Life-changing book about how to change the world to make it a better place and build a better world. Make your mind and body healthy by understanding interconnection between mind, body and soul. Quantum physics view on soul - proof and science of the soul. Turn your mind towards inner world and create your own reality: change your mind - change your life. You will find this all in one book with beautiful illustrations! We start wondering how to change the world when we see unfairness and injustice, we lack happiness and feel disappointed with someone else. Unfortunately most of us are turning the mind and attention towards the outer world, whilst the keys to our personal health and happiness are inside of us and they do not depend on anyone or anything else around us! You don't believe in that? In this book you will find the proofs, most of which are scientifically proven. This book is a fusion of philosophy, Eastern medicine and quantum physics, that all together provide an unusual view on the reflexive need of modern people to change this World. The reader will be taken on a journey of discovery beginning with the factors of health and the significant role played by mindset, to the definition of soul from the perspective of quantum physics and the principles of interacting with the quantum reality, and ultimately arrive at the truly effective creation of a happy subjective reality within which to live.

Can Your Smartphone Change the World? is a twenty-first-century guide for anyone who has access to a smartphone. This how-to manual looks at specific ways you can create social change through the tap of a screen. Filled with examples of successful hashtag campaigns, viral videos and new socially conscious apps, the book provides practical advice for using your smartphone as a tool for social justice. This is the first book in the PopActivism series, which includes Can Your Outfit Change the World? and Can Your Conversations Change the World? (coming fall 2018).

Radical activist, thinker, and comrade of Walter Rodney, Andaiye was one of the Caribbean's most important political voices. For the first time, her writings are published in one collection. Through essays, letters, and journal entries, Andaiye's thinking on the intersections of gender, race, class, and power are powerfully articulated, Caribbean histories emerge, and stories from a life lived at the barricades are revealed. We learn about the early years of the Working People's Alliance, the meaning and impact of the murder of Walter Rodney and the fall of the Grenada Revolution. Throughout, we bear witness to Andaiye's acute understanding of politics rooted in communities and to her daily lives of so-called ordinary people. Featuring forewords by Clem Seecharan and Robin DG Kelley, these texts will become vital tools in our own struggles to "overcome the power relations that are embedded in every unequal facet of our lives."

"The ideas of capitalism's most vigorous and eloquent enemy have been enlightening in every era, the author contends, and our current historical situation of free-market extremes suggests that reading Marx may be more important now than ever. Hobsbawm begins with a consideration of how we should think about Marxism in the post-communist era, observing that the features we most associate with Soviet and related regimes--command economies, intrusive bureaucratic structures, and an economic and political condition of permanent war--are neither derived from Marx's ideas nor unique to socialist states. Further chapters discuss pre-Marxian socialists and Marx's radical break with them, Marx's political milieu, and the influence of his writings on the anti-fascist decades, the Cold War, and the post--Cold War period. Sweeping, provocative, and full of brilliant insights,

How to Change the World challenges us to reconsider Marx and reassess his significance in the history of ideas."--Publisher's website.

Eva Mozes Kor was just ten years old when she arrived in Auschwitz. While her parents and two older sisters were taken to the gas chambers, she and her twin, Miriam, were herded into the care of the man known as the Angel of Death, Dr. Josef Mengele. Subjected to sadistic medical experiments, she was forced to fight daily for her and her twin's survival. In this incredible true story written for young adults, readers learn of a child's endurance and survival in the face of truly extraordinary evil and Eva's recovery and her controversial but often misunderstood decision to publicly forgive the Nazis. Readers will learn of how she triumphed over unfathomable pain and suffering into a life-long work for peace, human rights, and Holocaust education. The new edition provides interesting details and important context to the events related in the original story. A new

Afterword by publisher Peggy Paterney offers a richer portrayal of Eva as a person, the truth behind the controversies, and the eventual last ten years of her life. Protest illustrates Campaign for change. Stand up for your future. Political turmoil, shocks and upsets have rocked the world in the past few years, and it has never been more important to find your voice and stand up for what you believe in. From award-winning journalist Sue Turton, with hilarious illustrations from activist-illustrator Alice Skinner, this is a powerhouse guide to politics and activism for teens everywhere. Featuring contributions from C4 anchor Jon Snow, Avaaz.com founder Jeremy Heimans, leader of Hong Kong's Umbrella Revolution Joshua Wong and more, Turton discusses the political system that rules our daily lives and exposes its flaws. She also gives readers all the inspiration and empowerment they need to get out there, challenge the status quo and change the world themselves. Be it disrupting the system from within by joining political parties or inspiring change through protest, Turton shows young activists how their actions and words really can make a difference. With a toolkit demonstrating how to avoid fake news, triumph in debates and grab the spotlight for your campaign, this is the ultimate teen guide to changing the world.

