Professional

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

If you've dreamed about having a customized multimedia PC or one tricked out for your favorite games, build your own and make your dreams come true! Build Your Own PC Do-It-Yourself For

Whether a first-time candidate or IT professional in need of recertification, this essential study guide will help you prepare, practice, and pass with minimal burden and maximum results.

The corporate and the social are crucial themes of our times. In the first decade of the twenty-first century, both individual lives and society were shaped by capitalist crisis and the rise of social media. But what marks the distinctively social character of "social media"? And how does it relate to the wider social and economic context of contemporary capitalism? The concept of Corporate Social Responsibility (CSR) is based on the idea that a socially responsible capitalism is possible; this suggests that capitalist media corporations can not only enable social interaction and cooperation but also be socially responsible. This book provides a critical and provocative perspective on Corporate Social Responsibility (CSR) in media and communication industries. It examines both the academic discourse on CSR and actual corporate practices in the media sector, offering a double critique that reveals contradictions between corporate interests and social responsibilities. Marisol Sandoval's political economic analysis of Apple, AT&T, Google, HP, Microsoft, News Corp, The Walt Disney Company and Vivendi shows that media and communication in the twenty-first century are confronted with fundamental social responsibility challenges. From software patents and intellectual

property rights to privacy on the Internet, from working conditions in electronics manufacturing to hidden flows of eWaste – this book encourages the reader to explore the multifaceted social (ir)responsibilities that shape commercial media landscapes today. It makes a compelling argument for thinking beyond the corporate in order to envision and bring about truly social media. It will interest students and scholars of media studies, cultural industry studies, sociology, information society studies, organization studies, political economy, business and management.

MY MEMOIRS: A Learning Guide to Perform for the Young Professional This is My Story. This is my life story- How I grew, establish and serve my profession. “A memoir of a first-generation learner of humble beginnings. A down-to-earth village lad shared his memories. A practising man’s experiences in work culture & career advancement in science outreach and in motivational learnings.” I shared my beliefs, traits, the concepts I value, ‘The story of how I grew’ contained my village life, pass time activities of kids in rural areas (admitted candidly),; schooling, mother as the first teacher..... ‘My professional studies’ delineated the UG and PG studies of veterinary science, literature collection during ‘non-internet days,’ most memorable events of student life at veterinary college, Tirupati; doctorate studies at IVRI, Izatnagar..... ‘How I chose my job – self-analysis.... my teaching & research career in Andhra Pradesh and my learnings; my teaching & research experience in veterinary college, Puducherry....

From Corporate to Social Media

Chromebook Manual for Beginners

In times of global capitalist crisis we are witnessing a return of critique in the form of a surging interest in critical theories (such as the critical political economy of Karl Marx) and social rebellions as a reaction to the commodification and instrumentalization of everything. On one hand, there are overdrawn claims that social media (Twitter, Facebook, YouTube, etc) have caused uproars in countries like Tunisia and Egypt. On the other hand, the question arises as to what actual role social media play in contemporary capitalism, crisis, rebellions, the strengthening of the commons, and the potential creation of participatory democracy. The commodification of everything has resulted also in a commodification of the communication commons, including Internet communication that is today largely commercial in character. This book deals with the

questions of what kind of society and what kind of Internet are desirable, how capitalism, power structures and social media are connected, how political struggles are connected to social media, what current developments of the Internet and society tell us about potential futures, how an alternative Internet can look like, and how a participatory, commons-based Internet and a co-operative, participatory, sustainable information society can be achieved.
