Mr. Getty expounds the highly personal view of business that has guided him through his spectacular career. He reveals the principles and methods which have enabled him to build up and wisely use his tremendous fortune.

"This publication is issued on the occasion of the exhibition Book of Beasts: The Bestiary in the Medieval World, on view at the J. Paul Getty Museum at the Getty Center, Los Angeles, from May 14 to August 18, 2019."

The Getty Research Journal is a periodical that showcases work by scholars and staff associated with the Getty Research Institute and the other programs of the J. Paul Getty Trust. It offers refereed essays that focus on an object or aspect of the Getty's extensive archival, rare book, and artistic holdings or that bear upon the annual research themes of the Research Institute or the Getty Villa. It also presents a selection of short, lively pieces about new acquisitions, scholarly activities, and ongoing research projects at the Getty. The second issue features essays by Gail Feigenbaum, Claire Fox, Sarah E. Fraser, Talinn Grigor, Karen J. Lloyd, Kristina Luce, Courtney J. Martin, and Irene Sun-Woo; the short texts examine materials related to Roman graves, painters' prices in seventeenth-century Rome, Giovanni Battista Piranesi's Prisons series, the alchemist Sigismund Bacstrom, a nineteenth-century Venetian picture gallery, Goupil & Cies stock books, the Beau Geste Press, the photography of Sam Wagstaff, and the transgressive techniques of the Guerrilla Girls. It closes with new work by photographer Ken Gonzales-Day.

Over the past seventy years, a staggering array of new pigments and binders has been developed and used in the production of paint, and twentieth-century artists readily applied these materials to their canvases. Paints intended for houses, boats, cars, and other industrial applications frequently turn up in modern art collections, posing new challenges for paintings conservators. This volume presents the papers and posters from "Modern Paints Uncovered," a symposium organized by the Getty Conservation Institute, Tate, and the National Gallery of Art and held at Tate Modern, London, in May 2006. Professionals from around the world shared the results of research on paints that have been available to artists since 1930--the date that synthetic materials began to significantly impact the paint industry. Modern Paints Uncovered showcases the varied strands of cutting-edge research into the conservation of contemporary painted surfaces. These include paint properties and surface characteristics, analysis and identification, aging behavior, and safe and effective conservation techniques.

*This title was previously published as Uncommon Youth The true account behind the glamorous life and tragic times of J. Paul Getty III, whose kidnapping made headlines in 1973, as seen in Ridley Scott's All the Money in the World and the FX series Trust by Danny Boyle J. Paul ("Little Paul") Getty III, the grandson of Getty Oil founder J. Paul Getty, may have been cursed by money and privilege from the moment he was born. Falling in with the wrong people and practically abandoned by his famous family, Getty was a child of his international jet set era, moving from Marrakesh to Rome, nightclubs to well-appointed drug dens. His high-profile kidnapping defined the decade—and was permanently memorable for the ear that was mailed to his mother as evidence of the kidnappers' intentions. Kidnapped is richly reported, and includes many interviews with Getty himself conducted from the late 1970s to the early 1990s, that raise new angles about the case. How much did Getty acquiesce to the kidnappers? Why wouldn't his rich-as-Croesus grandfather pay the ransom, which began at the equivalent of \$550,000 in lire and bulged to 3.6 million as the months dragged on? Charles Fox began following and researching this story since the days shortly after Getty's disappearance. Fox's writing captures the voices of models and maids, mistresses and mothers, carabinieri and club-owners, drug dealers and drivers, alongside the Getty family members themselves to paint an evocative portrait of an era and one of its most misunderstood participants.*

*An intimate history of the Getty Museum from its early relatively modest days until it unexpectedly received the endowment that made it the world's wealthiest museum and eventually a private foundation of worldwide influence. Following the death of Getty in 1976 it was necessary to adapt the institution to radically different circumstances and much higher expectations, virtually none of which had been anticipated. This evolution was guided by some of the most prominent managers and historians available, but was also marred by some unfortunate and widely publicized mis-steps that made the transition unusually erratic. Institutional histories are normally written and published by the institutions themselves, with the result that its blunders or mistakes are normally glossed over. The present memoir is meant to be an objective and relatively frank appraisal of the history of this exceptional institution by an early participant in the process.*