In this empowering book, Robert E. Quinn, author of the highly successful and influential Deep Change, gives readers the courage to use personal transformation to positively impact their home life, work life, and communities -- to be what he refers to as "inner-directed and outer-focused." We are all potential change agents, but most of us are trapped by belief that we as individuals cannot make a difference. Informed by the teachings of Jesus, Gandhi, and Martin Luther King, Jr. -- three of the most successful change agents ever -- Quinn outlines eight steps each of us can take to move ourselves and others to the highest levels of excellence. Following his advice, each of us can access and apply the power that lies within us in ways that will change our world for the better.

*Kids teaching kids how to make the world happier, prettier, friendlier, kinder, safer, smarter, accepting, and loving. It's easy! HOW TO CHANGE THE WORLD IN 12 EASY STEPS was inspired by Eva Kor, a child survivor of Auschwitz. She always stressed to young audiences that even though a child, they had the power to change the world. Easy, simple gestures from picking up a piece of trash on the sidewalk, tidying a bedroom, accepting someone who is different, along with other gestures of kindness and thoughtfulness can make a big difference. The book could also serve as a starting point for a conversation on prejudice. Marie Letourneau's illustrations capture the warmth at the heart of this book, making it a fun, but life-changing read.*

*Argyle Fox, with his signature style, wants to play outside on a springtime day, but the wind is wreaking havoc with his fun and games. As soon as he builds a card tower, climbs into a giant spider web, or takes up his pirate sword, here comes the wind: Woosh! Mama Fox tells grumpy Argyle that if he thinks long enough, he will come up with something to do. Following his mother's suggestion and inspired by her knitting, he works all the pieces of his day together and creates the perfect solution. The story of Argyle teaches that failure is often a path to success and celebrates perseverance, creative thinking, and an old-fashioned springtime activity.*

*A humorous look at world history and some of the events that shaped the world we know today.*

*How to make disciples using hospitality Deep down, every Christian wants to make a difference. But for many of us, the years come and go and we never do. The good news is: change can be as simple as opening your front door. The Simplest Way to Change the World is about biblical hospitality and its power for the gospel. Since people will sooner enter a living room than a church, hospitality is a natural and effective way to build relationships for Christ. You'll learn: How the home can be a hub for community How hospitality leads to joy, purpose, and belonging How it grows families to love the things of God How it's not about being the perfect host How to be hospitable regardless of your living space Hospitality is a beautiful legacy of the church, and a great way to make disciples. As you open your life up to others, you share in the very character of God and experience His joy. And you get to witness lives change—including your own. Includes 20+ creative ideas for hospitality, plus questions for small groups*

The call to make the world a better place is inherent in the Christian belief and practice. But why have efforts to change the world by Christians so often failed or gone tragically awry? And how might Christians in the 21st century live in ways that have integrity with their traditions and are more truly transformative? In To Change the World, James Davison Hunter offers persuasive—and provocative—answers to these questions. Hunter begins with a penetrating appraisal of the most popular models of world-changing among Christians today, highlighting the ways they are inherently flawed and therefore incapable of generating the change to which they aspire. Because change implies power, all Christian eventually embrace strategies of political engagement. Hunter offers a trenchant critique of the political theories of the Christian Right and Left and the Neo-Anabaptists, taking on many respected leaders, from Charles Colson to Jim Wallis and Stanley Hauerwas. Hunter argues that all too often these political theologies worsen the very problems they are designed to solve. What is really needed is a different paradigm of Christian engagement with the world, one that Hunter calls "faithful presence"—an ideal of Christian practice that is not only individual but institutional; a model that plays out not only in all relationships but in our work and all spheres of social life. He offers real-life examples, large and small, of what can be accomplished through the practice of "faithful presence." Such practices will be more fruitful, Hunter argues, more exemplary, and more deeply transfiguring than any more overtly ambitious attempts can ever be. Written with keen insight, deep faith, and profound historical grasp, To Change the World will forever change the way Christians view and talk about their role in the modern world.

