A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Now in its second edition, this ground-breaking book shares with you stories of life after death from the ghosts' own point of view. Some stories are tragic, some comical, some stunning and all of them fascinating. Meet Annabelle, a seven-year-old ghost in pink pajamas who was desperately looking for her family, or Lydia, a ghost who was being haunted by the living. There are more unforgettable stories in this poignant, unnerving and hopeful view of life after death. Author and intuitive, Tina Erwin is not your ordinary psychic. She is a retired US Navy Commander AND a ghost helper, NOT a ghost hunter. She not only talks to the dead, she assists them in crossing over to the Heaven World. Listen as each ghost tells you: What it's like to be dead. What it's like to be driving down the road one minute and the next have no idea where you are. A soul's frustration as he talks to someone who cannot seem to hear him no matter what he does. Or how much some ghosts enjoy controlling the living from the grave. *Ghost Stories from the Ghosts' Point of View* is a haunting look at not only what it's like to be a ghost, but also what it's like to find yourself dead and have no idea what to do, where to go or how to change your surroundings. This ground-breaking book invites you to finally hear their stories, to understand the ghosts' point of view and learn what it feels like for them when they are embraced by the light of the Heaven World. Listen as each ghost tells you: What it's like to be dead. What it's like to be driving down the road one minute and then the next have no idea where you are. What it's like to be talking to someone who cannot seem to hear you no matter what you do. What it's like to still control the living from the grave. What it's like to be haunted in death by the living.

A USA TODAY BESTSELLER Star of *Kindred Spirits* and paranormal investigator Amy Bruni shares stories from her years of experiences with ghosts, organized around thirteen truths that guide her approach to the supernatural. Amy Bruni, co-star of *Kindred Spirits* and one of the world's leading paranormal investigators, has learned a lot about ghosts over her years of research and first-hand experience. Now, in *Life with the Afterlife*, she shares the insight she has gleaned and how it has shaped her unique approach to interacting with the spirits of the dead and those who encounter them. From her earliest supernatural encounters as a child, through her years appearing on *Ghost Hunters* and the creation of her company *Strange Escapes*, which offers paranormal excursions to some of America's most notoriously haunted destinations, and into her current work on *The Travel Channel's Kindred Spirits*, this book is full of astonishing and deeply moving stories of Amy's efforts to better understand the dead but not yet departed. Few people can claim the distinction of experiencing first-hand such occurrences as hauntings and the presence of poltergeists, but countless numbers of people are fascinated by these unexplainable events. Written by the world's most knowledgeable authorities in this field, the essays in this work promote a better understanding of the manifestations of and various reasons for hauntings and poltergeist phenomena. The experts come from such backgrounds as anthropology, history, philosophy, psychiatry, and sociology, and provide sober yet highly readable in-depth discussions of numerous ideas and rationalizations for hauntings and poltergeists, from a critical and scientific perspective. Divided into three major sections—sociocultural, physical and physiological, and psychological perspectives—this work provides an overview of each perspective and also addresses the general psychology of belief in the paranormal and how that belief relates to experiences with ghosts and poltergeists.

The Pulitzer Prize-winning author of *The Poison Squad* and *The Poisoner's Handbook* tells the amazing story of William James's quest for empirical evidence of the spirit world. What if a world-renowned philosopher and professor of psychiatry at Harvard suddenly announced he believed in ghosts? At the close of the nineteenth century, the illustrious William James led a determined scientific investigation into "unexplainable" incidences of clairvoyance and ghostly visitations. James and a small group of eminent scientists staked their reputations, their careers, even their sanity on one of the most extraordinary quests ever undertaken: to empirically prove the existence of ghosts, spirits, and psychic phenomena. What they pursued—and what they found—raises questions as fascinating today as they were then.
