Dory wanted to love again, but didn't see it happening any time soon. Besides (she thought), who would want a middle-aged divorcee with deep-rooted trust issues? Then one night, a silent prayer at a local gospel concert turned her world upside down. And then there's Mark-young, gentle, passionate, full of life, love and the Holy Spirit. Emotionally numbed from being hurt by a previous love-gone-wrong relationship, commitment is a foreign word in his vocabulary. Yet, there's a gnawing void in his heart that's longing to be filled. Can a head-strong, independent woman and a spontaneous, free-spirited man find love in each other and together start a brand new life? Will their spiritual convictions and Christian values be the strength of their relationship, or will their personal hang-ups be its derailment? Blackberry's Wine is an edgy inspirational romance novel filled with relationship issues, prayer, encouragement, honesty, hope, faith and transformation.

How many times do we persist to force something to work that we already know won' t work? Like holding views, leadership styles and culture that no longer serve our workforce and businesses? How many times do we conform to being stuck in the rut, the bare minimum, and the comfortable zone over restructuring the organizations to make things work, stopping the production of a product that is too nice to have but a money bleeder, and investing in what will give sustainable returns? Sometimes to save yourself, your business, you will need to do the hard things. Most people and businesses didn' t swiftly adapt to the Covid19 induced disruption. There were tears that were shed, short-term mistakes and losses made, anxiety and gut-wrenching fear experienced. However, that knowing that that was going to be the "New Normal" enabled them to do it afraid. And that ' s bravery. Leading at the edge of chaos, through crisis and recessions is not easy. Changing organizational culture which at times get you face to face with your own biases and ineffective outlook, is not easy. For a person who ' s used to having the final say is not easy to " allow " your workforce to be entrepreneurial and let their innovative ideas catch fire. For an ever-solo entrepreneur may not be easy to start delegating and " losing control " . All these necessary calls for change and transformation require you to be brave and courageous. They require brave leadership and courageous culture. In Gain Competitive Advantage, the author, Kgadi Mmanakana, introduces brave leadership and courageous culture as the birthplace of competitive advantage and shares 10 practical strategies that business leaders, team leaders, managers, divisional directors and executives can use to unlock employee engagement, drive team performance and build resilience to maintain relevance in a constantly changing world.

Two teen-age brothers vanish walking home from school, and are found dead more than twenty miles from their posh Trinity School on the upper west side of Manhattan. They both died from blunt force trauma, probably from falling from a tree or a cliff. Based on a real family tragedy from the late Middle Ages but set in today ' s New York, Monte Carlo and Westchester County, the story of who did what to whom in the troubled Coniston family is surprising and chilling.

A REESE'S BOOK CLUB PICK * NEW YORK TIMES BESTSELLER The refreshingly original and "startlingly hopeful" (Lisa Taddeo) debut memoir of an over-achieving young lawyer who reluctantly agrees to group therapy and gets psychologically and emotionally naked in a room of six complete strangers—and finds human connection, and herself. Christie Tate had just been named the top student in her law school class and finally had her eating disorder under control. Why then was she driving through Chicago fantasizing about her own death? Why was she envisioning putting an end to the isolation and sadness that still plagued her despite her achievements? Enter Dr. Rosen, a therapist who calmly assures her that if she joins one of his psychotherapy groups, he can transform her life. All she has to do is show up and be honest. About everything—her eating habits, childhood, sexual history, etc. Christie is skeptical, insisting that that she is defective, beyond cure. But Dr. Rosen issues a nine-word prescription that will change everything: “You don’t need a cure. You need a witness.” So begins her entry into the strange, terrifying, and ultimately life-changing world of group therapy. Christie is initially put off by Dr. Rosen’s outlandish directives, but as her defenses break down and she comes to trust Dr. Rosen and to depend on the sessions and the prescribed nightly phone calls with various group members, she begins to understand what it means to connect. “Often hilarious, and ultimately very touching” (People), Group is “a wild ride” (The Boston Globe), and with Christie as our guide, we are given a front row seat to the daring, exhilarating, painful, and hilarious journey that is group therapy—an under-explored process that breaks you down, and then reassembles you so that all the pieces finally fit.

Excerpt: One day I walked into these mountains, and I never came all the way back. For though Scotland's mountains may not be the highest in the world, they are certainly amongst the most awe-inspiring and enchanting. From the towering pinnacles of Skye, to the high rolling plateau of the Cairngorms; from the bonnie braes of Ben Lomond to the weeping cliffs of Glencoe; from the rocky battlements that encircle Loch Arkaig, to the gentle folds of Ben Lawers as it spills down to Loch Tay: here are offered scenes of unrivalled splendour, landscapes of unparalleled variety, and a magic ground for personal connection, inspiration, and transformation. These are places of accessible adventure - we leave behind the safety of the lush glen to cross the swooping moor, clamber up through craggy corridors, and with silver chuckling burn then spatey cascade as our sometime guide we reach at last the grand summits of these lands. Here beneath a hundred rainbows lie a hundred pots of gold - unclaimed scenic ingots that are yours for the taking and to which I hope to lead you, on a journey for body, for mind, and perhaps for something deeper.