This inspirational book tells the stories of more than 50 of today's teenagers who've dared to change the world they live in. It's been written to show other teens they can do the same. Bestselling author Margaret Rooke asks teens about their experiences of being volunteers, social entrepreneurs and campaigners, online and beyond. They explain how they have survived in a world often obsessed by celebrity, social media and appearance, by refusing to conform to other's expectations. If you want to achieve against the odds and create genuine impact, this book may be the encouragement you need. The interviews cover race, sexuality, violence, grief, neurodiversity, bullying and other issues central to life today. Read about teens from around the world including Trisha, 18, who has invented a way of preventing bullying online Dillon, 18, who takes damaged and donated clothing and upcycles it for the homeless Guro, 13, who persuaded a pop band to portray women differently in its video "Happy D", 19, who learned to read at 14 and found ways to build his confidence Heraa, 19, who fights

against child online. Euben, 18, bullied because of Down's Syndrome, now a successful actor Lucy who, at 14, walked into Tesco head office and persuaded them not to sell eggs from caged hens. Cameron, 17, who has cerebral palsy and was side-lined by soccer teams who set up his own team 'Adversity United' Alex, 18, who broke his back on his 15th birthday and says his injury has taught him to care for others Amika, 18, who fights 'Period Poverty' Jesse, 15, who's seven feet tall and embraces his stature Billy, 18, who wore full make up every day at high school And many more.

A book of transformation and guidance that cheers the spirit and awakens a sense of personal responsibility. We use words every day to communicate, to express our feelings and thoughts, but we often forget how powerful they can be and how important it is to choose them with care if we wish to attract love, happiness and success.With honesty and warmth, Andrea Gardner shares her own ups and downs on her journey to changing her words and her world, and provides the inspiration and tools that you need to find your own true purpose and transform your life to match your dreams. From attracting prosperity and improving your relationships, to finding your true purpose and serving the world, Andrea touches on a wide variety of themes, and helps you laugh at your failings with love, and then pick yourself up and carry on to the wonderful life that you truly deserve. This is a light and entertaining read, but it contains a very powerful message that may very well change your world for good.

This book contains 31 suggestions and activities that kids can do that help the environment and other people. UNESCO estimates that eleven percent of primary school-age children—seventy-two million worldwide—are not enrolled in or attending school. Children who do attend may find themselves in schools that lack adequate space, facilities, or resources—impossible situations for learning. It is against this backdrop of profound need that One Laptop per Child (OLPC) emerged in 2005. The mission of the organization is to "empower the children of developing countries to learn." They created the first affordable netbook specifically built to withstand harsh climates and the handling of young children—the bright green and white XO. At the 2005 World Economic Forum, Nicholas Negroponte, the MIT researcher who co-founded the Media Lab and OLPC, introduced the XO laptop to the world and described a new approach to changing education in developing countries. First, children must have access to information (through low-cost data communications) and the tools to educate themselves (affordable computers and learning software). Secondly, the fundamental approach to education must shift from passive knowledge acquisition to active construction of knowledge (learning how to learn). Thirdly, OLPC planned to build an organization with the capability to deliver these computers and support these shifts globally. It was an audacious vision of how to bring about a massive educational change. Learning to Change the World is the story of One Laptop per Child—a story that will resonate with entrepreneurs and social innovators in any field. OLPC is an example of a non-profit organization with aspirations for systemic change on a global scale, yet wrestling with tough questions that will be familiar to any social entrepreneur: how to ensure market forces support the scale up of a social program; how to balance the need to repeat past successes but still leave room for innovation; how to leverage a network to expand impact beyond your original capabilities; and how to help people without creating dependence. The authors set out to tell the real story of their journey—both successes and failures. For both ardent supporters and critics alike, this book presents both an invitation and a challenge: to set aside preconceived notions about OLPC and read the inside story of the origins and evolution of the organization.

In his too-short life, Aaron Swartz reshaped the Internet, questioned our assumptions about intellectual property, and touched all of us in ways that we may not even realize. His tragic suicide in 2013 at the age of twenty-six after being aggressively prosecuted for copyright infringement shocked the nation and the world. Here for the first time in print is revealed the quintessential Aaron Swartz: besides being a technical genius and a passionate activist, he was also an educator, governance, and civic. The Boy Who Could Change the World contains the life's work of one of the most original minds of our time.

