerting an almost gravitational pull on Westerners for hundreds of years, and the reason lies deep in our evolutionary past as a communal species. The most recent example of that attraction is combat veterans who come home to find themselves missing the incredibly intimate bonds of platoon life. The loss of closeness that comes at the end of deployment may explain the high rates of post-traumatic stress disorder suffered by military veterans today. Combining history, psychology, and anthropology, Tribe explores what we can learn from tribal societies about loyalty, belonging, and the eternal human quest for meaning. It explains the irony that-for many veterans as well as civilians-war feels better than peace, adversity can turn out to be a blessing, and disasters are sometimes remembered more fondly than weddings or tropical vacations. Tribe explains why we are stronger when we come together, and how that can be achieved even in today's divided world.

Stephanie--better known as Dr. Stevie around Sunflower Ranch--has been treating the cattle there for years...and not one of them is as bullheaded as Cody. Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will upend everything they think they know about themselves, and each other. The 100 Book Three

A road map for dismantling the fear and shame that keep you from living a free and authentic life. In the aftermath of stress, disappointment, and trauma, people often fall into survival mode, even while a part of them longs for more. Juggling multiple demands and responsibilities keeps them busy, but not healed. As a survivor of sexual assault, racism, and evacuation from a civil war in Liberia, Dr. Thema Bryant knows intimately the work involved in healing. Having made the journey herself, in addition to guiding others as a clinical psychologist and ordained minister, Dr. Thema shows you how to reconnect with your authentic self and reclaim your time, your voice, your life. Signs of disconnection from self can take many forms, including people-pleasing, depression, anxiety, and resentment. Healing starts with recognizing and expressing emotions in an honest way and reconnecting with the neglected parts of yourself, but it can't be done in a vacuum. Dr. Thema gives you the tools to meaningfully connect with your larger community, even if you face racism and sexism, heartbreak, grief, and trauma. Rather than shrinking in the face of life's difficulties, you will discover in Homecoming the therapeutic approaches and spiritual practices to live a more expansive life characterized by empowerment, healthier relationships, gratitude, and a deeper sense of purpose.

The future of the human race rests in their hands, but nothing can prepare the 100 for what they find on this strange and savage planet. Don't miss the book series that inspired the hit TV show. *A vivid coming-of-age story that explores the struggles of chronic anxiety and self-doubt within a richly-detailed fantasy setting. Ronohav Genovetta despairs of fulfilling his spiritual identity, until he begins a cross-continental pilgrimage with an otherworldly mentor. Immersive worldbuilding and mythology meet visceral emotional case study.*

*Are you outwardly successful but inwardly do you feel like a big kid? Do you aspire to be a loving parent but all too often "lose it" in hurtful ways? Do you crave intimacy but sometimes wonder if it's worth the struggle? Or are you plagued by constant vague feelings of anxiety or depression? If any of this sounds familiar, you may be experiencing the hidden but damaging effects of a painful childhood--caring within you a "wounded inner child" that is crying out for attention and healing. In this powerful book, John Bradshaw shows how we can learn to nurture that inner child, in essence offering ourselves the good parenting we needed and longed for. Through a step-by-step process of exploring the unfinished business of each developmental stage, we can break away from destructive family rules and roles and free ourselves to live responsibly in the present. Then, says Bradshaw, the healed inner child becomes a source of vitality, enabling us to find new joy and energy in living. Homecoming includes a wealth of unique case histories and interactive techniques, including questionnaires, letter-writing to the inner child, guided meditations, and affirmations. Pioneering when introduced, these classic therapies are now being validated by new discoveries in attachment research and neuroscience. No one has ever brought them to a popular audience more effectively and inspiringly than John Bradshaw.*

