**Can One Girl Win A War? My name is Kano Murasaki, but everyone calls me Risuko. Squirrel. I am from Serenity Province, though I was not born there. My nation has been at war for a hundred years, Serenity is under attack and my family is in disgrace, but some people think that I can bring victory. That I can be a very special kind of woman. All I want to do is climb. My name is Kano Murasaki, but everyone calls me Squirrel. Risuko. ~\*~ Though Japan has been devastated by a century of civil war, Risuko just wants to climb trees. Growing up far from the battlefields and court intrigues, the fatherless girl finds herself pulled into a plot that may reunite Japan — or may destroy it. She is torn from her home and what is left of her family, but finds new friends at a school that may not be what it seems. Magical but historical, Risuko follows her along the first dangerous steps to discovering who she truly is. Kano Murasaki, called Risuko (Squirrel) is a young, fatherless girl, more comfortable climbing trees than down on the ground. Yet she finds herself enmeshed in a game where the board is the whole nation of Japan, where the pieces are armies, moved by scheming lords, and a single girl couldn’t possibly have the power to change the outcome. Or could she? YOUNG ADULT HISTORICAL ADVENTURE As featured in Kirkus, Foreword, and on the cover of Publishers Weekly! Tight, exciting, and thoughtful... Risuko’s development and evolution are fascinating to watch in this powerful and relentless coming-of-age adventure. -- Foreword Reviews (spotlight review) Vividly portrayed, flush with cultural detail, and smoothly written. -- BookLife**

Famed for creating some of the most iconic images in European art - including Mona Lisa and The Last Supper - Leonardo da Vinci has influenced generations of artists and thinkers, and continues to do so after more than 500 years. While we cannot hope to emulate his achievements, da Vinci showed an attitude towards life from which we can all learn. A true polymath, he was also a sculptor, architect, musician, mathematician, engineer and an anatomist and, with an unquenchable thirst for knowledge, da Vinci was never satisfied with what he had learned, frequently turning his mind to new, unexplored subjects. He saw links between art and science, and constantly pursued perfection and accuracy in his work, so that he developed many techniques we continue to use to this day. Combining these strengths with a unique imagination, da Vinci came up with designs for inventions centuries ahead of their time. In How to Think Like da Vinci, you too can learn to think like the Renaissance man, seize your opportunities, harness your talents, innovate and experiment and imagine the impossible. Read about this great man's life and achievements and develop your understanding of one of the world's most eclectic and extraordinary minds.