*This revised and updated edition of the Guide to the Getty Villa is published in conjunction with the reinstallation of the Villa collection galleries. It offers an engaging introduction to the Villa's history as well as an up-to-date look at its gardens, historical rooms, and galleries. It begins with the history of the site, recounting how, as J. Paul Getty's art collection grew, he decided to house it in a replica of the ancient Roman villa at Herculaneum now known as the Villa dei Papiri. The second chapter chronicles the destruction of Herculaneum in 79 CE during the eruption of Mount Vesuvius, the Villa dei Papiri's rediscovery in the eighteenth century, and more recent archaeological discoveries at the site. The third chapter leads readers on a tour of the Getty Villa, from the cobblestone "Roman road" through the outdoor theater, atrium, peristyles, and gardens; it includes detailed descriptions of special rooms such as the Basilica, the Room of Colored Marbles, the Temple of Herakles, and the Tablinum. The final chapter recounts how Getty began collecting art in the late 1930s, how the collection grew in the decades before and after his death in 1974, and how the displays at the Villa have evolved along with the collection, culminating in the chronological arrangement to be completed in early 2018. This edition includes a new director's foreword as well as a revised and refreshed main text, including an entirely new chapter. It also includes updated illustrations throughout the book and updated floor plans of the newly reinstalled Villa.*

*The Stahl House: Case Study House #22, The Making of a Modernist Icon is the official autobiography of this world-renowned architectural gem by the family that made it their home. Considered one of the most iconic and recognizable examples of mid-century modern homes in the world, the Stahl House was first envisioned by the owners Buck and Carlotta Stahl, designed by architect Pierre Koenig, and immortalized by photographer Julius Shulman. This 1960 glass-and-steel home in the Hollywood Hills has come to embody the idealism of a generation in search of the American dream. As one of the Case Study Houses designed between 1945 and 1966 under the vision of John Entenza and Arts & Architecture magazine, this was an affordable yet progressive design experiment to address the postwar housing shortage. The result--a two-bedroom, 2,300-square-foot house with glass walls that disappear into a 270-degree panorama of Los Angeles--became Koenig's pièce de résistance. The Stahl House broke rules, defied building codes that discouraged building on cliffs, and expanded the possibilities of residential architecture. The glass walls blurred the boundary between indoors and outdoors. The building seemed to merge with the city itself, the lines of the structure aligning with the geometry of the city's gridded streets. "Los Angeles becomes an extension of the house and vice versa," Koenig said. "The house is just a part of the city." The book shares the never-before-told inside story by the Stahl family's adult children who grew up there and still graciously give home tours to fans from around the world. Through extensive research and interviews, historical information and personal photos are featured. This includes Buck Stahl's initial vision of the home with his own DIY schematic model for how to build on the complicated site. It also includes blueprints, floor plans, and sketches by Pierre Koenig, as well as Julius Shulman's renowned photographs. Additionally, photographs of the house used in high-end, fashion ad campaigns and film and television are also included, cementing The Stahl House's prominence in contemporary culture.*

Growing Up Getty

My Life with J. Paul Getty

Painfully Rich

Traces the life and infamous 1973 abduction of the Getty Oil founder's grandson, offering insight into J. Paul Getty III's questionable social life, his family's abandonment, and the audacious ransom demanded by the kidnapper.

Stone is one of the oldest building materials, and its conservation ranks as one of the most challenging in the field. The use of alkoxysilanes in the conservation of stone can be traced as far back as 1861, when A. W. von Hoffman suggested their use for the deteriorating limestone on the Houses of Parliament in London. Alkoxysilane-based formulations have since become the material of choice for the consolidation of stone outdoors.I This volume, the first to cover comprehensively alkoxysilanes in stone consolidation, synthesizes the subject's vast and extensive literature, which ranges from production of alkoxysilanes in the nineteenth century to the extensive contributions from sol-gel science in the 1980s and 90s. Included are a historical overview, an annotated bibliography, and discussions of the following topics: the chemistry and physics of alkoxysilanes and their gels; the influence of stone type; commercial and noncommercial formulations; practice; lab and field evaluation of service life; and recent developments. This book is designed for conservators, scientists, and preservation architects in the field of stone conservation and will also serve as an indispensable introduction to the subject for students of art conservation and historic preservation.

