This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

A New York Times Bestseller and New York Times Book Review Editors' Choice A Best Book of 2015, The Wall Street Journal "Love is the driver for Wendy Williams's new book, The Horse . . . [an] affectionate, thoroughgoing, good-hearted book." —Jaimy Gordon, The New York Times Book Review "Charming and deeply interesting . . . Ms. Williams does a marvelous job." —Pat Shipman, The Wall Street Journal The book horse-lovers have been waiting for Horses have a story to tell, one of resilience, sociability, and intelligence, and of partnership with human beings. In The Horse, the journalist and equestrienne Wendy Williams brings that story brilliantly to life. Williams chronicles the 56-million-year journey of horses as she visits with experts around the world, exploring what our biological affinities and differences can tell us about the bond between horses and humans, and what our longtime companion might think and feel. Indeed, recent scientific breakthroughs regarding the social and cognitive capacities of the horse and its ability to adapt to changing ecosystems indicate that this animal is a major evolutionary triumph. Williams charts the course that leads to our modern Equus—from the protohorse to the Dutch Warmbloods, Thoroughbreds, and cow ponies of the twenty-first century. She observes magnificent ancient cave art in France and Spain that signals a deep respect and admiration for horses well before they were domesticated; visits the mountains of Wyoming with experts in equine behavior to understand the dynamics of free-roaming mustangs; witnesses the fluid gracefulness of the famous Lipizzans of Vienna; contemplates what life is like for the sure-footed, mustachioed Garrano horses who thrive on the rugged terrain of Galicia; meets a family devoted to rehabilitating abandoned mustangs on their New Hampshire farm; celebrates the Takhi horses of Mongolia; and more. She blends profound scientific insights with remarkable stories to create a unique biography of the horse as a sentient being with a fascinating past and a finely nuanced mind. The Horse is a revealing account of the animal who has been at our side through the ages, befriending us and traveling with us over the mountains and across the plains. Enriched by Williams's own experience with horses, The Horse is a masterful work of narrative nonfiction that pays tribute to this treasure of the natural world.

The front cover of this book depicts the true and fatal wounds to President John F. Kennedy that was never revealed by the Warren Commission or by the official autopsy report. Instead, the United States Government and high ranking government officials responsible for the assassination of President Kennedy covered up the truth in an attempt to hide the coup de tat assassination. This is the story of Jimmy Sutton the Mafia Grassy Knoll Shooter who fired the fatal shot to the right temple of President Kennedy ordered and carried out by Organized Crime. Lee Harvey Oswald never fired a shot at President Kennedy. The author Robert Clayton Buick who was aware of the plot prior to the assassination of President Kennedy pulls no punches as he clarifies and substantiates every element of the hit on the President of the United States, the crime of the century for financial gain, political power and vengeance. This is a nonfictional and true depiction of what really happened that fateful day in Dallas.

She also shows how the Clydesdale has made an extraordinary comeback supported by an international band ofpassionate enthusiasts who promote the breed tirelessly at local, national and international level.This is an expanded and fully revised edition of the book, first published by Argyll Publishing in 2011.

The Mogao grottoes in northwestern China, located near the town of Dunhuang on the fabled Silk Road, constitute one of the world’s most significant sites of Buddhist art. Preserved in some five hundred caves carved into rock cliffs at the edge of the Gobi Desert are one thousand years of exquisite wall paintings and sculpture. Founded by Buddhist monks in the late fourth century, Mogao grew into an artistic and spiritual center whose renown extended from the Chinese capital to the far western kingdoms of the Silk Road. Among its treasures are 45,000 square meters of murals, more than 2,000 statues, and over 40,000 medieval silk paintings and illustrated manuscripts. This sumptuous catalogue accompanies an exhibition of the same name, which will run from May 7 through September 4, 2016, at the Getty Center. Organized by the Getty Conservation Institute, Getty Research Institute, Dunhuang Academy, and Dunhuang Foundation, the exhibition celebrates a decades-long collaboration between the GCI and the Dunhuang Academy to conserve this UNESCO World Heritage Site. It presents, for the first time in North America, a collection of objects from the so-called Library Cave, including illustrated sutras, prayer books, and other exquisite treasures, as well as three full-scale, handpainted replica caves. This volume includes essays by leading scholars, an illustrated portfolio on the replica caves, and comprehensive entries on all objects in the exhibition.