*Newly reissued as a Picador Modern Classic, Marilynne Robinson's brilliant, PEN/Hemingway Award-winning first novel Housekeeping is the story of Ruth and her younger sister, Lucille, who grow up haphazardly, first under the care of their competent grandmother, then of two comically bumbling great-aunts, and finally of Sylvie, the eccentric and remote sister of their dead mother. The family house is in the small town of Fingerbone on a glacial lake in the Far West, the same lake where their grandfather died in a spectacular train wreck and their mother drove off a cliff to her death. It is a town "obscured by an outsized landscape and extravagant weather, and chastened again by an awareness that the whole of human history had occurred elsewhere." Ruth and Lucille's struggle toward adulthood beautifully illuminates the price of loss and survival, and the dangerous and deep undertow of transience. For more than twenty years, Picador has been producing beautifully packaged literary fiction and nonfiction books from Manhattan's Flatiron Building. Our Twentieth Anniversary Modern Classics line pairs iconic books with a design that's both small enough to fit in your pocket and unique enough to stand out on your bookshelf.*

Homecoming is a big-hearted, bittersweet drama about how a family falls apart and comes back together again from a hugely talented new writer. Up on the North Yorkshire moors, the Hartle family is about to have a life-changing year. Ann and Joe, with more than thirty years of marriage and two sons between them, are torn between giving up and pressing on with their struggling farm. Max, their older son, is set to inherit the farm and his wife Primrose has news to share, but is he ready for these new responsibilities? Their younger son, Bartholomew, escaped to the south as soon as he could, building a new life for himself with his girlfriend Ruby. But when tragedy strikes he is forced to return home - and must come to terms with his past, in order to create a future.

From the moment Anna and Ann met at Auburn University, they realized they had so much in common, they HAD to call each other "twin." Many people celebrate that people are all the same, but the twins respectfully disagree- which is why this duo dubbed themselves as the Almost Twins. On Christmas Eve 1971, the packed LANSA flight 508 from Lima to Pucallpa was struck by lightning and went down in dense jungle hundreds of miles from civilization. Of its 93 passengers, only one survived, Juliane Koepcke, the seventeen-year-old child of famous German zoologists. She'd been thrown from the plane two miles above the forest canopy, but had sustained only a broken collarbone and a cut on her leg. With incredible courage, instinct and ingenuity, she survived three weeks in the "green hell" of the Amazon - using the skills she'd learned in assisting her parents on their research trips into the jungle - before coming across a loggers hut, and, with it, safety. Now she tells her fascinating story for the first time, and in doing so tells us about her 'Gerald Durrell' childhood - with a menagerie of wild, exotic and sometimes dangerous pets - about how she learned to survive at her parents ecological station deep in the rainforest and about her present-day commitment to this wildlife as a biologist and dedicated environmentalist.

Bestselling author Andrew Pyper returns with a riveting psychological thriller about how the people you' ve known your whole life can suddenly become strangers. What if everything you knew about the people you loved was a lie? After the death of their absentee father, Aaron and Bridge Quinlan travel to a vast rainforest property in the Pacific Northwest to hear the reading of his will. There, they meet up with their mother and troubled sister, Franny, and are shocked to discover the will' s terms: in order to claim their inheritance they must all remain at the estate for thirty days without any contact with the outside world. Despite their concerns, they agree. The Quinlans soon come to learn their family has more secrets than they ever imagined--revelations that at first inspire curiosity, then fear. Why does Bridge have faint memories of the estate? Why did their father want them to be sequestered there together? And what is out there they feel pulling them into the dark heart of the woods? The Homecoming is at once a gripping mystery, a chilling exploration of how our memories can both define and betray us, and a riveting page-turner that will have you questioning your very existence.

At last, the capstone to Krasznahorkai' s four-part masterwork Set in contemporary times, Baron Wenckheim' s Homecoming tells the story of a Prince Myshkin -- like figure, Baron B é la Wenckheim, who returns at the end of his life to his provincial Hungarian hometown. Having escaped from his many casino debts in Buenos Aires, where he was living in exile, he longs to be reunited with his high-school sweetheart Marika. Confusions abound, and what follows is an endless storm of gossip, con men, and local politicians, vividly evoking the small town' s alternately drab and absurd existence. All along, the Professor--a world-famous natural scientist who studies mosses and inhabits a bizarre Zen-like shack in a desolate area outside of town--offers long rants and disquisitions on his attempts to immunize himself from thought. Spectacular actions are staged as death and the abyss loom over the unsuspecting townfolk.