Inspired by the most infamous incident involving the Getty family - now a major film directed by Ridley Scott, starring Mark Wahlberg, Michelle Williams and Oscar® Nominee Christopher Plummer Oil tycoon J. Paul Getty created the greatest fortune in America - and came close to destroying his own family in the process. Of his four sons who reached manhood, only one survived relatively unscathed.

One killed himself, one became a drug-addicted recluse and the third had to bear the stigma all his life of being disinherited in childhood. The unhappiness continued into the next generation, with the name Getty, as one journalist put it, 'becoming synonymous for family dysfunction'. Getty's once favourite grandson John Paul Getty III was kidnapped by the Italian mafia who cut off his ear to raise a ransom and, after a lifetime of drink and drugs, became a paraplegic. His granddaughter Aileen has AIDS. And the Getty family itself has been torn apart by litigation over their poisoned inheritance. But did the disaster have to happen? John Pearson, who has specialized in biographies of families as varied as the Churchills, the British Royal Family, the Devonshires and the Krays, sets out to find the answer. The result, first published in 1995, is a fascinating saga of an extraordinary dynasty. He traces much of the trouble to the bizarre character of the avaricious, sex-obsessed billionaire, J. Paul Getty himself - and demonstrates how much of his behaviour has been repeated in succeeding generations. He describes the famous kidnapping of his grandson in graphic detail, revealing how the old man's attitude added considerably to the boy's sufferings. And he shows how the family has coped with the latest modern scourges: drugs and AIDS. For All the Money in the World is not a hopeless story. While some of the family have been damaged by the Getty legacy, others have saved themselves from disaster, most notably the cricket-loving philanthropist, J. Paul Getty Jr. Pearson's moving story of his recovery from drugs and deep personal tragedy shows that there is hope for future generations of this stricken family - and demonstrates that money can be used to buy survival and even happiness.

The original Getty Museum, housed in a replica of a Roman Villa on a site overlooking the Pacific Ocean, is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful, but topographically challenging, site into one that could continue to accommodate the splendid Museum building and also provide for an outdoor theater, laboratories for conservation work and research, offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum, site plans, and architectural elevations.

This collection of unique works by 150 Los Angeles graffiti and tattoo artists represents an unprecedented collaboration across the city's diverse artistic landscape. Many graffiti artists carry sketchbooks, called black books, and they ask crew members and others whose work they admire to inscribe their books with lettering or drawings including Angst, Axis, Big Sleeps, Chaz, Cre8, Defer, EyeOne, Fishe, Heaven, Hyde, Look, ManOne, and Prime, to consider the idea of a citywide graffiti black book. During visits to the Getty Center, the artists viewed rare books related to calligraphy and letterforms, including works by Albrecht Dürer and Leonardo da Vinci. The artists instantly and were particularly drawn to a liber amicorum (book of friends), a form of autograph book popular in the seventeenth century. Passed from hand to hand, it was filled with signatures, poetry, and coats of arms, like a black book from another era. Inspired by this meeting of minds across centuries, these artists became both creators and contribute. Eventually 150 Los Angeles artists decorated 143 individual pages. These were bound together into an exquisite artists' book that became known as the Getty Graffiti Black Book. This publication reproduces each page from the original artists' book and recounts the story of an unprecedented collaboration across the diverse art

