Annotation An engineer with experience in the automotive and chemical process industries, Budinski has compiled material he used to train new engineers and technicians in an attempt to get his co-workers to document their work in a reasonable manner. He does not focus on the mechanics of the English language, but on the types of documents that an average technical person will encounter in business, government, or industry. He also thinks that students with no technical background should be able to benefit from the tutorial. c. Book News Inc

The title of the book says it all. 48 pages of line-drawings of Gangsta rappers, done with the black line we all remember from the colouring books of our youth. The juxtaposition of the outlaw image of the rappers with the childlike innocence of a colouring book makes for an instant laugh. In a smaller self-published edition, the book was an immediate hit with the few people who were able to see it. Now expanded from 20 to 48 pages, the book includes all of the top rappers, and their underground peers.

'Paris, 4 July 2003: My first Tour de France. I had never seen a bike race. I had only vaguely heard of Lance Armstrong. I had no idea what I was doing there. Yet, that day I was broadcasting live on television. I fumbled my way through a few platitudes, before summing up with the words, "...Dave Millar just missing out on the Yellow Jumper." Yes, the Yellow Jumper.' Follow Ned Boulting's (occasionally excruciating) experiences covering the world's most famous cycling race. His story offers an insider's view of what really goes on behind the scenes of the Tour. From up-close-and-personal encounters with Lance Armstrong to bewildered mishaps with the local cuisine, Ned's been there, done that and got the crumpled-looking t-shirt. Eight Tours on from Ned's humbling debut, he has grown to respect, mock, adore and crave the race in equal measure. What's more, he has even started to understand it. Praise for THE NEW MARKET WIZARDS "Jack Schwager simply writes the best books about trading I've ever read. These interviews always give me a lot to think about. If you like learning about traders and trading, you'll find that reading this book is time well spent." -Richard Dennis, President, The Dennis Trading Group, Inc. "Jack Schwager's deep knowledge of the markets and his extensive network of personal contacts throughout the industry have set him apart as the definitive market chronicler of our age." -Ed Seykota "Very interesting indeed!" -John Train, author of The Money Masters "Successful trading demands longtime experience because it requires firsthand knowledge. If there is a shortcut to this requirement, however, it is in reading about the experiences of others. Jack Schwager's book provides that shortcut. If you find yourself sweating upon occasion as you read, then you're as close to the trading experience as you can get without actually doing it yourself." -Robert R. Prechter, Jr., editor, The Elliott Wave Theorist THE NEW MARKET WIZARDS Some traders distinguish themselves from the herd. These supertraders make millions of dollars-sometimes in hours-and consistently outperform their peers. As he did in his acclaimed national bestseller, Market Wizards, Jack Schwager interviews a host of these supertraders, spectacular winners whose success occurs across a spectrum of financial markets. These traders use different methods, but they all share an edge. How do they do it? What separates them from the others? What can they teach the average trader or investor? In The New Market Wizards, these wildly successful traders relate the financial strategies that have rocketed them to success, as well as the embarrassing losses that have proven them all too human. Meet the Wizards of Wall Street: * Stan Druckenmiller, who, as manager of the Soros Quantum Fund, realized an average annual return of more than 38 percent on assets ranging between \$2.0 and \$3.5 billion * William Eckhardt, a mathematician who, in collaboration with trader Richard Dennis, selected and trained the now-legendary circle known as the Turtles * Bill Lipschutz, a former architect who, for eight years, was Salomon Brothers' largest and most successful currency trader * Blair Hull, a one-time blackjack player who began an options trading company with Asking the questions that readers with an interest in the financial markets would love to pose to the financial superstars, and filled with candid appraisals, The New Market Wizards takes its place as a classic.