Create a world-changing venture. Silicon Valley's latest trend for creating new ventures is based on trial and error: test market needs with new product concepts and a minimum amount of capital, expect that the product may not meet the market need, so fail fast and try another product with the hope that a product-market fit will eventually emerge. But this fail fast, step-and-pivot philosophy is like taking a random walk in the forest without a compass. If You Really Want to Change the World is about helping entrepreneurs find true north. Henry Kressel and Norman Winarsky—technologists, inventors, and investors with stellar track records—provide a guide for those who wish to create a market-leading company that will have a real impact: a disciplined and staged approach they have used to launch, invest in, and develop scores of highly successful companies. If You Really Want to Change the World leads entrepreneurs through the critical stages of venture development, from concept to acquisition or public offering to maintaining a rich culture of innovation in the company. It is a guide by innovators for innovators, with approaches that are practical and timeless. Drawing on the authors' experiences as well as those of their partners from around the world, Kressel and Winarsky share the stories of their triumphs and misses, demonstrate their method in action, and inspire their readers in the process. Something new and important is afoot. Nonprofit and philanthropic organizations are under increasing pressure to do more and to do better to increase and improve productivity with fewer resources. Social entrepreneurs, community-minded leaders, nonprofit organizations, and philanthropists now recognize that to achieve greater impact they must adopt a network-centric approach to solving difficult problems. Building networks of like-minded organizations and people offers them a way to weave together and create strong alliances that get better leverage, performance, and results than any single organization is able to do. While the advantages of such networks are clear, there are few resources that offer easily understandable, field-tested information on how to form and manage social-impact networks. Drawn from the authors' deep experience with more than thirty successful network projects, Connecting to Change the World provides the frameworks, practical advice, case studies, and expert knowledge needed to build better performing networks. Readers will gain greater confidence and ability to anticipate challenges and opportunities. Easily understandable and full of actionable advice, Connecting to Change the World is an informative guide to creating collaborative solutions to tackle the most difficult challenges society faces.

We live in a time of unprecedented change when it comes to women's lives. All around the world, women are demanding the safety, respect, and opportunities they have always deserved but seldom grasped. Have you ever stopped to wonder, "Where do I fit into this story?" Ronne Rock is a good person to ask. In this stirring book, she takes you on a global adventure to discover your divine design as a woman of influence and impact. Through powerful and personal stories of women in Africa, Asia, the Americas, and the Caribbean, you'll learn what it means to lead in a world where leadership isn't easy, how to serve with grace in cultures that aren't always graceful, and how to embrace your God-given physical, emotional, and spiritual DNA. As you discover the lives of real women who are influencing their communities with grace and gumption—even in countries where oppression weighs most heavily—you'll feel inspired to reclaim your God-designed influence and impact right where you are.

In 2004, a London-based community organization called We Are What We Do launched with the publication of a little book with a big idea: 50 simple actions to make the world a better place. Since then, Change the World for Ten Bucks has spawned a movement, multiple editions, and sales of over one million copies internationally. At last, here's the U.S. edition. Change the World for Ten Bucks delights and engages at every turn. It includes a postcard to send to someone who inspires you, two pages stuck together (don't throw your gum in the street!), tear-out tabs to make introductions to the neighbors, and dozens of other creative prompts for positive change.

*You are exactly what the world needs What if your search for meaning could solve the world's problems? What if everything you are passionate about could save a life or change history? Justin Dillon argues it can, and A Selfish Plan to Change the World shows how. In this paradigm-shifting new book, Dillon—the founder of Slavery Footprint and Made in a Free World—reveals the secret to a life of deep and lasting significance: the discovery that our need for meaning is inextricably linked to the needs of the world. A Selfish Plan to Change the World delivers a revolutionary method for meeting both needs. Drawing upon his own unlikely transformation from touring musician to founder of a global movement and telling the stories of other surprising world-changers, Dillon shows how to create a life of deep purpose by stepping into the problems of the world. A reader on a journey from sweatshops in India to punk rock concerts in Ireland, Dillon exposes the limitations of the "giving back" approach involving donations and volunteerism to reveal the unexpected power of "giving in" to pursue self-interest in a way that alters the very dynamics of the world's most challenging problems. A Selfish Plan to Change the World is your "self-help-others' guide to a life that matters, demonstrating how you can repurpose your existing talents, backstory, and networks to improve the lives of others. Changing the world no longer belongs only to martyrs and professional do-gooders. You can live an extraordinary life. You can change the world. All you ever needed was a plan.*

Now published in more than twenty countries, David Bornstein's How to Change the World has become the bible for social entrepreneurship—in which men and women around the world are finding innovative solutions to a wide variety of social and economic problems. Whether delivering solar energy to Brazilian villagers, expanding work opportunities for women in home-care agencies to serve poor people with AIDS in South Africa, or bridging the college-access gap in the United States, social entrepreneurs are pioneering problem-solving models that will reshape the 21st century. How to Change the World provides vivid profiles of many such individuals and what they have done. Endorsed by 56C&A initiatives, award-winning personal stories, anecdotes, and analysis. Readers will discover how one person can make an astonishing difference in the world. The case studies in the book include Jody Williams, who won the Nobel Peace Prize for the international campaign against landmines she ran by e-mail from her Vermont farmhouse; an established eighth-century computer schools in the slums of Brazil; and Diana Propper, who has used investment banking techniques to make American corporations responsible to environmental dangers. The paperback edition will offer a new foreword by the author that shows how the concept of social entrepreneurship has expanded.