Join award-winning author and photographer Carol Walker as she tells the story, in words and photographs, of the wild horses of Adobe Town herd of Wyoming, and the dramatic fight to protect these magnificent and endangered animals. Protective. Dignified. Elegant and affectionate. Certainly beautiful. Above all else, loyal. These are the horses of Wyoming's famed Adobe Town herd, their stunning images caught in the wild by award-winning photographer Carol Walker. Especially remarkable are the snowcapped stallion that Walker thinks of as Bronze Warrior and his band of Appaloosa-marked mares and offspring. But their freedom was to be curtailed. In the fall of 2014, the Adobe Town horses were rounded up, their bands divided. Bronze Warrior and his sons were shipped to Colorado, their mares to a holding facility in Wyoming, and their young sent to Carson City, Nevada. Moved by the horse's strong family bonds in the wild, Walker joined with other advocates to intercede. This is the story, captured in Walker's signature dramatic images, of searching out, gathering together, and ultimately reuniting Bronze Warrior's extended family at the Black Hills Wild Horse Sanctuary. Galloping to Freedom will engage your heart and forever change your view of America's wild horses.

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Land Lover

Long Reining with Double Dan

On an epic 3,000-mile journey through the most pristine backcountry of the American West, four friends rode horseback across an almost contiguous stretch of unspoiled public lands, border to border, from Mexico to Canada. For their trail horses, they adopted wild mustangs from the US Bureau of Land Management that were perfectly adapted to the rocky terrain and harsh conditions of desert and mountain travel. A meticulously planned but sometimes unpredictable route brought them face to face with snowpack, downpours, and wildfire; unrelenting heat, raging rivers, and sheer cliffs; jumping cactus, rattlesnakes, and charging bull moose; sickness, injury, and death. But they also experienced a special camaraderie with each other and with the mustangs. Through it all, they had a constant traveling companion—a cameraman, shooting for the documentary film Unbranded. The trip's inspiration and architect, Ben Masters, is joined here by the three other riders, Ben Thamer, Thomas Glover, and Jonny Fitzsimons; two memorable teachers and horse trainers; and the film's producers and intrepid cameramen in the telling of this improbable story of adventure and self-discovery.

Three young men caught up in Civil War leave home and family to fight for what they believe is right, only to discover war is not what they envisioned. Each made a promise; two were broken, one should’ve been. Trapped in a dimension between life and death, their souls are destined to never rest in peace, doomed to wander for eternity until, one hundred fifty years later, they find the fourth promise which can set them free.

Why photograph horses? Because, in the words of author Carol Walker, they "fill our hearts", and capturing them on film or in digital images expresses that relationship. We want to catch and hold -- and show -- their spirit, their tremendous joy in living, their unique personalities, and of course, their incomparable beauty. And we want the quality of our images to honour our glorious subjects. Photographing horses presents a double challenge, the first being the technical aspects -- the lenses, the setting, the light and speed, and how all those relate to the subject. The second element is more elusive; it is horse knowledge -- the educated ability to see how a horse moves, sense its moods, and understand its psychology as a prey animal. This book presents the tools to master both technique and subject matter. More than that, the book will stir your creativity and inspire you to spend more time focusing on these animals you admire. Carol Walker has travelled the world photographing animals for almost 30 years, and since 2000 has concentrated on horses, including the object of her greatest passion, America's wild horses. Carol's stunning images illuminate the relationship between horses and their people, as well as showcase the beauty of horses at liberty. She teaches equine photography workshops for amateurs, and her commercial work includes fine art, magazine covers, and calendars. Her first book, "Wild Hoofbeats: America's Vanishing Wild Horses" is in its second printing and has won numerous awards for the quality of images and evocative writing. This book will be the reference of choice for any photographer aspiring to do justice to that most appealing of animals, the horse.

There are over 300 different breeds of horse in the world today and they are used for a variety of specific needs. Herd animals by nature, horses work spectacularly well in large groups and communicate through body language with humans as well as one another. Large and regal, the horse is a striking display of strength and a supple example of beauty. These two properties are derived from the strong fight-or-flight instinct etched in horses' DNA. The combination can only be called noble. For centuries, society could not have functioned without the horse. Not only were they used for transportation, but they were also working animals, used on farms for agriculture, in mines for resources, and on the battlefield for war. This diversity of needs led to the development of many types of horses throughout the world. Difference in climate and geography also played their part in forming of the breeds. Later, the popularity of equestrian sports honed many of our modern breeds into quite different creatures from their older counterparts. Look further into this fascinating book to discover all that is interesting about horses, including breeds, poetry, quotes, and other bits of trivia about our equine friends.
