Hulda Clark The Cure For All Advanced Cancers

The author of this book maintains that cancer can now be cured, not just treated.
Dr. Hulda Regehr

Online Library
Hulda Clark The
Cure For All

Clark claims to have discovered the cure for cancer in 1990. The Cure for All Cancers explains how it can be done.

A research finding shows that there is a single cause for various cancers.

This book provides an instruction for their cure. It includes over 100 case histories of the persons cured.

Cancer can now be cured, not only the early stages, but also advanced cancer,

stages four and
five, including
imminent death.

We are not
accustomed to
thinking about a
cure. We think of
remission as the
only possibility.
But this book is
not about
remission. It is
about a cure.

This is possible because the true cause of cancer has been found. The cause of the malignancy is explained in the earlier book, "The Cure For All Cancers" (1890035009, £14.50). But removing the

malignancy left behind the tumours as they were, prior to the malignant development. So, eliminating tumours became the focus of additional research, and is the subject of this book. The 21 Day

described in this

Once you win this
battle, even
advanced cancer
can be cured. The
success rate for

is about 95%. So
you can count on
this method, not

It is a total
approach that not
only shrinks
tumours, but also
normalises your

lowers your
cancer markers,
and returns your
health. The small
failure rate (5%)
is due to clinical

However, if you combine the advice in this book with access to hospital care, even 'hopeless' patients can gain the time necessary to

simple; virtually all
diseases not caused
by old age or genetic

by an unfocused
immune system. Lazy

viruses, infectious

being hyperactive
when confronted with

solution? Simply fine

system to operate
correctly, and all
these diseases will be
a thing of the past.
And it is so easy to
