This book is a practical guide to IPv6 addressing Unix and network administrators with experience in TCP/IP(v4) but not necessarily any IPv6 knowledge. It focuses on reliable and efficient operation of IPv6 implementations available today rather than on protocol specifications. Consequently, it covers the essential concepts, using instructive and thoroughly tested examples, on how to configure, administrate, and debug IPv6 setups. These foundations are complemented by discussions of best practices and strategic considerations aimed at overall efficiency, reliability, maintainability, and interoperation. Marilyn Reid helps readers run theatre and dance workshops in the nursery, school, community theatre, or anywhere else, and points them in the correct direction to find funding.

I have laid out for you in detail exactly how I started and ran my own carpet cleaning service. I had much success and I was never short of customers. Everything from thank you letters to sales letters is included with this e-book. All of it works very well. If you like people and hard work then you'll love cleaning carpets. See for yourself how easy it can be once someone else has laid down the ground work before. You simply just follow along. That way, you won't make the same mistakes that other make. Success is nearer and easier.

Starting your own business is one thing, but running and keeping it going is another. Annually, there are around 400,000 start-ups in the UK, but in a single year 300,000 businesses also fail. You owe it to yourself, your family, and your own ambition to make your business one of the success stories. This book helps you do just that. More than a “how to” book, Start Up and Run Your Own Business brings the skills of experienced blue-chip consultants to bear on your enterprise. Now in its 8th edition, the book lends a hand to new and established businesses alike, and thrives beyond the critical first few years. Author Jonathan Reuvit gives expert advice and commentary on all the key issues you need to address to make your business successful - from business definition, marketing and raising finance, to procurement, accountancy, IT, taxation and HR issues. This 8th edition is also fully revised and updated to cover all the ramifications of the current “credit crunch” conditions and economic downturn for growing and fledgling businesses. Combining best practice advice with common sense, this new edition continues this tradition, helping you make the most of your business venture.

An insider's guide to entrepreneurship that no business person should be without. Being an entrepreneur – owning and running your own business – is a great career option for those wanting to take control of their professional lives. It's a particularly great option for women; a credible and viable alternative to struggling up the (still male-dominated) corporate ladder. Hugely successful entrepreneur Diane Foreman also believes women have a unique role in — and duty to — inspire, mentor, sponsor and promote other women. In this candid, engaging and inspiring book she describes her own entrepreneurial journey, from being a complete greenhorn to heading up one of New Zealand's most successful businesses, being a major exporter and an EY Entrepreneur of the Year. It hasn't been easy and she's made plenty of mistakes. The secret, she says, is learning how not to repeat them. Full of tips, insider knowledge and how-tos, this is a book no business person can be without.