A tragic family history told in a collection of imaginary letters to a famed collector, Moise de Camondo Letters to Camondo is a collection of imaginary letters from Edmund de Waal to Moise de Camondo, the banker and art collector who created a spectacular house in Paris, now the Musée Nissim de Camondo, and filled it with the greatest art. Camondos were a Jewish family from Constantinople, "the Rothschilds of the East," who made their home in Paris in the 1870s and became philanthropists, art collectors, and fixtures of Belle Époque high society, as well as being targets of antisemitism—much like de Waal's relations, the Ephrussi family, to whom they were connected. Moise de Waal, with art for his son, Nissim; after Nissim was killed in the First World War, the house was bequeathed to the French state. Eventually, the Camondos were murdered by the Nazis. After de Waal, one of the world's greatest ceramic artists, was invited to make an exhibition in the Camondo house, he began to write letters to Moise de Camondo, melancholy, family, art, the vicissitudes of history, and the value of memory.

In January 1469, the accounts of Duke Charles the Bold of Burgundy (reigned 1467-77) record a payment to the noted scribe Nicolas Spierinc 'for having written ... some prayers for my lord.' Seven months later, the same accounts record a payment to the illuminator Lievin van Lathern for twenty-five miniatures plus borders and decorated initials. Antoine de Schryver - an internationally renowned art historian - presents a thoroughly researched and balanced argument suggesting that the documents refer to the exquisite prayer book of Charles the Bold which can now be found in the collection of the J. Getty Museum. --book jacket.

*Inside the Getty takes readers on a tour from the Getty Villa to the Getty Center, from the Museum's original home in J. Paul Getty's house to the many labs, libraries, and galleries that fill the Center in Brentwood today. Readers will discover more about the history and daily operations of this institution. The second edition refreshes the illustration program with more recent photography and brings the text up to date with new information about some of the Museum's most prominent new acquisitions, the Getty Research Institute's holdings, the work done by the Getty Conservation Institute and the Getty Foundation, and changes to Getty operations site-wide.*

*Nefertari, the favorite queen of Rameses II, was buried about 3,200 years ago in the most exquisitely decorated tomb in Egypt's Valley of the Queens. Discovered in 1904 by Italian explorer Ernesto Schiaparelli, the tomb had deteriorated to a disastrous extent when emergency consolidation began in 1986. The six-year conservation project of the GCI and the Egyptian Antiquities Organization was completed in 1992. In this fascinating exploration of the tomb, John McDonald takes the reader through each chamber, describing the hieroglyphic messages depicted in the brilliant wall paintings and discussing the images within the context of Egyptian beliefs. He also offers insights into the life of Nefertari, the development and symbolism of royal tombs, and the construction and decoration of the tombs. House of Eternity is illustrated with historic black-and-white images and more recent color photographs that reveal the vibrant beauty of the wall paintings. In November 1995 the tomb was reopened to the public. Because of the potential for damage and deterioration to the fragile wall paintings caused by increased humidity, carbon dioxide, and microbiological activity introduced by visitors to the tomb, the number permitted to enter daily is strictly controlled by the Egyptian authorities. This book results from a desire of the GCI to enrich visitors' experience by providing a detailed descriptive walk-through of the tomb while conveying a strong message regarding the need for conservation and continuous monitoring to ensure the long-term survival of the tomb's paintings. Visitors to the tomb and the armchair traveler alike will find House of Eternity to be an excellent resource for understanding Nefertari's journey to the afterlife and for appreciating the extraordinary depictions of that journey on the walls of Nefertari's tomb.*

*Jane Green reimagines the life of troubled icon Talitha Getty in this transporting story from a forgotten chapter of the Swinging '60s Claire grew up in a small town, far from the glitz and glamour of London. On the cusp of adulthood, she yearns for the adventure and independence of a counterculture taking root across the world. When she's offered the chance to start anew in Morocco, in a palace where famous artists and musicians—even the Rolling Stones—have been known to visit, she seizes the chance. Arriving in Marrakesh, she's quickly swept up in a heady world of music, drugs and communal living. And Talitha Getty, socialite wife of a famous oil heir, seems to preside over the whole scene. As Claire is pulled into her orbit, the realities of Talitha's precarious existence set off a chain of dangerous events that could alter Claire's life forever.*

