

Houghton Mifflin Math Performance Tasks

Teams that engage in designing, using, and responding to common formative assessments are more knowledgeable about their own standards, more assessment literate, and able to develop more strategies for helping all students learn. In this conversational guide, the authors offer tools, templates, and protocols to incorporate common formative assessments into the practices of a PLC to monitor and enhance student learning

Performance Assessments and Learning Progressions, Grades K–8

Explorations in Core Math Common Core, Grade 6

"These assessment tools make progress in writing as transparent, concrete, and obtainable as possible and put ownership for this progress into the hands of learners, allowing students and teachers to work toward a very clear image of what good writing entails." -Lucy Calkins, Writing Pathways Lucy Calkins' groundbreaking performance assessments offer instructional tools to support continuous assessment, timely feedback, and clear goals tied to learning progressions that have been aligned with world-class standards. Originally published as part of the bestselling Units of Study in Opinion/Argument, Information, and Narrative Writing, grades K-8, Writing Pathways is ideal for writing workshop, but suitable for any writing instruction context or curriculum. This practical guide includes: Learning progressions for opinion/argument, information, and narrative writing, which map the specific benchmarks students will master for every grade level On-demand writing prompts that support schoolwide performance assessment Student checklists to help students set goals and integrate crucial self-assessment into their work Rubrics to support individual teachers and professional learning communities as they evaluate mastery and plan instruction within and across grade levels Student writing samples that illustrate different ways students have exemplified standards and highlight essential features of each writing genre Annotated exemplar pieces of writing on the same topic for every grade level that highlight the traits you can expect to see at each level of the learning progressions. Who needs Writing Pathways? Educators who are not yet ready to implement the full Units of Study curriculum can use Writing Pathways to get started with Lucy Calkins' proven approach to writing assessment and instruction. Coaches and administrators who are supporting implementation of Lucy Calkins' Units of Study will find Writing Pathways to be an ideal resource to guide their work. Who doesn't need Writing Pathways? The content in this stand-alone edition is the same as in the previous editions found in Lucy Calkins' Units of Study (K-5 and 6-8 are combined in this new edition). Teachers who have the Units of Study do not need this new edition.

Big Ideas Math

Monetary incentives, as a driving force for human behavior, are the main theme of this book. The primary goals underlying the application of monetary incentive systems in companies are motivating employees to strive for superior productivity in line with the interests of employers, and hiring adequately skilled employees. The first goal refers to incentive effects, the latter to sorting effects. This book introduces important theories and concepts concerning behavior under influence of monetary incentives; it reviews existing economic frameworks and identifies specific contingency variables. Based on an integrative framework of elements influencing incentive and sorting effects, a laboratory experiment is presented including detailed methodological discussion on experimentation and data analysis as well as an extensive presentation of findings and discussion of implications.?

A Quest for Coherence

Explorations in Core Math for Common Core Grade 8

Performance assessment is a form of testing that requires students to perform a task rather than select an answer from a ready-made list, e.g., a student may be asked to explain historical events, generate scientific hypotheses, or solve math problems. Engaging Students Through Performance Assessment is a "how-to" for teachers create performance assessments, score performance assessments, and use performance assessments to improve student instruction