New York Times Bestseller AT STAKE: THE FUTURE OF AMERICA The 2016 election is truly America's Armageddon—the ultimate and decisive battle to save America, a fight to defeat Hillary Clinton and the forces seeking to flout our constitutional government and replace it with an all-powerful president backed up by an activist judiciary that answers to no one. Already President Obama has moved America far down this path, and a President Clinton will act as his "third term," institutionalizing the excesses of the past eight years. In Armageddon, bestselling author and political strategist Dick Morris provides a winning game plan to take back the White House, and America. Because this is our last chance: • Our last chance to stop socialist uniformity, corruption and executive usurpation • Our last chance to curb welfare programs that are destroying the economic and social fabric of the nation • Our last chance to secure our border and keep our sovereignty • Our last chance to stand up against ISIS and terrorism • Our last chance to protect the Second Amendment We can do it. We must. It's our last chance. Read Armageddon, or risk losing the battle to save America! On Tuesday, November 8, 2016, American voters will make a momentous decision. They will decide whether or not this great country will remain a free market, constitutional democracy. The stakes could not be higher. If Hillary Clinton is elected president, it will mean the end of the America we know and love. Armageddon, by New York Times bestselling authors Dick Morris and Eileen McGann, is a call to arms, a call to join that ultimate battle. Few know Hillary Clinton better than Dick Morris. For almost two decades he served as a special adviser to both her and her husband, Bill Clinton. He knows their strengths, their vulnerabilities, and even their deepest secrets. In Armageddon, Morris offers a manual on how to win this battle and defeat Hillary once and for all. He argues that a typical Republican campaign won't work—and that Hillary's opponent must strike her in a very unorthodox and powerful way. Morris says it's a winning strategy and voters play a critical role. A noted political strategist, Dick Morris has created winning strategies for numerous presidential campaigns in the U.S. and abroad. In this book he lays out a war plan, one the Republican nominee must use to prevent her victory: • Throw a surprising right jab: terrorism and healthcare • Throw the left hook: jobs, immigration, Wall Street • Play her game on class warfare: women, Latinos, and young voters Republicans need to stop playing by the old rules of the game. Those rules don't work—they elected Barack Obama twice. Obama has changed America in fundamental ways and Morris posits that Hillary's opponents need to grasp this and implement a strategy that can finally defeat her.

Near Field Communication is a radio frequency technology that allows objects, such as mobile phones, computers, tags, or posters, to exchange information wirelessly across a small distance. This report on the progress of Near Field Communication reviews the features and functionality of the technology and summarizes the broad spectrum of its current and anticipated applications. We explore the development of NFC technology in recent years, introduce the major stakeholders in the NFC ecosystem, and project its movement toward mainstream adoption. Several examples of early implementation of NFC in libraries are highlighted, primarily involving the use of NFC to enhance discovery by linking books or other physical objects with digital information about library resources, but also including applications of NFC to collection management and self-checkout. Future uses of NFC in libraries, such as smart posters or other enhanced outreach, are envisioned as well as the potential for the "touch paradigm" and "Internet of things" to transform the ways in which library users interact with the information environment. Conscious of the privacy and security of our patrons, we also address continuing concerns related to NFC technology and its expected applications, recommending caution, awareness, and education as immediate next steps for librarians.

On the run, she can pass for white only as long as no one demands she lower her hood. But there's hope. It lies in the Floridas in a refuge commanded by an army of runaways. Negro Fort. The first sweet taste of freedom convinces Milly that surrender is not an option. But the U.S. Army is keen on the fort's conquest, and when it accomplishes the unthinkable, Milly must decide whether life is worth fighting for. Major Phillip Bailey has orders to subdue the uprising and return the runaways to their masters, all the while being forced to fight alongside Creek warriors—the same who etched the scars into his mind and flesh. The same who, in a storm of flame and blood, ripped out Phillip's heart and took her for himself. And then came Milly. While musket balls fly, a war of another sort rages inside Phillip—perpetuate a crumbling dream or pursue the forbidden; follow orders or follow his heart.

For anyone who wants to understand the full story that lies within a glass of wine, this book opens up the inner secrets of the geology, the vineyards, the wines, and the growers of the northern Rhône Valley in France. Home to the spicy Syrah, or Shiraz, and the floral Viognier grapes, the northern Rhône Valley is one of France's oldest wine-growing regions; its appellations include Hermitage, Côte-Rôtie, Condrieu, Crozes-Hermitage, St-Joseph, and Château-Grillet. With evocative descriptions and marvelous insights, this accessible, elegant book, the culmination of more than thirty years following the Rhône, is a comprehensive and authoritative survey of the various estates, winemakers, and their wines. Taking a deeper look at the northern Rhône than Livingstone-Learmonth's highly regarded previous volumes on the Rhône Valley, this revised and up-to-date edition covers more producers and includes more in-depth information on the various terroirs, the histories of the wines, and the methods for making the wines. Livingstone-Learmonth concentrates on letting the producers explain their outlook and methods and includes much local color. The Wines of the Northern Rhône includes * Assessments of thousands of wines, with guide dates onwhen to drink and how long to age them * Winemakers' views on what foods best accompany their wines * New vineyard maps for each appellation * Detailed descriptions by growers discussing the effect of different soils on their wines * Precise information on how each domaine makes its wines * New research on the historical links between Hermitage and Bordeaux