*In his candid and witty autobiography, famed tycoon J. Paul Getty invites readers to glimpse the twentieth century from the vantage point of a man who lived, as he puts it, "through the most exciting and exhilarating - and most turbulent and terrible - eight decades of human history." Whether describing how he amassed his staggering fortune, recounting conversations with intriguing personalities of the day, or frankly discussing his marriages and liaisons, J. Paul Getty sets the record straight - once and for all. He even speaks honestly about his notorious stinginess and the bizarre problems faced by the impossibly wealthy.*

This volume analyzes the extraordinary patronage of modern architecture that the Tremaine family sustained for nearly four decades in the mid-twentieth century. From the late 1930s to the early 1970s, two brothers, Burton G. Tremaine and Warren D. Tremaine, and their respective wives, Emily Hall Tremaine and Katharine Williams Tremaine, commissioned approximately thirty architecture and design projects. Richard Neutra and Oscar Niemeyer designed the best-known Tremaine houses; Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement. Focusing on the Tremaines’ houses and other projects, such as a visitor center at the meteor crater in Arizona, this volume explores the Tremaines’ architectural patronage in terms of the family’s motivations and values, exposing patterns in what may appear as an eclectic collection of modern architecture. Architectural historian Volker M. Welter argues that the Tremaines’ patronage was not driven by any single factor; rather, it stemmed from a network of motives comprising the clients’ practical requirements, their private and public lives, and their ideas about architecture and art.

This volume provides a striking account of the life, destruction, rediscovery, and cultural significance of the ancient Roman town of Herculaneum and one of its grandest residences—the House of the Bicentenary. This volume vividly recounts, for general readers, the Roman town of Herculaneum, destroyed by the eruption of Mount Vesuvius in 79 CE and uniquely preserved for nearly two thousand years. Initial chapters offer an engaging historical overview of the town during antiquity, including the riveting story of its rediscovery in the eighteenth century, excavation in the nineteenth and twentieth centuries, and broad cultural significance in modern times. Subsequent chapters offer an interpretive tour of the ancient town, then focus on one of Herculaneum’s grandest and most beautifully decorated private residences, known as the House of the Bicentenary. Located on the town’s main street, it has a range of features—original rooms, magnificent wall paintings and mosaics, and remarkable documents—that illuminate daily life in the ancient world. Final chapters bring the story up to date, including recent discoveries about the site and its famous papyrus manuscripts, as well as ongoing conservation initiatives.

When life (in a global pandemic) imitates art . . . Van Gogh’s Starry Night made out of spaghetti? Cat with a Pearl Earring? Frida Kahlo self-portraits with pets and toilet paper? While the world reeled from the rapid spread of the novel coronavirus (COVID-19), thousands of people around the globe, inspired by challenges from Getty and other museums, raided toy chests, repurposed pantry items, and enlisted family, roommates, and animals to re-create famous works of art at home. Astonishing in their creativity, wit, and ingenuity, these creations remind us of the power of art to unite us and bring joy during troubled times. Off the Walls: Inspired Re-Creations of Iconic Artworks celebrates these imaginative re-creations, bringing highlights from this challenge together in one whimsical, irresistible volume. History and Heritage

The Bestiary in the Medieval World

A “thrilling, well-researched” account of years of scandal at the prestigious Getty Museum (Ulrich Boser, author of The Gardner Heist). In recent years, several of America’s leading art museums have voluntarily given up their finest pieces of classical art to the governments of Italy and Greece. Why would they be moved to such unheard-of generosity? The answer lies at the Getty, one of the world’s richest and most troubled museums, and scandalous revelations that it had been buying looted antiquities for decades. Drawing on a trove of confidential museum records and candid interviews, these two journalists give us a fly-on-the-wall account of the inner workings of a world-class museum, and tell a story of outlandish characters and bad behavior that could come straight from the pages of a thriller. “In an authoritative account, two reporters who led a Los Angeles Times investigation reveal the details of the Getty Museum’s illicit purchases, from smugglers and fences, of looted Greek and Roman antiquities. . . . The authors offer an excellent recap of the museum’s misdeeds, brimming with tasty details of the scandal that motivated several of America’s leading art museums to voluntarily return to Italy and Greece some 100 classical antiquities worth more than half a billion dollars.” –Publishers Weekly, starred review “An astonishing and penetrating look into a veiled world where beauty and art are in constant competition with greed and hypocrisy. This engaging book will cast a fresh light on many of those gleaming objects you see in art museums.”

