Capitalist Nigger is an explosive
and jarring indictment of the black
race. The book asserts that the
Negroid race, as naturally endowed
as any other, is culpably a non-
productive race, a consumer race
that depends on other communities
for its culture, its language, its
feeding and its clothing. Despite
enormous natural resources, blacks
are economic slaves because they

lack the ‘ devil-may-care ’ attitude and the ‘ killer instinct ’ of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the ‘ Spider Web Doctrine ’ – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

decision making is presented as a multi-criteria, multi-objective undertaking. The book provides guidelines on how to manage diverse types of uncertainty with intelligent decision-making that can help subject matter experts in many industries improve various processes in a more efficient way. As the number of required test cases for testing a product can be large (in industry more than 10,000 test cases are usually created). Executing all these test cases without any particular order can impact the results of the test execution, hence this book fills the need for a comprehensive resource on the topics on the how's, what's and whys.