–Jonathan Harr, author of The Lost Painting

An enthralling and comprehensive look into the contemporary state of one of the wealthiest—and most misunderstood—family dynasties in the world, perfect for fans of Succession, The House of Gucci, The Cartiers, and Fortune’s Children. Oil magnate J. Paul Getty, once the richest man in the world, is the patriarch of an extraordinary cast of sons, grandchildren, and great-grandchildren. While some have been brought low by mental illness, drug addiction, and one of the most sensational kidnapping cases of the 20th century, many of Getty’s heirs have achieved great success. In addition to Mark Getty, a cofounder of Getty Images, and Anne G. Earhart, an award-winning environmentalist, others have made significant marks in a variety of fields, from music and viniculture to politics and LGBTQ rights. Now, across four continents, a new generation of lively, unique, and even outrageous Gettys are emerging, and not coasting on the dynasty’s still-immense wealth. August Getty designs extravagant gowns worn by Katy Perry, Cher, and other stars; his sibling, Nats—a fellow LGBTQ rights activist who announced his gender transition following his wedding to transgender icon Gigi Gorgeous—produces a line of exclusive streetwear. Their fascinating cousins include Balthazar, a multi-hyphenate actor-director-DJ-designer, and Isabel, a singer-songwriter-MBA candidate. A far-flung yet surprisingly close-knit group, the ascendant Gettys are bringing this iconic family onto the global stage in the 21st century. Through extensive research, including access to J. Paul Getty’s diaries and love letters, and fresh interviews with family members and friends, Growing Up Getty offers an inside look into the benefits and burdens of being part of today’s world of the ultra-wealthy.

The first-ever compilation of the luxurious interiors from the influential designer and philanthropist Ann Getty. For those who are passionate about fine interiors, the preservation of antiques, the highest level of craftsmanship, and respect for architectural integrity, this book offers an insider’s view of the exquisite designs of Ann Getty. Fluent in classical styles and periods and known for sourcing her vast array of objects and opulent materials from across the globe, Getty creates interiors that are steeped in historical style yet remain fresh and vibrant for today’s clientele. From the exceptional residence she and her music-composer husband, Gordon Getty, use for entertaining and displaying their world-class collection of art and antiques, to the comfortable yet elegant townhouse she designed for a stylish young family, the book showcases richly detailed interiors that are coveted by design enthusiasts and collectors. Featured are pieces from Getty’s successful furniture line of original designs inspired by the renowned Getty collection as well as her own extensive travel and design studies. This intimate look, Getty’s first-ever monograph, demonstrates how to combine objects from different time periods and styles in a sumptuous atmosphere rich in bold colors, vibrant textures, and classic elegance.

The true story of the Getty family as featured in the TV series Trust and the movie All the Money in the World Boardroom battles, sex, money, drugs, power, crime, tragedy, and family intrigue; at the centre stands the figure of John Paul Getty, the grandfather, an eccentric oil billionaire believed to have been the richest man in the world. Married and divorced five times, he had five sons, and yet was cheated of his dearest ambition-to found an oil dynasty. His angelic youngest son died at age twelve after years of illness. Of the remaining four sons, three proved to be hopeless businessmen and, one by one, dropped out of Getty Oil. Only one had the talent to take the helm of the family business, and he was groomed for the part. And then he killed himself. With his cherished hopes of a family dynasty crushed, John Paul built a magnificent museum as a monument for all time to his success. But money tainted even his philanthropy; the Getty Museum has become feared for its wealth and ability to pillage the art market. In the manoeuvring that followed John Paul's death, Getty Oil was sold; Texaco acquired it for \$9.9 billion, the biggest corporate takeover in history. Award-winning journalist and writer Russell Miller brings us the extraordinary and often disturbing story of a unique American family. From the pioneering days in the Oklahoma oil fields to the bitter struggles over Getty Oil, we follow the rise and fall of three generations, all cursed with the Midas touch.

The versatility of modern commercial house paints has ensured their use in a broad range of applications, including the protection and decoration of historic buildings, the coating of toys and furniture, and the creation of works of art. Historically, house paints were based on naturally occurring oils, gums, resins, and proteins, but in the early twentieth century, the introduction of synthetic resins revolutionized the industry. Good quality ready-mixed products became available and were used by artists worldwide. While the ubiquity of commercial paints means that conservators are increasingly called upon to preserve them, such paints pose unique challenges including establishing exactly which materials are present. This book traces the history of the household paint industry in the United States and United Kingdom over the first half of the twentieth century. It includes chapters on the artistic use of commercial paints and the development of ready-mixed paints and synthetic resins: oil paints, oleoresinous gloss and enamel paints, water paints, nitrocellulose lacquers, oil-modified alkyds, and emulsion paints; and the conservation implications of these materials. The book will be of interest to conservators and conservation scientists working on a broad range of painted surfaces, as well as curators, art historians, and historians of architectural paint.

*The first study devoted to classical art’s vital creative impact on the work of the Flemish painter Peter Paul Rubens. □For the great Peter Paul Rubens (1577–1640), the classical past afforded lifelong creative stimulus and the camaraderie of humanist friends. A formidable scholar, Rubens ingeniously transmitted the physical ideals of ancient sculptors, visualized the spectacle of imperial occasions, rendered the intricacies of mythological tales, and delineated the character of gods and heroes in his drawings, paintings, and designs for tapestries. His passion for antiquity profoundly informed every aspect of his art and life. Including 170 color illustrations, this volume addresses the creative impact of Rubens’s remarkable knowledge of the art and literature of antiquity through the consideration of key themes. The book’s lively interpretive essays explore the formal and thematic relationships between ancient sources and Baroque expressions: the significance of neo-Stoic philosophy, the compositional and iconographic inspiration provided by exquisite carved gems, Rubens’s study of Roman marble sculpture, and his inventive translation of ancient sources into new subjects made vivid by his dynamic painting style. This volume is published to accompany an exhibition on view at the J. Paul Getty Museum at the Getty Villa from November 10, 2021, to January 24, 2022.*

*Theodora "Teddy" Getty Gaston—now one hundred years old—reveals the glamorous yet painful story of her marriage to J. Paul Getty. As formidable as Getty was, his wife was equally strong-minded and flamboyant, and their clutches and clashes threw off sparks. She knew the vulnerable side of Getty—he underwent painful plastic surgery and suffered terrible phobias—that few, if any, saw. A vivid love story, Alone Together is also a fascinating glimpse into the twentieth century from the vantage point of one of its most remarkable couples. This is how the other half lived—dinner dances, satin gowns, beach houses, hotel suites, first-class cabins on the Queen Mary. Teddy’s extra-ordinary life story moves from the glittering nightclubs of 1930s New York City to Mussolini’s Italy, where she was imprisoned by the fascist regime, to California in the golden postwar years, where Paul and Teddy socialized with movie stars and the elite. But life with one of the world’s richest men wasn’t all glitz and glamour. Though terrifically charismatic in person, Getty grew more miserly as his wealth increased. Worse, he often left Teddy and their son, Timothy, behind for years at a time while he built planes for the war effort in the 1940s or brokered oil deals—he was the first American to lease mineral rights in Saudi Arabia, which made him, at his death, the richest man in the world. Even when Timothy was diagnosed with a brain tumor, Getty complained about medical bills and failed to return to the United States to support his wife and son. When Timothy died at age twelve, the marriage was already falling apart. Teddy’s unrelenting spirit, her valiant friendship, and her winning lack of vanity transform what could have been a sob story into a nuanced portrait of a brilliant but stubbornly difficult man and the family he loved but left behind, as well as an enchanting view into a bygone era. This was a life lived from the heart.*
